ZONING CHANGE REVIEW SHEET

**CASES:** C14-2018-0141 – 1907 Inverness Zoning Change  **P.C. DATE:** January 22, 2019
February 12, 2019
February 26, 2019

**ADDRESS:** 1907 Inverness Boulevard

**DISTRICT AREA:** 5

**OWNER/APPLICANT:** Marquee Investments, LLC
(Alex Bahrami)

**AGENT:** Austex Building Consultants (Jonathan Perlstein)

**ZONING FROM:** SF-3-NP  **TO:** NO-MU-NP, as amended

**AREA:** 0.1846 acres (8,041 square feet)

**SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant neighborhood office – mixed use – neighborhood plan (LO-MU-NP) combining district zoning.

**PLANNING COMMISSION RECOMMENDATION:**

January 22, 2019: APPROVED A POSTPONEMENT REQUEST BY THE NEIGHBORHOOD TO FEBRUARY 12, 2019

[J. SCHISSLER; C. KENNY – 2ND] (11-0) A. DE HOYOS HART, P. SEEGER – ABSENT

February 12, 2019: MEETING CANCELLED DUE TO LACK OF QUORUM

February 26, 2019:

**ISSUES:**

On February 21, 2019, the Applicant amended the rezoning request from LO-MU-NP to NO-MU-NP.

The Applicant plans to discuss this case with residents on Inverness Boulevard. Please refer to correspondence attached at the back of this packet.

In April 2018, a Code Department investigation resulted in a citation of the owner regarding to the need to obtain a survey exhibiting that the property’s impervious cover does not exceed 45% of the total square footage of the property, and to obtain required permits for the addition of the dormers, window and door replacement (CV-2017-082578). The rezoning case was filed on November 9, 2018, respectively.
A valid petition of 33.34% has been filed by the adjacent property owners in opposition to this rezoning request. Petition materials and comment response forms are located at the back of the Staff report.

**DEPARTMENT COMMENTS:**

The subject lot contains a 1,576 square foot single family residence and parking area and is zoned family residence – neighborhood plan (SF-3-NP) district. The building was used for commercial purposes (a psychic reader) for many years, and is across from and adjacent to single family residences to the north and east (SF-3-NP), a service station and apartments to the south (GR-V-NP; GR-NP), and a mix of commercial uses across Manchaca Road to the west (GR-NP, CS-1-NP).

The Applicant’s amended request is to rezone to the neighborhood office – mixed use – neighborhood plan (NO-MU-NP) district so that the property retains the existing residential unit, and can be occupied as an administrative and business office. As information, the NO base district allows for up to 35 feet (except where limited by compatibility standards of the adjacent SF-3 zoning or uses), 60% impervious cover and a 0.35:1 floor-to-area ratio.

This segment of Manchaca Road is located in a Neighborhood Transition character district which encourages small scale offices. Granting additional entitlements to develop an administrative and business office within the Neighborhood Transition district is seen as in accord with the SACNP (See Comprehensive Planning section beginning on page 8).

Therefore, Staff supports the Applicant’s amended request for NO-MU-NP zoning based on its location at the intersection of an arterial roadway, proximity to other commercially zoned properties, location within a Neighborhood Transition district, and the Applicant’s intention to retain residential use of the property.

**ORDINANCE NUMBER:**

**CASE MANAGER:** Wendy Rhoades
e-mail: wendy.rhoades@austintexas.gov

**PHONE:** 512-974-7719
SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant neighborhood office – mixed use – neighborhood plan (LO-MU-NP) combining district zoning.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. The proposed zoning should be consistent with the purpose statement of the district sought.

The neighborhood office (NO) district is intended for offices predominantly serving neighborhood or community needs, which may be located within or adjacent to residential neighborhoods. Offices in the NO district would typically locate on collector streets with a minimum of 40 feet of pavement width, and would not unduly affect traffic in the area. The NO district is designed to accommodate small, single-use offices and to encourage and preserve compatibility with existing neighborhoods through renovation and modernization of existing structures. The mixed use (MU) district is intended to allow for office, retail, commercial and residential uses to be combined in a single development. The NP, neighborhood plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. Zoning changes should promote compatibility with adjacent and nearby land uses.

This segment of Manchaca Road is located in a Neighborhood Transition character district which encourages small scale offices. Granting additional entitlements to develop an administrative and business office within the Neighborhood Transition district is seen as in accord with the SACNP (See Comprehensive Planning section beginning on page 8). Therefore, Staff supports the Applicant’s amended request for NO-MU-NP zoning based on its location at the intersection of an arterial roadway, proximity to other commercially zoned properties, location within a Neighborhood Transition district, and the Applicant’s intention to retain residential use of the property.

EXISTING CONDITIONS

Site Characteristics

The subject property contains a single-story single family residence and a parking area adjacent to Inverness Boulevard. According to aerial photographs taken in 1986, the parking area was paved by that date, and may be considered a legal, non-complying structure by Code.

Impervious Cover

The maximum impervious cover allowed by the NO-MU zoning district would be 60%, which is based on the more restrictive zoning regulations.
Comprehensive Planning

This rezoning case is located on the southeast corner of Manchaca Road and Inverness Blvd., on a 0.185 acre lot that contains a one-story single family house. The property is located within the boundaries of the South Austin Combined Neighborhood Planning Area, in the South Manchaca NP. Surrounding land uses around the subject property include: single family houses to the north and east; a gas station, two large apartment complexes, a public library, and a shopping center to the south; and a shopping center and single family houses to the west. The proposed use is to convert the existing single family house into an office.

Connectivity

The Walkscore for this property is 72/100, Very Walkable, meaning most errands can be accomplished on foot. Public sidewalks are located along Manchaca Road but not along Inverness Blvd. A public transit stop is located across the street from the property. There are no bike lanes or urban trails in the area. The mobility and connectivity options available in the area are average.

South Austin Combined (SACNP) Neighborhood Plan

The SACNP Character District Map of this plan designates this portion of Manchaca Road as a Neighborhood Transition Character District, which is intended primarily for residential uses, such as clusters of duplexes, fourplexes, and apartment buildings, along with small-scaled offices and neighborhood-serving businesses. Neighborhood Transition districts create a buffer between Residential Core districts and more intense character districts or busy roads. Many of these districts are located along Imagine Austin Activity Corridors. No zoning is permitted in the Neighborhood Transition Character District. The following text and policies taken from the SACNP are applicable to this request:

*Neighborhood Transition Character District (p 53 and 54)*

**Neighborhood Transition Vision:** The Neighborhood Transition District blends seamlessly with the Residential Core. It contains an abundance of mature trees and landscaping and is walkable, bikeable, and supportive of transit.

