

**AN ORDINANCE AMENDING CITY CODE SECTION 15-9-142
RELATING TO BILLING ADJUSTMENTS FOR UTILITY BILLS
INDICATING EXCESS WATER CONSUMPTION BY SINGLE-FAMILY
RESIDENTIAL CUSTOMERS.**

PART 1. City Code Subsection G of Section 15-9-142 (*Adjustment of High-Volume Water Bill*) is amended to read as follows:

- (1) The adjusted total volume (ATV) is the sum of the actual metered volume (AMV) of water consumed less fifty percent of the actual metered volume that exceeds expected volume (EV). The preceding sentence is represented by the formula: $ATV = AMV - ((AMV - EV) / 2)$.

- ~~(2) Charges for the adjusted total volume will be the sum of: (a) the expected volume (EV) charged at the rate for single-family residential customers; and (b) the volume represented by that portion of the adjusted total volume equal to $(AMV - EV)/2$ charged at the lower of the rate for single-family residential customers, or a rate for excess usage.~~
