Watershed Protection Development Review

Watershed Protection & Development Review Department, The City of Austin produced this map for the sole purpose of use as a work resource and as an estimated boundary of landfills in & around Austin. The City of Austin does not warrant the map &/or information regarding its accuracy or completeness. Reproduction is not permitted without permission from the City of Austin-Watershed Protection & Development Review Department.

Date: 09.20.2006

3.11 #11, INDUSTRIAL WASTE MATERIALS MANAGEMENT

Location: The Industrial Waste Materials Management landfill is owned by a commercial entity, and is located in northeast Austin, at Hwy 290 and Giles Road. The Industrial Waste Materials Management landfill appears today essentially as described in the 1984 URM report.

Extent: The closed landfill site is situated within an active landfill and near several other active and closed commercial landfills. The landfill is evident as a raised cap and is well graded with a grass cover. No trees or brush are growing on the landfill surface. The site is fenced to restrict public access.

Prior Use: no information available

Groundwater: This closed site is monitored by Waste Management Inc. under an agreement with the City of Austin that requires groundwater monitoring and periodic inspection of the adjacent creek bank for seeps and erosion. The surrounding active landfill (WMI, Austin Community Disposal Landfill) operates a leachate collection system and a soil gas venting system.

Remediation: see above

Current Conditions: Beyond those conditions already being addressed by Waste Management Inc., current conditions associated with this site do not appear to pose a material concern to human health or the environment, or represent a regulatory violation.