Neighborhood Transition character districts, along with Neighborhood Nodes, border the Residential Core along arterial roadways. Primarily residential, these areas consist of clusters of duplexes, fourplexes, and apartment buildings, along with small-scaled offices and neighborhood-serving businesses. Neighborhood Transition districts create a buffer between Residential Core districts and more intense character districts or busy roads. Many of these districts are located along Imagine Austin Activity Corridors. Neighborhood Transition districts in particular present an opportunity to incorporate more missing middle housing types that are compatible with the neighborhood. The missing middle refers to duplexes and other housing types, such as row houses, bungalow courts and other housing types compatible with the existing neighborhood, that provide options between the scale of single-family houses and mid-rise apartments or condos. As Austin’s population grows and its demographics change, these housing types provide the opportunity to accommodate growth in walkable neighborhoods while respecting neighborhood character. The variety of
housing types in the missing middle promote multi-generational communities, providing options for young people and for older generations to age in place.

**NT P1:** This district should primarily consist of residential housing types, but at higher densities than in the Residential Core. The following building types should be encouraged the in the district to meet the needs of a wider range of households: (p 54)
- Duplexes
- Fourplexes
- Small- and medium-sized apartments
- Cottage clusters/bungalow courts
- Row houses or townhouses
- Single family houses adapted into offices or retail
- Live/work buildings

**NT P2:** Building scale, height and siting within the Neighborhood Transition district should be harmonious with the adjacent Residential Core district.

**NT P3:** Moving from the Neighborhood Transition to the Residential Core, setbacks, similar building footprints, landscaping (including green infrastructure), similar building heights or stepbacks in building height, and/or other means should be used to create compatible developments which fit within the fabric of the neighborhood. Buildings should be no more than 3 stories tall.

**NT P4:** New construction in the Neighborhood Transition district should front the street, with surface or structured parking located behind buildings. Where the Neighborhood Transition character district abuts the Residential Core either mid-block or across a street, special care should be taken to create compatibility between the districts. (p. 57)

**NT P5:** Encourage missing middle housing types that are compatible with the neighborhood character. In the interim between the adoption of this neighborhood plan and the adoption of the revised Land Development Code, the following zoning districts should be generally considered appropriate to the Neighborhood Transition character district:
- SF-2#: Standard lot single family
- SF-3#: Family residence
- SF-4A#: Small lot single family
- SF-4B#: Single family condo
- SF-5: Urban family residence
- SF-6: Townhouse & condo residence
- MF-1: Limited density multi-family
- MF-2: Low density multi-family
- MF-3: Medium density multi-family
- NO: Neighborhood office
- LO: Limited office
- LR: Neighborhood Commercial
Note: # Zone can be in a given FLUM category, but a zoning change to this district is not recommended.

**HA P2:** Encourage development of additional affordable housing integrated into the neighborhood (p. 93)

**HA A9:** Encourage affordable housing in all character districts to meet the needs of a diverse population at different income levels:
- Residential Core: secondary apartments
- Neighborhood Transition: duplexes, “missing middle” housing types, multi-family buildings.
- Neighborhood Node: multi-family buildings, vertical mixed use buildings
- Mixed Use Activity Hub: multi-family buildings, vertical mixed use buildings

Residential uses, along with small-scaled offices and neighborhood-serving businesses appear to be support the SACNP as long as massing, height, and the intensity of a proposed project is compatible and harmonious with the adjoining Residential Core land uses located to the north, east and south.

**Imagine Austin**
This portion of Manchaca Road is not located along an Activity Corridor or by an Activity Center. Although this property is not located along an Activity Corridor or Center, the following IACP policies are applicable to this case:

- **LUT P3.** Promote development in compact centers, communities, or **along corridors** that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.

- **LUT P4.** Protect neighborhood character by directing growth to areas of change that includes designated redevelopment areas, corridors and infill sites. Recognize that different neighborhoods have different characteristics and new and infill development should be sensitive to the predominant character of these communities.

- **HN P11.** Protect neighborhood character by directing growth to areas of change and ensuring context sensitive infill in such locations as designated redevelopment areas, corridors, and infill sites.

**Conclusions:**
Based upon: (1) the comparative scale of the site relative to nearby commercial and office uses located along Manchaca Road; (2) the SACNP policies that supports small-scale office uses in the Neighborhood Transitional Character District; and (3) the above-referenced Imagine Austin policies that supports context sensitive infill along corridors, this case appears to support the Imagine Austin Comprehensive Plan.
Drainage

The developer is required to submit a pre and post development drainage analysis at the subdivision and site plan stage of the development process. The City’s Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Gross Site Area</th>
<th>% of Gross Site Area with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family (minimum lot size 5750 sq. ft.)</td>
<td>50%</td>
<td>60%</td>
</tr>
<tr>
<td>Other Single-Family or Duplex</td>
<td>55%</td>
<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

No trees are located on this property. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

Site Plan and Compatibility Standards

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

The site is subject to compatibility standards. Along the northeast and east property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- No parking or driveways are allowed within 25 feet of the property line.

**Transportation**

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC 25-6-113].

Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.

This project is adjacent to a street that has been identified in Austin’s Corridor Mobility Program (Manchaca Road). The sidewalk and bicycle facilities shall comply with the required cross-section for Manchaca Road at the time of the site plan application. At the time of this application, CPO does not have comments apart from a caveat that the Bicycle Program’s required 8-foot shared use path located 13 feet from the back of curb may be demolished in the future for the future corridor improvements. Find additional information about the Corridor Mobility Program here: https://data.austintexas.gov/stories/s/Corridor-Mobility-Program/gukj-e8fh/.

Janae Spence, Urban Trails, Public Works Department, Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.
According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane for all ages and abilities is recommended for Manchaca Road. Per the Bicycle Program, an 8-foot shared use path should be constructed 13 feet from back of curb to accommodate the protected bike lane along Manchaca Road. Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments and requirements for right-of-way dedication and bicycle facility construction in accordance with LDC 25-6-55 and LDC 25-6-101. Please review the Bicycle Master Plan for more information.

Additional right-of-way may be required at the time of subdivision and/or site plan.

FYI – The existing driveway accessing Inverness Boulevard shall be removed and reconstructed and sidewalks shall be constructed along Inverness Boulevard at the time of the site plan application in accordance with the Land Development Code and Transportation Criteria Manual.

