DEPARTMENTAL COMMENTS:

The subject property for which this amendment is proposed, consists of 3 tracts totaling 18.61-acres located between E. Ben White Boulevard and Montopolis Drive (see Exhibit A). They were zoned industrial in 1979 with the restrictive covenant and then zoned limited industrial (LI-NP) as part of the Montopolis Neighborhood Plan adoption in 2001.

The restrictive covenant is consistent with others in the area. In 1979, many tracts in this area were zoned industrial. However, the covenants were included to provide a public process if an industrial use is proposed. That process would be the requirement of a Planned Development Area Agreement (PDA) which i approved by the City Council.

As set forth in Land Development Code Section 25-2-441, the regulations of a planned development area (PDA) may modify: 1) permitted or conditional uses authorized by the base zoning district, 2) site development regulations except for compatibility standards, and 3) off-street parking or loading regulations, sign regulations or screening regulations applicable in the base district.

The first provision of the public restrictive covenant states:

- 1. No use shall be maintained with respect to all or any portion of the subject property which could not be maintained if same were on property in the City of Austin which was zoned "C" Commercial, First Height and Area, under the zoning ordinance as the same existed January 4, 1979 unless and until a Planned Development Area Agreement (or Agreements) is executed by and between the then owner (or owners) of the Subject Property and City of Austin with respect to that portion of Subject Property upon which such use is to be maintained, and such Planned Development Area Agreement is recorded in the Deed Records of Travis County, Texas. As such time as a Planned Development Area Agreement is executed and recorded in accordance herewith, that portion of the Subject Property subject to such Planned Development Area Agreement shall no longer be subject to the restrictions contained in this restrictive covenant and this covenant shall be of no force and effect whatsoever with respect to such portion of the Subject Property.*

Because the property was zoned LI-NP during the neighborhood planning process staff believes it is unnecessary to require a PDA as the area has been identified to provide these uses.

The termination of this covenant was previously associated with a Neighborhood Plan Amendment request and zoning change request. Those applications have been withdrawn however the property owner would like to remove the restrictive covenant which staff supports.
