## Additional Backup Information

The South Austin Combined Neighborhood Plan is the first neighborhood plan initiated after the adoption of the *Imagine Austin Comprehensive Plan*. The combined planning area includes the Westgate, South Manchaca, and Garrison Park Planning Areas. The neighborhood planning process is a community-driven process that works within the framework of *Imagine Austin* to address the goals of the comprehensive plan and the neighborhood planning area at the neighborhood scale.

Planning and Development Review Department staff began meeting with stakeholders in late 2012 and held the first workshop in January 2013. Over the course of 2013, 12 workshops and other community meetings were held with the community. Staff also incorporated input collected through online and mail surveys, as well as attending neighborhood association meetings and meeting with stakeholders.

The vision statement for their neighborhood is to “Create a complete community that is mobile and interconnected; compact, accessible, and affordable; natural and sustainable; healthy, safe, creative, and engaged.” The plan includes goals, policies, and actions related to transportation, land use, environment, health, safety, and creativity.