FYI – the existing sidewalks and curb ramp along Manchaca Road do not appear to be ADA compliant based on Google Images. The existing sidewalks shall be reconstructed to City of Austin standards in accordance with the Land Development Code and Transportation Criteria Manual at the time of the site plan application.

FYI – Per LDC 25-6-381, direct access to Manchaca Road (major roadway) is prohibited at the time of the subdivision and site plan applications since alternative access to Inverness Boulevard is provided.

**Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
SUMMARY STAFF RECOMMENDATION:

The Staff recommendation is to grant neighborhood office – mixed use – neighborhood plan (LO-MU-NP) combining district zoning.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. The proposed zoning should be consistent with the purpose statement of the district sought.

The neighborhood office (NO) district is intended for offices predominantly serving neighborhood or community needs, which may be located within or adjacent to residential neighborhoods. Offices in the NO district would typically locate on collector streets with a minimum of 40 feet of pavement width, and would not unduly affect traffic in the area. The NO district is designed to accommodate small, single-use offices and to encourage and preserve compatibility with existing neighborhoods through renovation and modernization of existing structures. The mixed use (MU) district is intended to allow for office, retail, commercial and residential uses to be combined in a single development. The NP, neighborhood plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. Zoning changes should promote compatibility with adjacent and nearby land uses.

This segment of Manchaca Road is located in a Neighborhood Transition character district which encourages small scale offices. Granting additional entitlements to develop an administrative and business office within the Neighborhood Transition district is seen as in accord with the SACNP (See Comprehensive Planning section beginning on page 8). Therefore, Staff supports the Applicant’s amended request for NO-MU-NP zoning based on its location at the intersection of an arterial roadway, proximity to other commercially zoned properties, location within a Neighborhood Transition district, and the Applicant’s intention to retain residential use of the property.

EXISTING CONDITIONS

Site Characteristics

The subject property contains a single-story single family residence and a parking area adjacent to Inverness Boulevard. According to aerial photographs taken in 1986, the parking area was paved by that date, and may be considered a legal, non-complying structure by Code.

ImperVIOUS Cover

The maximum impervious cover allowed by the NO-MU zoning district would be 60%, which is based on the more restrictive zoning regulations.
Comprehensive Planning

This rezoning case is located on the southeast corner of Manchaca Road and Inverness Blvd., on a 0.185 acre lot that contains a one-story single family house. The property is located within the boundaries of the South Austin Combined Neighborhood Planning Area, in the South Manchaca NP. Surrounding land uses around the subject property include: single family houses to the north and east; a gas station, two large apartment complexes, a public library, and a shopping center to the south; and a shopping center and single family houses to the west. The proposed use is to convert the existing single family house into an office.

Connectivity
The Walkscore for this property is 72/100, Very Walkable, meaning most errands can be accomplished on foot. Public sidewalks are located along Manchaca Road but not along Inverness Blvd. A public transit stop is located across the street from the property. There are no bike lanes or urban trails in the area. The mobility and connectivity options available in the area are average.

South Austin Combined (SACNP) Neighborhood Plan
The SACNP Character District Map of this plan designates this portion of Manchaca Road as a Neighborhood Transition Character District, which is intended primarily for residential uses, such as clusters of duplexes, fourplexes, and apartment buildings, along with small-scaled offices and neighborhood-serving businesses. Neighborhood Transition districts create a buffer between Residential Core districts and more intense character districts or busy roads. Many of these districts are located along Imagine Austin Activity Corridors. NO zoning is permitted in the Neighborhood Transition Character District. The following text and policies taken from the SACNP are applicable to this request:

**Neighborhood Transition Character District (p 53 and 54)**

**Neighborhood Transition Vision:** The Neighborhood Transition District blends seamlessly with the Residential Core. It contains an abundance of mature trees and landscaping and is walkable, bikeable, and supportive of transit.

Neighborhood Transition character districts, along with Neighborhood Nodes, border the Residential Core along arterial roadways. Primarily residential, these areas consist of clusters of duplexes, fourplexes, and apartment buildings, along with small-scaled offices and neighborhood-serving businesses. Neighborhood Transition districts create a buffer between Residential Core districts and more intense character districts or busy roads. Many of these districts are located along Imagine Austin Activity Corridors. Neighborhood Transition districts in particular present an opportunity to incorporate more missing middle housing types that are compatible with the neighborhood. The missing middle refers to duplexes and other housing types, such as row houses, bungalow courts and other housing types compatible with the existing neighborhood, that provide options between the scale of single-family houses and mid-rise apartments or condos. As Austin’s population grows and its demographics change, these housing types provide the opportunity to accommodate growth in walkable neighborhoods while respecting neighborhood character. The variety of
housing types in the missing middle promote multi-generational communities, providing options for young people and for older generations to age in place.

**NT P1:** This district should primarily consist of residential housing types, but at higher densities than in the Residential Core. The following building types should be encouraged in the district to meet the needs of a wider range of households: (p 54)
- Duplexes
- Fourplexes
- Small- and medium-sized apartments
- Cottage clusters/bungalow courts
- Row houses or townhouses
- Single family houses adapted into offices or retail
- Live/work buildings

**NT P2:** Building scale, height and siting within the Neighborhood Transition district should be harmonious with the adjacent Residential Core district.

**NT P3:** Moving from the Neighborhood Transition to the Residential Core, setbacks, similar building footprints, landscaping (including green infrastructure), similar building heights or stepbacks in building height, and/or other means should be used to create compatible developments which fit within the fabric of the neighborhood. Buildings should be no more than 3 stories tall.

**NT P4:** New construction in the Neighborhood Transition district should front the street, with surface or structured parking located behind buildings. Where the Neighborhood Transition character district abuts the Residential Core either mid-block or across a street, special care should be taken to create compatibility between the districts. (p. 57)

**NT P5:** Encourage missing middle housing types that are compatible with the neighborhood character. In the interim between the adoption of this neighborhood plan and the adoption of the revised Land Development Code, the following zoning districts should be generally considered appropriate to the Neighborhood Transition character district:
- SF-2#: Standard lot single family
- SF-3#: Family residence
- SF-4A#: Small lot single family
- SF-4B#: Single family condo
- SF-5: Urban family residence
- SF-6: Townhouse & condo residence
- MF-1: Limited density multi-family
- MF-2: Low density multi-family
- MF-3: Medium density multi-family
- NO: Neighborhood office
- LO: Limited office
- LR: Neighborhood Commercial
Note: # Zone can be in a given FLUM category, but a zoning change to this district is not recommended.

