SECOND/THIRD READING SUMMARY SHEET

ZONING CASE NUMBER: C14-2017-0096 (Walnut Park II)

REQUEST:

Approve second and third readings of an ordinance amending City Code Title 25 by rezoning, property locally known as 12139-12205 North Lamar Boulevard from limited office (LO) district zoning to multi-family residence-low density-conditional overlay combining (MF-2-CO) district zoning.

The ordinance and street deed reflect the conditions imposed by the City Council on 1st reading.

DISTRICT AREA: 7

PROPERTY OWNER: Walnut Park Phase II, Ltd. (Larry Peel)

AGENT: CivilE, LLC (Lawrence M. Hanrahan)

ISSUES:

On June 7, 2018, the DSD Transportation staff sent an e-mail revising the required right-of-way area for this case. The applicant has provided a new field note description for this 5-foot ROW dedication area and a revised street deed has been drafted by the Law Department for consideration of this case at 2nd/3rd readings at City Council.

DEPARTMENT COMMENTS:

The property in question is an undeveloped tract of land located along North Lamar Boulevard, a major divided arterial roadway. The applicant is requesting to down zone the site to the MF-2 district to construct approximately 298 residential units at this location. The staff recommends the applicant's request as the site under consideration meets the intent of the Multi-family Residence-Low Density District. The proposed MF-2 zoning is consistent with surrounding uses because there is currently a mixture of residential housing in this area. To the south of the subject tract, there is MF-2 zoning (undeveloped), MF-2-CO zoning (Limestone Canyon Apartments) and SF-6-CO zoning (On the Green Apartments). To the north of this tract, there is a vacant single-family residential structure and a Construction Sales and Services use (AAA Food Equipment) fronting W. Yager Lane. There is parkland to the west, across N. Lamar Boulevard (Walnut Creek Metropolitan Park). The proposed multifamily zoning will provide for a mixture of housing opportunities along this identified Activity Corridor in north Austin. MF-2 zoning is consistent with the goals and policies for this area in the Imagine Austin Comprehensive Plan.

DATE OF FIRST READING/VOTE:

February 1, 2018

ACTION: The public hearing was conducted and a motion to close the public hearing and approve the ordinance on first reading only for multi-family residence-low density-conditional overlay (MF-2-CO) combining district zoning, with conditions was approved on Council
Member Houston’s motion, Council Member Renteria’s second on an 11-0 vote.

ZONING CHANGE REVIEW SHEET

CASE: C14-2017-0096 (Walnut Park II)  ZAP DATE: October 3, 2017
ADDRESS: 12139-12205 North Lamar Boulevard  December 5, 2017
DISTRICT AREA: 7
OWNER/APPLICANT: Crestmont Office Center, Ltd. (Jeffrey Schwartz, Vice President)
AGENT: CivilE, LLC (Lawrence M. Hanrahan)
ZONING FROM: LO  TO: MF-2  AREA: 17.75 acres

SUMMARY STAFF RECOMMENDATION:

The staff’s recommendation is for MF-2-CO, Multi-family Residence-Low Density-Conditional Overlay Combining District, zoning. The conditional overlay will limit development on the property to less than 2,000 vehicle trips per day.

In addition, if the requested zoning is granted then 70 feet of right-of-way should be dedicated from the existing centerline of North Lamar Boulevard in accordance with the Transportation Plan by the applicant to the City through a street deed prior to 3rd reading of the case at City Council, in accordance with the Transportation Criteria Manual.

* On June 7, 2018, the DSD Transportation staff sent an e-mail revising the required right-of-way area for this case. The applicant has provided a new field note description for this 5-foot ROW dedication area and a revised street deed has been drafted by the Law Department for consideration of this case at 2nd/3rd readings at City Council.

ZONING & PLATTING COMMISSION RECOMMENDATION:

10/17/17: Approved indefinite postponement request by the staff on consent (9-0, S. Lavani and S. Trinh-absent); B. Greenberg-1st, A. Aguirre-2nd.

12/05/17: Approved staff’s recommendation of MF-2-CO zoning, with conditions, by consent (9-0, S. Lavani-absent); B. Evans-1st, A. Aguirre-2nd.

DEPARTMENT COMMENTS:

The property in question is an undeveloped tract of land located along North Lamar Boulevard, a major divided arterial roadway. The applicant is requesting to down zone the site to the MF-2 district to construct approximately 298 residential units at this location. The staff recommends the applicant’s request as the site under consideration meets the intent of the Multi-family Residence-Low Density District. The proposed MF-2 zoning is consistent with surrounding uses because there is currently a mixture of residential housing in this area. To the south of the subject tract, there is MF-2 zoning (undeveloped), MF-2-CO zoning (Limestone Canyon Apartments) and SF-6-CO zoning (On the Green Apartments). To the north of this tract, there is a vacant single-family residential structure and a Construction Sales and Services use (AAA Food Equipment) fronting W. Yager Lane. There is parkland to the west, across N. Lamar Boulevard (Walnut Creek Metropolitan Park). The proposed multifamily zoning will provide for a mixture of housing opportunities along this identified Activity
Corridor in north Austin. MF-2 zoning is consistent with the goals and policies for this area in the Imagine Austin Comprehensive Plan.

The applicant agrees with the staff's recommendation.

ZONING

Case#: C14-2017-0096

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

This product has been produced by the Planning and Zoning Department for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.

Created: 8/4/2017
STAFF RECOMMENDATION

The staff's recommendation is for MF-2-CO, Multi-family Residence-Low Density-Conditional Overlay Combining District, zoning. The conditional overlay will limit development on the property to less than 2,000 vehicle trips per day.

