Central Texas Clean Cities

Reducing Our Nation’s Dependence on Foreign Oil Through Landscape Initiatives

U.S. Department of Energy
The Clean Cities Mission

To advance the economic, environmental and energy security of the United States by supporting local practices that contribute to the petroleum reduction in the transportation sector.
Petroleum Displacement Methods

- **Replace** petroleum with alternative fuels and low-level blends.

- **Reduce** by promoting energy efficiency in vehicles through advanced technologies and more fuel efficient vehicles.

- **Eliminate** by promoting idle reduction, greater use of mass transit, trip elimination, and other congestion mitigation approaches.
Reported Alternative Fuel Use in Central Texas

- 2010 CTCC annual survey reported 3,166,396 gge reduced through the use of alternative fuels.
- 13,611 tons of greenhouse gas emissions reduced.
- 2,054,248 gasoline gallon equivalents of propane were used in vehicles,
- 6,824 gge of propane was used in landscape equipment.
