

# MEREDITH STREET STORM DRAIN IMPROVEMENTS

## PROTECTING LIVES & PROPERTY

This project includes installing storm drain pipes and inlets on Meredith St., Leberman Lane, Rockmoor Ave., and Cherry Lane and Stevenson Ave. These pipes will help collect

rain water and reduce the chances of homes flooding in this area. The project will help relieve pressure on the existing, undersized storm drain system.

## TYPICAL STORM DRAIN SYSTEM

1 INLETS AND CURBS CAPTURE RAIN WATER.

2 UNDERGROUND PIPES CARRY THE WATER.

3 RAIN WATER IS RELEASED INTO A CREEK.

### Pardon Our Dust!

Please expect detours, noise, dust and vibrations. The project should take about one and a half years. We apologize for any inconvenience!