**HA P2:** Encourage development of additional affordable housing integrated into the neighborhood (p. 93)

**HA A9:** Encourage affordable housing in all character districts to meet the needs of a diverse population at different income levels:
- Residential Core: secondary apartments
- Neighborhood Transition: duplexes, “missing middle” housing types, multi-family buildings.
- Neighborhood Node: multi-family buildings, vertical mixed use buildings
- Mixed Use Activity Hub: multi-family buildings, vertical mixed use buildings

Residential uses, along with small-scaled offices and neighborhood-serving businesses appear to be support the SACNP as long as massing, height, and the intensity of a proposed project is compatible and harmonious with the adjoining Residential Core land uses located to the north, east and south.

**Imagine Austin**

This portion of Manchaca Road is not located along an Activity Corridor or by an Activity Center. Although this property is not located along an Activity Corridor or Center, The following IACP policies are applicable to this case:

- **LUT P3.** Promote development in compact centers, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.

- **LUT P4.** Protect neighborhood character by directing growth to areas of change that includes designated redevelopment areas, corridors and infill sites. Recognize that different neighborhoods have different characteristics and new and infill development should be sensitive to the predominant character of these communities.

- **HN P11.** Protect neighborhood character by directing growth to areas of change and ensuring context sensitive infill in such locations as designated redevelopment areas, corridors, and infill sites.

**Conclusions:**

Based upon: (1) the comparative scale of the site relative to nearby commercial and office uses located along Manchaca Road; (2) the SACNP policies that supports small-scale office uses in the Neighborhood Transitional Character District; and (3) the above-referenced Imagine Austin policies that supports context sensitive infill along corridors, this case appears to support the Imagine Austin Comprehensive Plan.
**Drainage**

The developer is required to submit a pre and post development drainage analysis at the subdivision and site plan stage of the development process. The City’s Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

**Environmental**

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

No trees are located on this property. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

**Site Plan and Compatibility Standards**

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

The site is subject to compatibility standards. Along the northeast and east property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- No parking or driveways are allowed within 25 feet of the property line.

**Transportation**

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC 25-6-113].

Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.

This project is adjacent to a street that has been identified in Austin’s Corridor Mobility Program (Manchaca Road). The sidewalk and bicycle facilities shall comply with the required cross-section for Manchaca Road at the time of the site plan application. At the time of this application, CPO does not have comments apart from a caveat that the Bicycle Program’s required 8-foot shared use path located 13 feet from the back of curb may be demolished in the future for the future corridor improvements. Find additional information about the Corridor Mobility Program here: https://data.austintexas.gov/stories/s/Corridor-Mobility-Program/gukj-e8fh/.

Janae Spence, Urban Trails, Public Works Department, Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.
According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane for all ages and abilities is recommended for Manchaca Road. Per the Bicycle Program, an 8-foot shared use path should be constructed 13 feet from back of curb to accommodate the protected bike lane along Manchaca Road. Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments and requirements for right-of-way dedication and bicycle facility construction in accordance with LDC 25-6-55 and LDC 25-6-101. Please review the Bicycle Master Plan for more information.

Additional right-of-way may be required at the time of subdivision and/or site plan.

FYI – The existing driveway accessing Inverness Boulevard shall be removed and reconstructed and sidewalks shall be constructed along Inverness Boulevard at the time of the site plan application in accordance with the Land Development Code and Transportation Criteria Manual.

FYI – the existing sidewalks and curb ramp along Manchaca Road do not appear to be ADA compliant based on Google Images. The existing sidewalks shall be reconstructed to City of Austin standards in accordance with the Land Development Code and Transportation Criteria Manual at the time of the site plan application.

FYI – Per LDC 25-6-381, direct access to Manchaca Road (major roadway) is prohibited at the time of the subdivision and site plan applications since alternative access to Inverness Boulevard is provided.

**Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov_planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: Changing zoning is a slippery slope; the impacts may not be immediate but owner, occupant, business models will change. This is a young family neighborhood (at least 3 children & 2 expectant moms w/Old 500 ft on Inverness alone) We worry about the quality of life & safety for our 2 children (ages 10 mos & 4 yrs) + the negative impact on our home value. Street parking is already an issue at our house and there are 2 empty number of commercial lots within 1/4 Mi. that could serve this use without sacrificing 8F-3 housing.

Comments: We want to keep Inverness a family residence neighborhood. We don’t want a business there that will generate worse parking problems than we have due to all the businesses on Manchaca. Neighbors on Inverness are also concerned that the type of business that may go in this spot is undesirable for us all.

The property is currently owned by Alex Bahrami of Marquee Investments, LLC. I spoke with Mr. Bahrami and he said that a prospective tenant is interested in occupying this structure with an insurance office (the admin / business office use) and also residing there. Occupying the property with an office use and retaining a residential component is the basis for the rezoning request to LO-MU-NP.

Wendy

Thanks, Wendy. I’m confused about the applicant wanting to occupy the structure and use it for a business given that it’s currently for sale. Am I misunderstanding the intent at this point? I would be my assumption that the applicant can’t guarantee that it will be used as stated I’d they’re selling the property.

Hi Wendy,

I’m Jen’s neighbor across the street at 1905 Inverness and I agree with Jen. I have sent in a written response to the notification and will be attending both hearings. I received your comment response form by mail and it is part of the packet that the Planning Commission is reviewing in advance of tonight’s meeting. I also received Jen’s comments and Dave Chakos / Carye West’s comments in this morning’s mail and these two comment response forms will be made available to the Planning Commission before tonight’s meeting.

I have another question: It’s my understanding that the structure at 1907 Inverness does not need code. The property will likely be completely redeveloped if the property gets the new zoning. Would a new build comply with the setback and height standards in Subchapter C, Article 10? As I read it, any new build on 1907 Inverness would probably have to be setback 20-25 feet from 1905 Inverness Blvd, given that the frontage road travels apx. 100 feet along 1907 Inverness [§ 25-2-1062 - HEIGHT LIMITATIONS AND SETBACKS FOR SMALL SITES]. To my knowledge, the Applicant intends to occupy the existing structure with an administrative and business office and also reside within the existing structure (hence the MU overlay). However, if the Applicant wishes to remove the existing structure, then yes, they would have to comply with the setback and height standards cited above.

