Prenatal Vitamins (for example: Citranatal Assure, Prenate DHA, Stuartnatal) - Brand Name and Generic Products

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting [myuhc.com](http://myuhc.com)® or by calling the toll-free member phone number on the back of your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access [myuhc.com](http://myuhc.com) for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

Medications are categorized by common therapeutic conditions in this reference guide for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines how these medications may be covered for you.

Where differences are noted between this reference guide and your benefit plan documents, the benefit plan documents will govern.

\*Coverage is provided for oral formulations.

**Bold type = Brand name drug** [Plain type = Generic drug]

Clinical programs such as Notification/Prior Authorization, Step Therapy and Supply Limits may apply to listed medications based off your benefit plan.

This list is intended as a reference and may not be all-inclusive. Brand or generic availability may not be current due to changes in the market. The list will be updated annually.

## Breast Cancer Preventive Medications

For women who are at increased risk for breast cancer but have not had breast cancer, these preventive medications are available at 100% plan paid. To qualify, a woman must:

- ▶ Be age 35 or older
- ▶ At increased risk for the first occurrence of breast cancer – after risk assessment and counseling
- ▶ Obtain Prior Authorization

Most plans cover these medications at normal cost-share for the treatment of breast cancer, to prevent breast cancer recurrence and for other indications. They are available at 100% plan paid to prevent the first occurrence of breast cancer if a Prior Authorization is obtained. If a woman qualifies, she can receive these drugs at 100% plan paid for up to five years, minus any time she has been taking them for prevention.
