

Austin guide to...

EAST AUSTIN

environmental initiative

Mandated by the City Council in 1993 at the urging of the community, this Watershed Protection Department initiative fosters a partnership between the City and its citizens to address environmental concerns in East Austin.

Goals:

- Inform citizens about City environmental programs and services
- Reduce pollution in East Austin
- Encourage citizen involvement in problem solving

What We Offer:

- A semi-annual newsletter and other educational materials
- Presentations to the community and participation in East Austin events
- Pollution prevention programs and services