Will any driveway or parking lot comply with the requirements in article 10 if it is rezoned? [§ 25-2-1067 - DESIGN REGULATIONS] Yes, at the time of site plan application, the Applicant will have to demonstrate that the parking area on Inverness meets current driveway and parking standards or is otherwise grandfathered (see below).

Essentially, I’d like to know what assurances I have, as the adjacent property owner, that there will be a buffer for proper redevelopment of the site under LO zoning.

Still, it is our preference that Inverness Blvd. remain a residential neighborhood.

Thanks,

Greg Dayton

Hi Wendy,

Thanks again for meeting with me a while back regarding the rezoning application for 1907 Inverness Blvd Case #: C14-2018-0141

We received the notice of the 1/22 Planning Commission and 2/21 City Council this past Monday 1/14 (attached). Several of the neighborhood residents met to discuss our thoughts around this application. All of us live within 500 ft of the property. Most of us are adjacent or catty-corner from it. We will represent our community at both of the meetings. This most recent notice proposes LO as well as MU-Mixed Use, which was not included on the original notice. This raises additional concerns of ours as MU appears to allow more flexibility including commercial use.

Is that correct? The MU allows for residential use to occur, but not commercial use. In this case, the Applicant wants to continue occupying the structure as his residence, and also convert a portion of it to an insurance office, which is a type of administrative and business office.

My husband and I have lived here for over 6 years and we have seen the community significantly improve during that time. Young people and families moved in, multiple homes have been updated, and there have been several nice new homes built. Businesses that boost our community such as the new Austin Java and Bikes-A-Lot across Manchaca are moving in. This is a family-friendly, safe, close-knit neighborhood and we want to preserve that community value. There are at least 3 young families within 500 feet of the property. One has 2 young children and the others include 2 expecting mothers. 1907 faces Inverness, not Manchaca Street. It is at the end of our established residential neighborhood, and though there is commercial space across Manchaca Street there is no commercial in our neighborhood. Our neighborhood is a pocket consisting of 6 streets and all homes face those residential streets.

Below are our initial responses. Please let us know if you have any additional information that would shed some light on these.

1. Do we have any say as to what type of business would be opened or once the permit is granted, it could be anything listed on the approved use chart? Land uses allowed by the LO zoning district and the MU, Mixed Use overlay would be allowed if the requested zoning change is approved by the City Council. However, an administrative / business office use is broadly defined as the use of a site for the provision of executive,
management, or administrative services, and for example includes real estate, property management, investment firms, travel agencies, personnel agencies, and business offices for organizations or associations. If the use changes from an insurance office to a real estate office for example, then the owner is still operating an administrative and business office use and may not need to obtain any new building permits.

2. If it does get turned into LO, MU space, is it easier for it it turn into other types of businesses with different permits? If LO-MU zoning is approved, then other uses permitted in the LO district would be allowed (unless otherwise prohibited by the zoning ordinance). These include professional offices, medical office, personal services and residential treatment. As info, a personal services use is a conditional use in the LO district which requires Planning Commission approval of the site plan, but a few examples are a dry cleaners, or a hair / nail salon, or a tattoo shop. A residential treatment facility is also a conditional use. At the time of site plan or site plan exemption application, the Applicant will have to demonstrate compliance with the City's parking and access standards.

3. How does the illegal additions/ non-permitted structures factor into what happens to the property? Any illegal additions or non-permitted structures will be addressed with a site plan or a site plan exemption application. Unpermitted work may need to be brought into compliance with City Code. As info, a 1986 aerial shows that the parking area was in place at that time, and therefore, may be grandfathered.

4. Is there anything in particular we need to prepare for the Planning Commission and City Council Meetings? Please help us understand the purpose of these meetings and our role. This case is Agenda Item #14 on tonight's PC agenda and will be a discussion case. Please arrive by 6 p.m. to sign in for this case and be sure to bring your City Hall parking ticket with you so that we can validate it.

Concerns
1. Type of Business, given it's a family neighborhood and would not want it to become a treatment facility/ public housing.
2. Potential negative impact on home value.
3. Sellers aren't interested in making the lot something beneficial for the community, given the other types of business they own around Austin (strip clubs, etc)
4. Parking - a business will bring more people needing to park on our street. Given the other business and retail in close proximity, this will make parking even more challenging. Parking is already an issue.
5. There are several empty commercial spaces within 1/4 miles that could serve this need without sacrificing SF-3 housing and our community.

We appreciate your time and insight,
Jen Paul

Hi Wendy-

My wife, our two sons and I live at 1902 Inverness. I wanted to take a chance to voice my opinion and concerns on this matter. We are unable to attend tonight’s meeting as we were just discharged from the hospital with our second-born this afternoon. My family and I have been in touch with Greg and Alanna, and Jen and Bryan about this matter and we believe they have accurately voiced our feelings on this matter. We fully support their opinions and have similar questions with respect to rezoning that property.

For what it’s worth, my wife and I have lived on Inverness since 2008. There are many of us who have moved to this neighborhood started families. We have worked hard to improve our home and improve our neighborhood. In doing so, we’ve built a strong community of young families around ourselves. While we are open-minded, we are concerned about the character of the development in the transition zone along Manchaca as outlined in the neighborhood plan. In addition to the concerns Greg listed, street parking and the through traffic on our street continue to be a huge concern and we aren’t sure how to reconcile the proposed rezoning with our safety as we walk and live along our streets.

Thank you for your time,
John

On Tue, Jan 22, 2019 at 1:58 PM Rhoades, Wendy <Wendy.Rhoades@austintexas.gov> wrote:

Hi everyone,

Please see my responses below.

Wendy
Good morning Austin Planning Commission,

I am e-mailing to you all this morning regarding the proposed zone change of 1907 Inverness (at the zoning commission meeting last Wednesday it was incorrectly labeled as 1903 Inverness) from SF-3/NP to LO/MU.

Myself and 4 other homeowners close to 1907 Inverness were all at the planning commission meeting on January 22nd and were disappointed that our case had been postponed. There has been a rally of many homeowners on our block to try to find out how to keep this rezoning from passing so I wanted to reach out to you because going to meetings is both time consuming and ineffective.

1907 Inverness was built along with all the other houses on Inverness Blvd. in the 1960's and zoned as "family residence". When the previous owner of 1907 Inverness Blvd purchased the property, they operated a "palm reading" business out of the home (illegally I assume) and after extensive renovations were done on that property (I understand also illegally or at least without any permits) again, a "palm reading" was operated out of it (again illegally I assume). Someone in the neighborhood gave the Austin Code department a heads up of the additions without a permit which resulted in the family moving out and the home being sold. The current owner of the property who is requesting the zoning change purchased the home knowing the property is zoned "family residence".

