ZONING CHANGE REVIEW SHEET

CASE: C14-2016-0060 - 2801 Hancock Drive

Z.A.P. DATE: July 19, 2016

ADDRESS: 2801 Hancock Drive

DISTRICT AREA: 10

OWNER/APPLICANT: Robert P. Stern Trust

AGENT: Texas Design Interests, LLC (Jeff Shindler)

ZONING FROM: CS TO: CS-MU AREA: 0.456 acres (19,863 sq. ft.)

SUMMARY STAFF RECOMMENDATION:
Staff recommends granting general commercial services-mixed use (CS-MU) combining district zoning.

ISSUES: Transportation review continues on this case with additional information to be provided in late back-up.

ZONING AND PLATTING COMMISSION RECOMMENDATION:
July 19, 2016; Approved CS-MU-CO combining district zoning with the following uses prohibited: transitional housing, transportation terminal, adult-oriented business, automotive repair services, bail bond services, commercial blood plasma center, drop-off recycling collection facilities, outdoor entertainment, outdoor sports and recreation, pawn shop services, campground.

DEPARTMENT COMMENTS:
The subject tract is located on the southwest corner of Hancock Drive and Bull Creek Road and is currently used for monument retail sales by Dietz - Stasswender Memorials. The tract is developed with a 1-story commercial building and an attached metal forecourt that was used by an auto repair/filling station in the past. A portion, almost half, of the property is undeveloped. The property has two driveways from Hancock Drive and one driveway from Bull Creek Road.

This rezoning request is for the addition of the mixed use (MU) combining district to the existing commercial services (CS) base zoning district.

C14-2016-0060 - CC - August 11, 2016
The subject tract is within the boundaries of the Rosedale NPA, which does not have an adopted plan, and is at an intersection that serves as a node of non-residential activity in an area that is predominantly single-family residential. Uses at this intersection and along portions of Hancock Drive are neighborhood serving and include auto repair, plant nursery, primary education facilities and art studio.

A greater variety of uses could benefit the area and this location is appropriate for a true mixed-use development with residential and non-residential uses on the same site and possibly in the same building and is appropriately scaled to the context of the surrounding residential uses. The tract would also be appropriate for higher intensity residential uses alone. Redevelopment under either scenario would provide a transition to less-intense, residential uses near-by. Furthermore, Hancock Drive and Bull Creek Road have Capitol Metro Bus Route service with 3 stops in the immediate area. Higher density residential use, with or without a retail use, on this tract would help to support the existing transit service in this area.

Staff supports the rezoning to CS-MU because it is congruent with the Imagine Austin Comprehensive Plan in that it would provide the opportunity for compact development that is connected by transit, would allow a mix of uses that would place residential, work, and retail land uses in proximity to each other and that serve as a destination to walk or bicycle to. The rezoning would encourage a variety in housing types in this area. Additionally, the zoning change to allow residential uses will promote compatibility with the near-by residential uses.

EXISTING CONDITIONS

Site Characteristics
The subject tract is developed with a 1-story commercial building and an attached metal forecourt. About half of the property is developed with impermeable surface (concrete) and the other half is undeveloped, green space. There are a number of trees on the undeveloped portion of tract that vary in size. There does not appear to be any topographic constraints since data shows very little change in elevation across the site.

Impervious Cover
In this location, zoning district impervious cover limits apply. The CS zoning district allows up to 95% impervious cover. If the property is developed with a residential use under the MU combining district, site development regulations, including impervious cover, could be more restrictive than what is allowed by the CS base zoning district. Note: The most restrictive impervious cover limit applies.

P&Z Comprehensive Planning - Kathleen Fox, 512-974-7877
Connectivity
A CapMetro stop is located within a quarter mile of this property, while public sidewalks on the two streets abutting this property are sparse and intermittent. The Walkscore for this site is 47/100, labeled as ‘Car Dependent’ meaning most errands require a car.

Imagine Austin
Based on the comparative scale of this site relative to other commercial uses in this area, as well as the site not being located along an Activity Corridor or within an Activity Center, this case falls below the scope of Imagine Austin, which is broad in scope, and consequently the plan is neutral on this proposed rezoning.

DSD Environmental – Mike McDougal, 512-974-6380
1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Shoal Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

2. Zoning district impervious cover limits apply in the Urban Watershed classification.

3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**DSD Transportation – Natalia Rodriguez, 512-974-3099**

TR1. Additional right-of-way maybe required at the time of subdivision and/or site plan.

TR2. Staff is still determining if a NTA is required at this time, however, if existing and proposed trips cumulatively exceed 300 trips per day, a NTA shall be required per LDC 25-6-114 at the time of site plan application. Additional comments may be provided after further review.

TR3. Nadia Barrera, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a buffered bike lane is recommended for Bull Creek Road. According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane is recommended for Hancock

**Water and Wastewater – Neal Kepple, 512-972-0077**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater
service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

**Storm Water Detention**
At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in storm water runoff will be mitigated through on-site storm water detention ponds, or participation in the City of Austin Regional Storm water Management Program if available.

**DSD Site Plan Review – Michael Simmons-Smith, 512-974-1225**
SP 1. Development on this site will be subject to Subchapter E: Design Standards and Mixed Use, including Section 4.2 (Mixed Use Zoning Districts). Hancock Drive, the Principal Street, is considered an Urban Roadway for design purposes.

SP 2. Additional Site Plan Review comments will be provided upon submittal of site plans to accompany an application for site development permit.

This map has been produced by the Communications Technology Management Dept. on behalf of the Planning Development Review Dept. for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.
Application Date: 10/24/2014  
Site Plan Expiration Date: 11/18/2018
Permit No.: SP-2014-0431C
Project Name (or description): Hancock Site
Address or Location Description: 2801 Hancock Dr.
Watershed: Shoal Creek
Owner of Property: Rob Stern, Rob P. Stern Trust (512) 502-1300
Address: 4131 Spicewood Springs Rd. Suite N-1, Austin TX 78759
Owner’s Representative: David B. Holt, Holt Planners, (512) 327-4660
Address: P.O. Box 10903 Austin, TX 78766
Legal Description: Lot 1, Newton and Luckey Addition, Block 7

PERMIT IS HEREBY ISSUED FOR:
The project is composed of an existing 1,275 SF 1-story retail building and the new construction of a 3,094 SF 1-Story building with two units consisting of general retail and restaurant with an attached 350 s.q. covered patio totaling 4,369 (GFA) on a 0.448-acre site with associated parking, detention and other improvements. The total impervious cover is 89%. The project is located within the Shoal Creek watershed and is subject to all watershed protection regulations as set forth in Chapter 25 of the City of Austin Code of Ordinances. This project is located within the City’s Full-Purpose jurisdiction.

CONDITIONS OF PERMIT

It is agreed that the proposed development shall be performed and completed in accordance with the plans and specifications approved by the City of Austin Standard Specifications and Code requirements and State of Texas construction safety statutes. All development approved by this permit is subject to the inspection and control of the City of Austin.

It is the responsibility of the permit holder to identify all utilities in the work area and to notify each utility of the scope of work in the immediate area of the utilities.

ENGINEER’S CERTIFICATION: Inspection and a “Certification of Completion” by a Texas Licensed Engineer are required for the development approved by this permit. No Certificate of Occupancy may be approved until the Engineer’s Certification is filed. The engineer is responsible for the adequacy of the plans submitted with this application.
