Additional Backup Information

The contract with Wastewater Transport Services, LLC provides emergency response sludge and sewage pumping, hauling and disposal services. Funding in this contract was depleted as a result of the Halloween floods of 2015. The flooding led to an increased amount of contaminated sludge and sewage needing to be removed from City sewers and wastewater lines.

The contract was awarded through the competitive process on August 16, 2012, in an amount not to exceed \$400,000 for the initial 24-month contract period with one 24-month extension option period in an amount not to exceed \$400,000. The proposed amendment is for an increase in the amount of \$145,000.

If the City is unable to increase the contract authorization amount, the City will no longer have emergency response sludge and sewage pumping, hauling, and disposal services.