At least 10 homes on Inverness Blvd. along with their 10+ inhabitants were all very upset to learn about the proposed zoning change of this property. There have been a slough of emails directed at the case manager Wendy Rhodes (and bless her heart for her patience and professionalism) but she has no control over what happens to this property.

In a nutshell (and this is VERY important): There are at least 20 tax paying homeowners on Inverness Boulevard who oppose this proposes zoning change and only 1 person who wants it to pass (the current homeowner). For the record, 5 homeowners from Inverness Blvd appeared at the January 21st meeting and the homeowner did not show up (just a paid representative).

Please do the right thing and keep Inverness Blvd a Family Residence.

Thank you for your time and consideration in this matter,

Dave Chakos
1807 Inverness Blvd.
Austin Planning Commission,

I agree with Dave Chakos's email. My wife and two children (ages 10 months and 3 years) live in the house immediately next door to 1907 Inverness Blvd.

We too are concerned about maintaining the family character of our neighborhood. We were very happy to discover when we moved to Inverness Blvd four years ago that there were many young families. It's a great place to live and we've made a lot of good friends - friends who watch each others' houses, who's children play together, and spend afternoons together.

As Dave mentioned, we did not meet the owner at the recent meeting. Though we were told by his representative that the owner is negotiating with a tenant to live and work in 1907 Inverness, the property is currently listed for sale both online and with a large commercial “For Sale” sign on the property's fence facing Manchaca Road. We find this discrepancy to be very concerning.

There appears to be no motivation or incentive by the current property owner to respect the character of the neighborhood or the desires of its residents. Further, if the property is rezoned, we have neither a guarantee of the owner’s stated intent nor protections against further attempts to change the LO designation that would allow other types of use.

Please listen to the homeowners and residents and help us maintain our family neighborhood.

Thank you for your time.

Greg Dayton
1907 Inverness Boulevard

On Jan 28, 2019, at 7:39 AM, Dave Chakos <dchakos2@gmail.com> wrote:

Good morning Austin Planning Commission,
Subject: Re: OBJECTION: Rezoning of 1907 Inverness C14-2018-0141

Planning Commission Representatives,

Please let the record reflect that my family also opposes the rezoning of 1907 Inverness Blvd. My husband Bryan and I echo the concerns outlined by our neighbors. We are the owners of 1906 Inverness Blvd directly across the street from this property. Greg is correct, the palm reader did not have a permit to conduct business and eventually was forced to take down her sign.

This neighborhood has been our home since 2012 and it means so much to us. We have had the pleasure of building a community with our neighbors and see their families grow. We ourselves are expecting our first child this month and look forward to raising her here. Please hear our united voice and help us preserve the safe, family-oriented culture of our neighborhood.

Thank you for your time, we appreciate it.
Jen and Bryan Paul
1906 Inverness Blvd

Wendy and Planning Commission Representatives:
We wanted to give you an update on the status of our questions and concerns after reviewing the case back-up notes posted on the Austin.gov website.

Following the postponement of the January 22nd hearing and our introduction with Johnathan Perlstein, the owners of properties adjacent and near 1907 Inverness Blvd met and agreed that we are still in **OBJECTION** of the property being rezoned. We have worked to gather additional support of our position in the form of a petition which we will deliver to Wendy Rhoades on Monday. This petition has the signatures of property owners from Inverness Blvd., St. Albans Blvd., Kings Highway, Brittnay Blvd., and Fair Oaks Dr. **The owners who signed the petition are requesting that the Planning Commission deny the zoning change at 1907 Inverness so that it remain SF-3.**

**Please include the following in the case back-up materials for the review of the planning and zoning representatives: The forthcoming petition, this email, and any other emails sent since January 22 and before the February 12 hearing in objection to this zoning change.**

Also, the back-up materials included comments about the "Psychic Business" that operated in that home before the current owner took possession. It is our understanding that this was an unpermitted business that was shut down by the city. Further, it was a business that seemed to be more of a hobby for the previous owner than an income-generating business. Specifically, we did not see any foot traffic that could be identified as customers.

**Why we Object:**

1. **Neighborhood safety** - Due to the substantial number of uses that could be permitted under the LO-MU designation, we strongly protest the rezoning of 1907 Inverness Blvd and insist it remain SF-3. It is clear to us that what could begin as an insurance office and living space might quickly become something different and less stable for our community.

2. **Truthfulness and intent**: Following the January 22 meeting, Wendy Rhoades introduced the neighborhood owners in attendance to the representative of Marquee Investments, Mr. Johnathan Perlstein. Mr. Perlstein assured us that a tenant was in negotiation to live and work out of 1907 Inverness Blvd (one who was a State Farm agent and would only see a few clients a month - this seems counterintuitive). At that time, we pointed out that the property was listed for sale online and there was a large for sale sign from a commercial realtor posted on the property. Mr. Perlstein said that was a mistake and the property was not for sale. However, since that meeting, the property has been continuously listed for sale as a commercial space both online and the for sale sign remains (the listing was updated as recently as February 5, 2019 by the realty company "Commercial Market Exchange": [https://www.loopnet.com/Listing/1907-Inverness-Blvd-Austin-TX/14081542/](https://www.loopnet.com/Listing/1907-Inverness-Blvd-Austin-TX/14081542/) - screenshot attached as pdf as well as photo of sign). Therefore, we do not believe in the assurances of the owner or their representatives. Further, this discrepancy in the facts leads us to doubt the integrity and intentions of Marquee Investments.

