CPA-2016-0003: Activity Corridor on Guadalupe Street from 29th Street to 51st Street

Applicant: Planning and Zoning Department

Background: Guadalupe Street is designated as a Core Transit Corridor, and identified in Imagine Austin as a route for high capacity transit. Imagine Austin defines Activity Corridors as similar to an activity center, it is an area identified on the Growth Concept Map where an increased density of people, jobs, businesses, and services will be located. However, due to its linear nature the people, jobs, and services will be located along the length of the corridor. A corridor's character will depend on factors such as road width, traffic volume, the size and configuration of lots, and existing uses. Along different segments of these corridors, there may be multi-story mixed-use buildings, apartment buildings, shops, public uses, offices, as well as townhouses, rowhouses, duplexes, and single-family houses.

1. Add new Activity Corridor on Guadalupe Street from 29th Street to 51st Street to the Growth Concept Map series. Figure 4.2 (p 100), Figure 4.3 (p 101), Figure 4.4 (p 102), and Figure 4.5 (p 103).

Applicant: City Council

Background: With ordinance 20160519-049, Council adopted the Vision Zero Action Plan. Adopted small area plans, neighborhood plans, and station area plans are attached to and included in the Imagine Austin Comprehensive Plan.

CPA-2016-0005: Age Friendly amendments

Applicant: Commission on Seniors

Background: Imagine Austin lays out the community's vision for Austin to become a city of "complete communities," or places where people of all ages, abilities, and incomes have access to amenities, transportation, services, and opportunities that fulfill all of their material, social, and economic needs.

In June 2016, the City's Commission on Seniors voted 13-0 to recommend amending the Imagine Austin Comprehensive Plan to include a policy and action to address key issues and challenges faced by seniors.

1. Add new policy (S P30) (p 174): "Austin commits itself to becoming an age-friendly city that enables people of all ages to actively participate in community activities and treats everyone with respect, regardless of their age."
2. Add new action (S A55) (p 262): "Develop an Age-friendly action plan for Austin to include the elements of outdoor spaces and buildings, transportation, social participation, respect and social inclusion, civic participation and employment, communication and information, and health services ."
