PLEASE NOTE:

- Dates may be modified slightly if changes to meter read schedules are necessary.
- Wastewater average will be based on water consumption for all three months.
- Months with zero consumption will not be included in the calculations.
- More than one month with zero usage results in a default wastewater averaging.

**Service must be active at least 60 days to qualify for wastewater averaging otherwise the customer will have a default wastewater average. Residential WWA default is 5,000 gallons. Commercial default - refer to rates schedule.*
