

Del Valle Fire Station Petition

We, the citizens of Del Valle, petition the city to build a fire station at Moore's Crossing in Del Valle.

Currently, the response time to Del Valle and east Travis County area is 13 minutes, which is unacceptable. The Austin Fire Department average response time is 8 minutes, the extra 5 minutes it takes for a first responder to reach Del Valle could have dire consequences. The City Council must ensure the safety of all of its citizens, even if we are on the outskirts of the city.

We demand the City Council fund and build the Moore's Crossing fire station within the next two years and create a temporary station by the end of 2018.