In addition, if the requested zoning is granted then 70 feet of right-of-way should be dedicated from the existing centerline of North Lamar Boulevard in accordance with the Transportation Plan by the applicant to the City through a street deed prior to 3rd reading of the case at City Council, in accordance with the Transportation Criteria Manual.

BASIS FOR RECOMMENDATION (ZONING PRINCIPLES):

1. The proposed zoning should be is consistent with the purpose statement of the district sought.

   Multifamily residence low density (MF-2) district is the designation for a multifamily use with a maximum density of up to 23 units per acre, depending on unit size. An MF-2 district designation may be applied to a use in a multifamily residential area located near single family neighborhoods or in an area for which low density multifamily use is desired.

2. Granting of the request should result in an equal treatment of similarly situated properties.

   The proposed MF-2 zoning is consistent with surrounding uses because there is currently a mixture of residential housing in this area. To the south of the subject tract, there is MF-2 zoning, MF-2-CO zoning and SF-6-CO zoning.

3. Zoning should allow for reasonable use of the property.

   The proposed multifamily zoning will provide for a mixture of housing opportunities along this identified Activity Corridor in north Austin. MF-2 zoning is consistent with the goals and policies for this area in the Imagine Austin Comprehensive Plan.

EXISTING CONDITIONS

Site Characteristics

The site under consideration is a large undeveloped tract of land with moderately heavy tree coverage.

Comprehensive Planning

This 17.75 acre property is undeveloped and is located on the northeast comer of N. Lamar Boulevard and W. Yager Lane; and is not located within the boundaries of a neighborhood planning area. Surrounding land uses include retail uses, warehouse/offices, and a charter school to the north; vacant land to the south; a worship center, a single family house, and Walnut Creek Park to the west; and a food equipment retailer and vacant land to the east. The proposed use is a 298 unit (approximately 16 units an acre) multi-family apartment project.
Connectivity
The Walkscore for this site is 18/100, ‘Car Dependent’ meaning almost all errands require a car. There is a CapMetro transit stop located across the street from the site but there are no cross walks or sidewalks along this section of N. Lamar Blvd., nor on W. Yager Lane.

Imagine Austin
This project is located along the N. Lamar Blvd. Activity Corridor. Activity Corridors are characterized by a variety of activities and types of buildings located along the roadway, and are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances.

The following Imagine Austin Comprehensive Plan policies are applicable to this case:

☐ LUT P3. Promote development in compact centers, communities, or along corridors that are connected by roads and transit, are designed to encourage walking and bicycling, and reduce healthcare, housing and transportation costs.

☐ HN P1. Distribute a variety of housing types throughout the City to expand the choices able to meet the financial and lifestyle needs of Austin’s diverse population.

☐ HN P10. Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to schools, retail, employment, community services, and parks and recreation options.

Based upon Imagine Austin policies above, which supports growth along Activity Corridors, including a variety of housing types such as this proposed multi-family apartments, this project appears to be supported by Imagine Austin.

Environmental
The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City’s Land Development Code. The site is in the Desired Development Zone.

According to floodplain maps there is a floodplain adjacent to the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Critical Water Quality Zone exists within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.
At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**Hill Country Roadway**

The site is not within a Hill Country Roadway Corridor.

**Impervious Cover**

The maximum impervious cover allowed by the MF-2 zoning district would be 60%. However, because the watershed impervious cover is more restrictive than the zoning district’s allowable impervious cover, the impervious cover is limited by the watershed regulations.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Gross Site Area</th>
<th>% of Gross Site Area with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family (minimum lot size 5750 sq. ft.)</td>

</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

**Site Plan**

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

**Compatibility Standards**

The site is subject to compatibility standards. Along the east property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
• An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
• A landscape area at least 15 feet in width is required along the property line if tract is zoned MF-3, MF-4, MF-5, MH, NO, or LO.

Additional design regulations will be enforced at the time a site plan is submitted.

FYI – There is a site plan currently under review for this property (SP-2017-0253C) for a Commercial Multi Family use, along with associated parking and drainage facilities.

Transportation

A traffic impact analysis was waived for this case because the applicant has agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

At the time of site plan application, the minimum shall be required with the approval of the Texas Department of Transportation and Austin Transportation Department:
   a. The vehicular point of access along N. Lamar Blvd (Loop 275) must align with Walnut Creek Park Road to allow for future traffic controls at this location.
   b. Texas Department of Transportation and Austin Transportation Department request that 12 hour turning movement counts be conducted during a non-holiday week when public schools are in session at the intersection of Walnut Creek Park Road and Lamar Blvd to allow for a signal warrant study.
   c. Texas Department of Transportation reserves the right to require acceleration/deceleration lane(s) to access the site, if the intensities justify their installation.

Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.

The Austin Metropolitan Area Transportation Plan calls for a total of 140 feet of right-of-way for North Lamar Boulevard. If the requested zoning is granted, then 70 feet of right-of-way should be dedicated from the existing centerline of North Lamar Boulevard in accordance with the Transportation Plan. [LDC, Sec. 25-6-51 and 25-6-55).

Additional right-of-way maybe required at the time of subdivision and/or site plan.

If the requested zoning is granted, it is recommended that joint access be provided for all tracts to access North Lamar Boulevard and Walnut Park Crossing.

Janae Ryan, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane is recommended for North Lamar Boulevard.

FYI – Access to Walnut Park Crossing cannot be approved for this site until the road has been constructed and accepted by the City of Austin.
FYI – Driveways and sidewalks constructed with the Walnut Park Crossing subdivision construction plans (C8-85-024.01.1B) shall comply with current City of Austin code and criteria. Sidewalk and driveway reconstruction or driveway removals may be required.

**Water and Wastewater**

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonment required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.
PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov/planning.
