Additional Backup Information	
<p>Austin is required by the Texas Commission on Environmental Quality (TCEQ) to file a Drought Contingency Plan (DCP) every five years. Austin is also required by its 2007 agreement with the Lower Colorado River Authority's (LCRA) to develop a DCP that reflects consideration of the targets and goals of LCRA's Drought Contingency Plan (DCP).</p> <p>Austin is not currently due to update its DCP, but the changes outlined here are being made at this time to reflect the changes being proposed to the Water Conservation Code which are coming forward in a companion, but separate item.</p> <p>These proposed revisions to the DCP update the previously adopted 2012 DCP and fulfills TCEQ requirements under 30 TAC § 288.20 and § 288.22.</p> <p>The proposed Austin DCP specifies the triggers used to initiate implementation of specific water use reduction measures contained in the Water Conservation Code (§ 6-4 Austin City Code). These triggers are demand based (how much water is consumed), supply based (how much water is available) and emergency based (man-made or natural disaster).</p> <p><u>Changes from the 2012 Drought Contingency Plan</u></p> <ul style="list-style-type: none"> • Replaces the Water Conservation Code (§ 6-4 Austin City Code) in Appendix A with an amended version • Updated Table 1, City of Austin Treatment Plants and Capacity to include Water Treatment Plant 4 • Updates number of customers • Eliminates language that refers specifically to the 2012 DCP update • Updates Austin's water usage numbers.
