**Subject:** Little Woodrow's Guadeloupe - Outdoor Live Music Venue Permit

Clara,

Per your request, here is what Little Woodrow's would be willing to consider with respect to modifying our Outdoor Live Music Venue Permit at our 2610 Guadeloupe location in an effort to be good neighbors and in the spirit of cooperation.

- We would be willing to limit live music on our patio to no more than 2 times per week.
- We would agree not to have live music on our patio during UT semester finals.
- We will agree to reorient our outdoor speakers away from the residents next door and to direct the sound toward our building.

As we've also discussed, I am also more than willing to provide my personal contact information as the owner of the business in the event there is ever a complaint or perceived violation in an effort to streamline and proactively address the enforcement of our permitted use.

Please feel free to contact me with any questions.

Thank you,

**Rick Engel**
