

RESOLUTION NO.

WHEREAS, the population of Austin has increased by more than two percent annually since 2006 and the Austin metro is projected to double in population by 2045;

WHEREAS, traffic congestion is one of the most serious problems that threatens our region's economic health and quality of life. Residents now spend an average of 50 hours annually in peak hour congestion, costing \$1.1 billion/year in travel delays; and

WHEREAS, respondents to the City of Austin's 2016 Mobility Talks community-wide survey indicated that while most people are currently driving alone for most trips, more than 60 percent of respondents would prefer to use public transit; and

WHEREAS, it is a shared goal and responsibility of both Capital Metro and the City of Austin to provide transportation solutions to our community that get us where we want to go, when we want to get there, safely and cost effectively; and

WHEREAS, Council adopted the *Strategic Direction 2023* in March, 2018 and in April, 2018, as part of the budget development process, Council prioritized "Mobility: Accessibility to and equity of multi-modal transportation services" within its top 10 indicator categories among the outcomes; and

WHEREAS, Austin voters approved a \$720 million mobility bond program in 2016 of which \$482 million is dedicated toward Corridor Improvements; and

WHEREAS, City Council Resolution No. 20160818-074, adopted August 18, 2016, directed the City Manager to bring forth recommendations supported by identifiable metrics for implementation of a "Corridor Construction Program" for the \$482 million in the 2016 Mobility Bond in ways that prioritize: a) reduction in congestion; b) improved level of service and reduced delay at intersections for all modes of travel; c) connectivity, and improved effectiveness of transit operations within these corridors and throughout the system. The Resolution also directed the City Manager that the Corridor Construction Program shall further emphasize making corridors livable, walkable, safe, and transit-supportive, and aligned with the principles and metrics in the Imagine Austin Comprehensive Plan, with goals of reducing vehicle miles

traveled, increasing transit ridership and non-vehicular trips, and promoting healthy, equitable, and complete communities as growth occurs on these corridors; and

WHEREAS, the City Manager was directed by City Council via Resolution No. 20180426-028, adopted April 26, 2018, to continue coordination with Capital Metro staff and the Austin Strategic Mobility Plan to advance projects and programs to improve transit performance and availability through transit priority treatments, ensuring that the Corridor Construction Program planning does not preclude options for further transit investments along the corridors, and that the preliminary engineering phase include studying transit supportive corridor improvements; and

WHEREAS, Capital Metro is developing a high-capacity transit system plan (“Project Connect”) to address the region’s need for improved mobility choices, improve regional connectivity and reduce transportation costs for households to improve affordability; and

WHEREAS, Project Connect has been and will continue to be closely coordinated with City of Austin transportation initiatives including the 2016 Mobility Bond Corridor Program and the Austin Strategic Mobility Plan and is complementary to and supportive of those programs; and

WHEREAS, conducting preliminary engineering work and environmental analysis on Project Connect corridors and projects will require an estimated \$17- \$22 million over two years depending on the results of upcoming community engagement and Capital Metro Board prioritization; and

WHEREAS, absent funding partnerships, Capital Metro’s budget can only support an estimated \$5 million of the work in the 2019-2020 time period; and

WHEREAS, Capital Metropolitan Transportation Authority (Capital Metro) imposes a one cent tax on sales within the limits of the City of Austin and in the early 2000’s, Capital Metro and the City entered into an Interlocal agreement (ILA) whereby Capital Metro would pay to the City its pro rata share of 25% (1/4 of a cent, or Quarter Cent) of its sale tax from the years 2001-2004 to carry out various approved transportation projects; and

WHEREAS, the ILA was amended in April, 2010 to direct that Capital Metro shall reimburse the City annually, commencing November 1, 2010, and on or before November 1 of each subsequent year for expenses incurred on Quarter Cent funded Transportation Projects invoiced by the City; and

WHEREAS, Resolution No. 20150618-093 adopted on June 18, 2015 identified that the total amount of the “Quarter Cent” funding was \$139.4 million with \$113.4 million spent at that time and \$4.3 million obligated, leaving \$21.7 million remaining. The resolution directed the City Manager to identify projects for the remaining Quarter Cent funds that meet the criteria established in the ILA (enhances regional mobility, supports public transit, provides leverage for federal or private funds, adds to an existing program, or expedites a critical mobility project), as well as those that address the following purposes: transportation safety, improved access to schools, new traffic signals, existing infrastructure needs, traffic calming, and improved access to transit; and

WHEREAS, on January 28, 2016, Resolution No. 20160128-050 adopted a list of projects to be funded by the remaining Capital Metro Quarter Cent funds in an amount not to exceed \$21.8 million; and

WHEREAS, of the projects adopted in 2016 to be funded by the remaining Capital Metro Quarter Cent funds, \$15.8 million of work is in progress or completed, leaving approximately \$6 million unallocated to a specific project.

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

The City Manager is authorized to work with the Capital Metropolitan Transportation Authority (Capital Metro) to negotiate an amendment to the Interlocal Agreement for Regional Mobility and Transportation Projects between the City of Austin and Capital Metro related to the “Quarter Cent program” that will effectively remove the requirement that Capital Metro reimburse the City for the unallocated \$6 million and that will effectively obligate Capital Metro to use those funds for preliminary engineering work and environmental analysis on Project

Connect corridors; and is authorized to execute the amendment upon City Council's adoption of funding to replace this \$6 million.

BE IT FURTHER RESOLVED:

The City Manager is directed to identify funding sources (e.g. FY 19-20 Budget) to replace the \$6 million unallocated Capital Metro funding for transportation projects in the Quarter Cent program so that the Mayor and the Council District's 1/4 cent allocation is not reduced. The City Manager is directed to propose replacement funding sources for Council's consideration at their city council meeting scheduled for August 9, 2018.

BE IT FURTHER RESOLVED:

The process to select and implement the remaining Quarter Cent funded (or replacement funded) projects will be no longer require approval from the entire City Council. The City Manager is directed to continue to work with each Council Office to develop Quarter Cent funded projects within their district.

BE IT FURTHER RESOLVED:

The City Manager is authorized to work with the Capital Metropolitan Transportation Authority (Capital Metro) to negotiate and execute an amendment to the Interlocal Agreement for Regional Mobility and Transportation Projects between the City of Austin and Capital Metro related to the "Quarter Cent program" that will effectively remove the requirement for Capital Metro's approval of projects so long as the projects still adhere to the criteria outlined in the ILA and Council Resolution 20150618-093.