3. **Current ownership, commercial zoning, and a lack of stability** - The following is a list of properties and the tenants of the owners of Marquee Investments that was culled from the Travis Central Appraisal District, Austin Zoning Records, and internet research:

- 2105 Justin Lane, 78757 - Justin Plaza. Costmetics & beauty company, State Farm Insurance, AA, 2 salons, auto title, surveying company, barber shop, nail salon,
- 1705 Bench Mark Dr, 78728 - two contracting companies
- 15307 Ginger St, 78728 - warehouse property [for sale by Commercial Market Exchange](https://www.loopnet.com/Listing/1907-Inverness-as-a-commercial-property-for-sale) which [listed](https://www.loopnet.com/Listing/1907-Inverness-as-a-commercial-property-for-sale) 1907 Inverness as a commercial property for sale.
• 11102 Bluff Bend Dr, 78753 - commercial warehouse - Austin Countertops
• 11020 Bluff Bend Dr, 78753 - commercial lot adjacent to 11102 Bluff Bend used by Austin Countertops
• 2711 Kelly Ln, 78660 - warehouse space also for sale by Commercial Market Exchange that has listed
  **1907 Inverness as a commercial property for sale.**
• 201 W. Powell Lane, 78753 - lawn maintenance company,
• 1934 Rutland Dr, 78758 - Paris Hookah Lounge
• 2801 East 5th Street, 78702 - dog grooming business
• Corner of West 5th & Congress in 2015/2016. The owners Proposed strip club at this location and a site
  plan application was submitted to the city by Aus-Tex Consulting. (the company contracted by
  Marquee investments to coordinate 1907 Inverness zoning change ). Currently home to Shiner's
  Saloon
• 103 W. 5 St - office
• 4605, 4607, 4609 N Interstate HY 35 TX 75751 - A children's science academy, empty lot, and the
  Royal Hookah Cafe.
• 9558 HY 290 78724 - empty lot, second to the west from Resevoir Ct
• 9701 E HY 290 78724 - empty lot on east side of Reservoir Ct and Frontage road
• 9705 Reservoir Ct, 78724 - lot adjacent to 9701 E HY 290. Formerly Pink Monkey Cabaret adult club.
• 9704 Reservoir Ct, 78724 - empty lot across from 9705 Reservoir Ct.
• 9570 Reservoir Ct, 78724 - empty lot at corner of Reservoir Ct and 290 frontage road.
• 704 W St. Johns Ave 78752 - Visible Style Hair Salon
• 7205 N Lamar Blvd, 78752 - DC Tatts (tattoo shop), Happy Clouds (head shop/smoke shop), Queen
  Eyebrow Threading, Beauty Salon
• Property ID 267821 - empty lot
• Property ID 267822 - empty lot
• 401 FM RD 685, 78660 - Commercial lot with shopping at front (am/pm Grocery), and warehouse
  space behind it early learning center, sign shop, boxing gym, tire ship, wrestling gym.
• 15505 I-35, 78660 - car sales
• Property ID 821836 - empty lot

We don't have an issue with Marquee Investments using their resources to develop properties. And we
also understand that not all of these businesses could operate on an LO-MU property but we list
Marque Investment's properties and tenants to illustrate the wide net that an investment company casts when
finding tenants (and, by extension, buyers of the property). However, we do not want to see this lot rezoned
and opened for the many types of uses that fall under the LO-MU code - we have no doubt that the highest
bidder will win the day and the desires of the community will not be a driving concern of Marquee
Investments' owners. Further, we object to the uncertainty that may come with a commercial lot as opposed
to the stability and certainty of an SF-3 residential lot, no matter who the owner may be. Finally, we see a
possibility where this building is razed and the lot left empty until a commercial buyer is found at the right
price. We base this on the fact that the building has some outstanding code violations.

Also, in looking over the above list, it is important to note that Marquee Investments has two of
their other properties listed for sale with Commercial Exchange Market. Again, we find it hard to
believe in any promises made by the owners as to the immediate and future use of the property.

4. Availability of commercial property in the surrounding neighborhood. There are numerous available and/or
vacant commercial spaces on Manchaca Rd. and W Stassney La. The following are all less than 0.5 miles
from 1907 Inverness and the adjacent bus stop. This search was done in one afternoon and without the
benefit of a realtor's aid. We simply walked the neighborhood, took notes, and checked the city and county
records:
1. 1500 W Stassney La (see attached photos): formerly AAA News Inc. Zoned CS-V-LR-NP. apx. 14,000 sq ft, total. Travis CAD - ID 511151

2. 1604-1606 W Stassney La (see attached photos): 18,500 sf warehouse space listed as Stassney Business Center for lease on LoopNet. Travis CAD - ID 319736

3. 2056 W Stassney La (see attached photos). Building is vacant - City Zoning profile is blank, zoned as SM Store according to Travis CAD records. Building was submitted to Austin 311 for graffiti removal apx. 5 months ago (ID 18-00237957). Travis CAD - ID 511103

4. 5700 Manchaca Road - Cherry Creek Plaza main building. Three spaces listed on LoopNet for lease: a) Suite 300 - retail (4000 sf) [currently City of Austin Municipal Court]. b) Suite 240 - Standard Retail (11,292-22,585 sf) currently retail, owner willing to divide. [Currently Thrift Town] c) Suite 310 - Office/Retail (900 sf). [Currently used as bakery kitchen but not for direct sale]. Travis CAD - ID 319824

5. 5608 Manchaca Rd (see attached photos). Formerly Subway currently empty and part of Cherry Creek Plaza Partnership. Note the commercial "For Lease" sign for food truck spaces. There is only one food truck in Cherry Creek Plaza Travis CAD - ID 319826

6. 2007 West Stassney Rd (see attached photos). Building is currently empty - food truck in front. part of Cherry Creek Plaza Partnership Travis CAD - ID 319827

7. 4908 Manchaca Rd. There is an office space for lease on LoopNet. This properly was purchased in late 2017 and renovated. The lease space is still available. Travis CAD - ID 51013

8. 5316 Manchaca Rd. Part of Crocket Square where Strange Brew was located. There is a for lease sign in front (directly across from the for sale sign for 1907 Inverness Blvd. See attached photos. Travis CAD - ID 511072

Further, we have several vape shops, a tattoo shop, sever barber shops and hair salons, a title loan broker, and a pawn shop in the neighborhood. We don't see the need for more of these types of businesses but worry that that this is the kind of "Storefront Retail/Office" that Marquee Investments and Commercial Market Exchange are marketing in the sale listing referenced above and attached. And we do have some empty buildings that investors are not in a hurry to rent out or sell, instead taking the loss as a write-off. Again, we don't want to see that happen on our street.

5. Parking and Street Safety. Parking has been a chronic issue for all residents in this area of Manchaca Road. However, for those of us across the street from Crocket Square, we have a unique problem. When Austin favorite Strange Brew was open, the overflow parking landed directly across the street on Inverness Blvd. We also have ACC students that park on our street since we are the closest side street to the South Austin ACC Campus on the east side of Manchaca. And Since Austin Java opened across the street, the parking on Inverness has gotten worse (see attached photos). With the old Strange Brew space under renovation and expected to be occupied by "Captain Quackenbush's Coffeehouse and Bakery" soon, this problem will only intensify. Adding a commercial lot at 1907 Inverness, even if there are 4-6 available spaces on the property, will make a difficult problem even more dangerous. We don't have sidewalks on Inverness and a lot of children (infant - high school) and adult pedestrian traffic. During afternoon rush hour, Inverness, St. Albans, and Fair Oaks experience a high volume of traffic as people headed south will cut through our neighborhood to get to Stassney La. Add in commercial traffic coming and going from a property that faces Inverness Blvd, not Manchaca, we have serious concerns for the safety of our families and all that come through our neighborhood.

