Council Committee, Boards and Commission Action	November 19, 2018 - To be reviewed by the Electric Utility Commission.
Client Department(s)	Austin Energy.

Additional Backup Information:

The contract will provide 145kV, 63kA high voltage circuit breakers on an as needed basis to support Austin Energy operations and capital improvement projects. Circuit breakers are used to protect high voltage transmission lines, substation equipment, and the distribution system. The circuit breakers are essential to maintain the safety and reliability of the electrical system by performing switching and protection functions in Austin Energy substations.

The new contract will be used to replace circuit breakers at the end of their service life and for unit upgrades and additions. The requested authorization amount is based on forecasted needs and will allow Austin Energy to purchase an estimated 15 circuit breakers per year. The recommended contractor is the current provider for these goods. Without this contract, Austin Energy will not be able to efficiently operate or support critical infrastructure projects for substations.
