Additional Backup Information

U. S. Treasury Regulations require that the City adopt an Official Declaration of Intent to Reimburse. By this action, Council is asked to declare the City's intent to reimburse itself from the issuance of debt obligations in the future for current costs related to acquisition and construction costs for Fiscal Year 2016-2017 Electric Utility Capital Improvement Projects. The City reasonably expects to incur through October 2017, with an aggregate maximum principal amount of \$103,000,000 for the purpose of paying for costs incurred from October 1, 2016 through October 31, 2017, which are associated with Electric Utility Capital Improvement Projects. All costs to be reimbursed will be capital expenditures within the meaning of Section 1.103-18(c)(2)iii of the Treasury Regulations.

A city must have budgeted for and provided a source of funds in order to enter into a contract. For the City to spend money today, but reimburse itself from the issuance of debt obligations in the future, a reimbursement resolution is required by state and federal law. The resolution must contain certain information to protect the tax-exempt status of the future issuance. The resolution must be passed not more than 60 days after the date that the cost to be reimbursed is paid. Failure to adopt a qualified declaration of official intent will prohibit the City from reimbursing the

costs with the proceeds of tax exempt obligations. Reimbursement bonds generally must be issued no later than 18 months after the later of, the date the expenditure was made, or the date that the project, with respect to which the expenditure was made, is placed in service.
