NOVEL ECOLOGIES

Bill Hanna

Joe Barbera

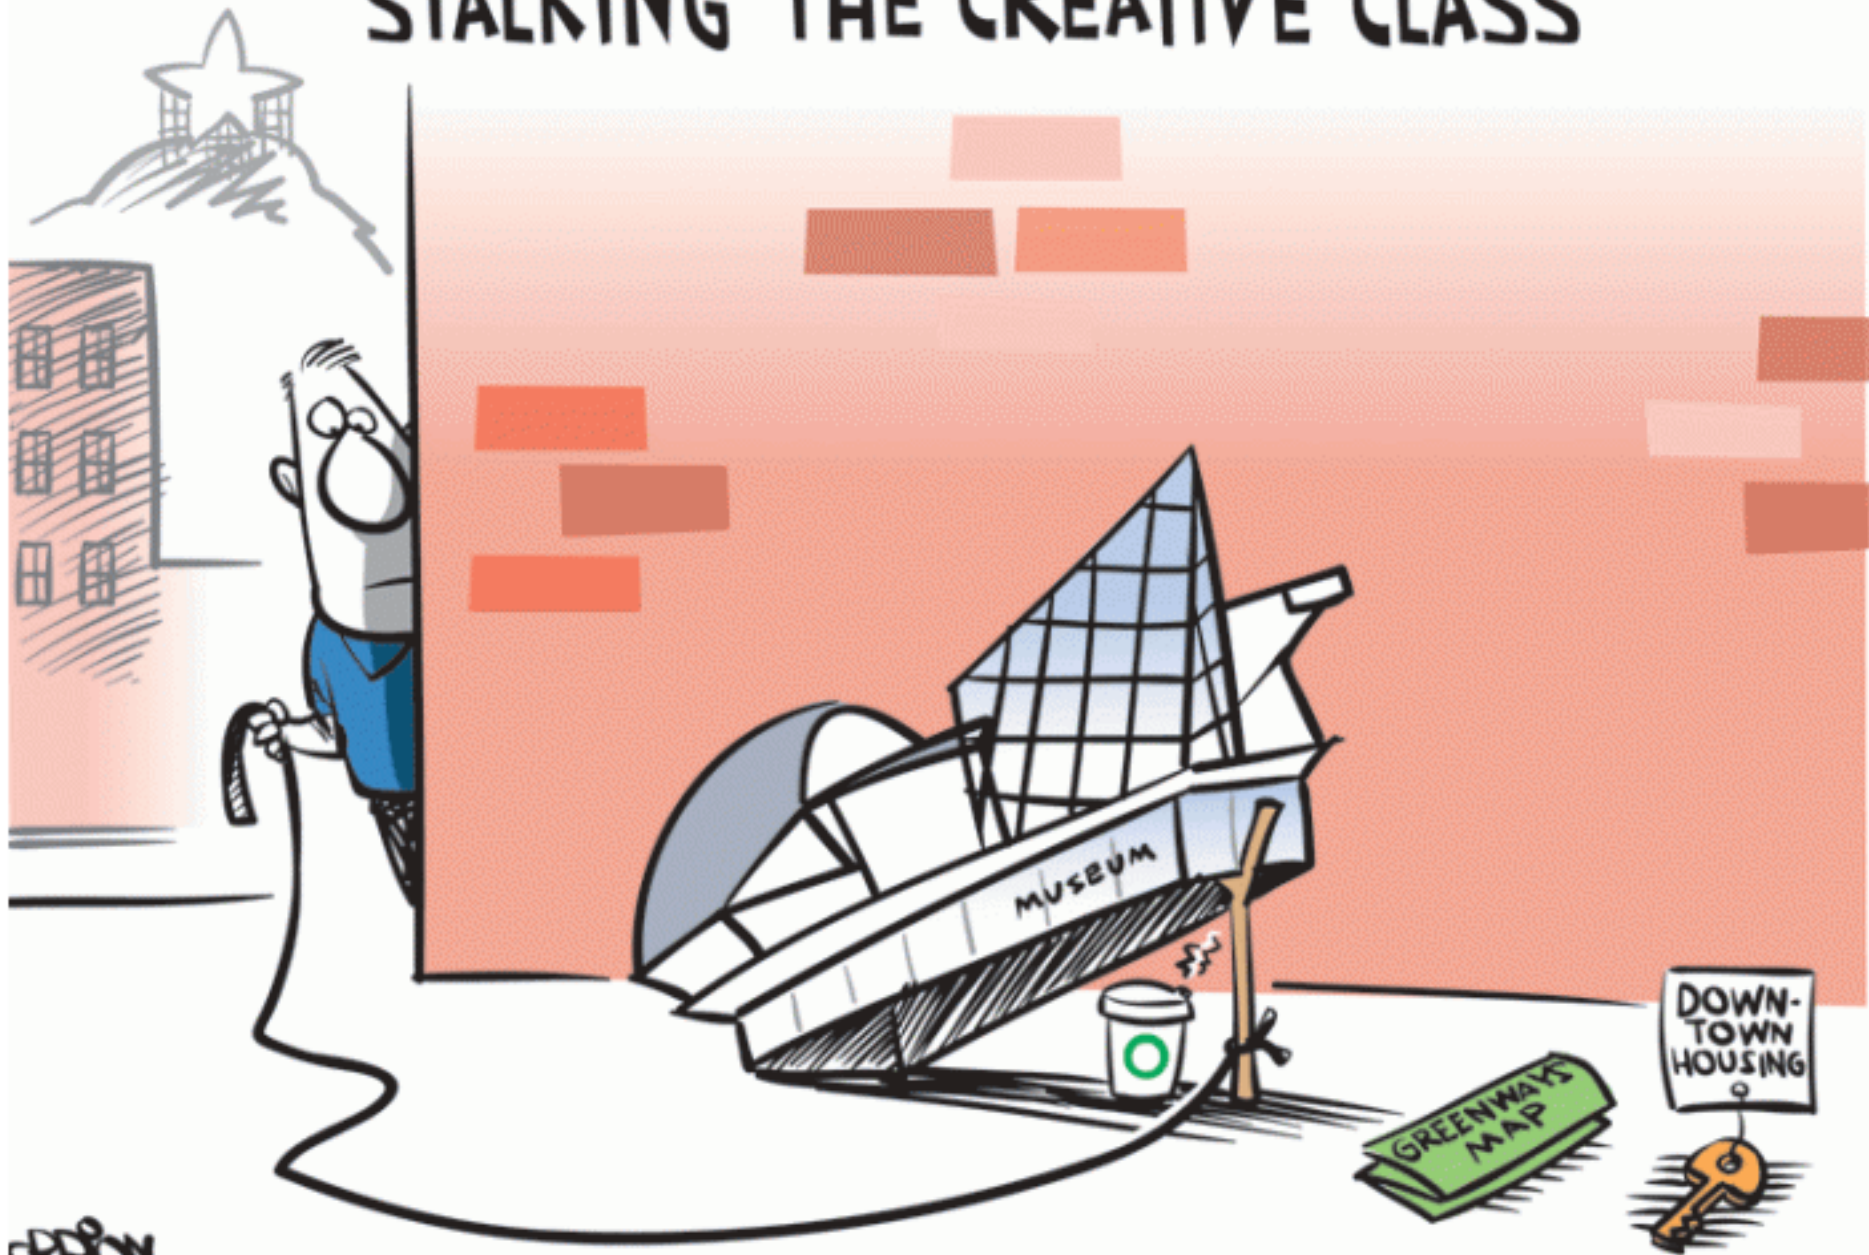

The book cover features a light blue background with a whimsical, colorful illustration of a city. The buildings are represented by various colored blocks (yellow, green, pink, blue) of different heights and shapes, some with small windows. A black line, possibly representing a train track or a path, winds through the city. The sky is light blue with a few white clouds. The author's name, 'Charles Montgomery', is printed in a bold, black, sans-serif font at the top.

TREASURE ISLAND

Focus Ferries to City and West Side of Island

Make ferry link convenient and visible

- 
- An architectural rendering of a waterfront development project. The main focus is a large, rectangular landmass on the left, densely packed with buildings and green spaces, connected to a larger landmass on the right by a narrow strip of land. The right landmass is more irregular and features a golf course, residential areas, and a large building. The entire development is situated along a body of water, with a bridge visible in the background. A list of project features is overlaid on the left landmass.
- 8,000 homes on TI and YBI
 - 420 Hotel Rooms
 - 235,000 sf Retail
 - 300 acres Open Space
 - Historic Adaptive Re-use