Given the number of lots that have available or unused space, and the lack of affordable housing in South Austin, as well as our interest in keeping our neighborhood safe, we don't see the logic in changing the zoning of 1907 Inverness Blvd. In this case, the South Austin Neighborhood Combined Plan would not meet its stated vision if 1907 is rezoned. The vision: "Create a complete community that is mobile and interconnected; compact, accessible, and affordable; natural and sustainable; healthy, safe, creative, and engaged." As
outlined above, rezoning 1907 Inverness would negatively impact the residential character of our neighborhood, likely reduce the affordability of housing in the immediate neighborhood (by removing an SF-3); it would not be healthy or safe for the residents or South Austin at large, would degrade neighborhood safety and diminish the a growing community that has been building since ground was broken in 1967.

It is with this additional information and wider context that we urge the staff to change their position from "Recommend" to "Not Recommended. We will be in attendance on Tuesday and plan to formally address the Planning Commission with our wishes that 1907 Inverness Blvd remain SF-3.

Thank you for your time. We look forward to seeing you on Tuesday.

Greg Dayton
1905 Inverness Blvd
1907 Inverness Blvd
Austin, TX 78745 · Retail For Sale

Trans Corner Property on Manchaca Rd

Price: Upon Request  
Property Type: Retail  
Property Sub-type: Storefront/Retail/Office  
Building Class: C  
Sale Type: Owner User  
Lot Size: 0.18 Acre  
Gross Leasable Area: 1,379 SF  
No Stories: 1  
Year Built: 1967  
Zoning Description: SF-3

DESCRIPTION
A prime, versatile property, on the corner of Inverness Blvd and Manchaca Rd. Located less than 4 miles from Barton Creek Greenbelt, and less than 6 miles south of Auditorium Shores at Town Lake and Downtown Austin, in the ever-evolving Westgate area. The surrounding neighborhood is full of Austin culture, including local restaurants, retail, and residential.
Planning Commission Representatives:

I agree with Greg's outline of why it's necessary to keep 1907 Inverness SF-3, and ask that you please keep the zoning as is. It is imperative for the preservation of the neighborhood and safety of the many children who live in the immediate vicinity and surrounding homes.

Thank you,

Alanna Dayton

Wendy and Planning Commission Representatives:

We wanted to give you an update on the status of our questions and concerns after reviewing the case back-up notes posted on the Austin.gov website.

Following the postponement of the January 22nd hearing and our introduction with Johnathan Perlstein, the owners of properties adjacent and near 1907 Inverness Blvd met and agreed that we are still in OBJECTION of the property being rezoned. We have worked to gather additional support of our position in the form of a petition which we will deliver to Wendy Rhoades on Monday. This petition has the signatures of property owners from Inverness Blvd., St. Albans Blvd., Kings Highway, Brittman Blvd., and Fair Oaks Dr. The owners who signed the petition are requesting that the Planning Commission deny the zoning change at 1907 Inverness so that it remain SF-3.

Please include the following in the case back-up materials for the review of the planning and zoning representatives: The forthcoming petition, this email, and any other emails sent since January 22 and before the February 12 hearing in objection to this zoning change.

Also, the back-up materials included comments about the "Psychic Business" that operated in that home before the current owner took possession. It is our understanding that this was an unpermitted business that was shut down by the city. Further, it was a business that seemed to be more of a hobby for the previous owner than an income-generating business. Specifically, we did not see any foot traffic that could be identified as customers.

Why we Object:
Planning Commission Representatives and Ms. Rhoades,

I've attached electronic copies of our signed petition opposing the rezoning of 1907 Inverness Blvd. As mentioned in my previous email, these 55 signatures are from property owners on Inverness Blvd, St. Albans, Kings Highway and Fair Oaks.

My wife and I, who are the parents of two small children, spent the last two weekends, along with our immediate neighbors, knocking on doors and asking for the community's support opposing the rezoning of 1907 Inverness Blvd. We weren't able to speak with every property owner in our community but of the owners with whom we did speak, an overwhelming majority supported our position and signed the petition.

I am planning to drop off the hard copies to Ms. Rhoades on Monday.

Thank you,

Greg Dayton

Rezoning Request: 1907 Inverness Blvd

File Number: C14-2018-0141

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would zone the property to any classification other than SF-3.

The Southwood Neighborhood and its small streets, including Inverness Boulevard, is a family-friendly community that has been reinvigorated with an influx of young families and their reinvestment. If the City of Austin changes the zoning of 1907 Inverness Blvd from SF-3 to LO-MU, the character of our neighborhood would be determined by whatever office, store, or other commercial space was at the entrance to Inverness Blvd.

**Case Number:** C14-2018-0141

**Date:** 2/13/2019

**Total Square Footage of Buffer:** 198322.9698

**Percentage of Square Footage Owned by Petitioners Within Buffer:** 33.34%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

January 22, 2019 Planning Commission Agenda Question and Answer Report

   Location: 1903 Inverness Boulevard, Williamson Creek Watershed; South Manchaca Combined (South Manchaca) NP Area
   Owner/Applicant: Marquee Investments, LLC (Alex Bahrami)
   Agent: Austex Building Consultants (Jonathan Perlstein)
   Request: SF-3-NP to LO-MU-NP
   Staff Rec.: Recommended
   Staff: Wendy Rhoades, 512-974-7719
   Planning and Zoning Department

Question: Commissioner McGraw

Could you send the NP document that shows the Transition Zone? Is this part of the FLUM?

Is this why there was no city sponsored meeting?

I see that the next door neighbor objects. Did others weigh in?

Answer: Staff

Link to the Character District Map (also known as the FLUM) for the South Manchaca NP Area.

The rezoning to LO-MU-NP is allowed within the Neighborhood Transition District (as info, it allows for the SF-5, SF-6, MF-1, MF-2, MF-3, NO and LO base districts), so there is not a change in the Character District Map, and hence, not a requirement for a City sponsored meeting.

Staff has been in contact with the adjacent and across Inverness Boulevard neighbors.

Question: Commissioner McGraw

So when you say the neighbors have been in contact, do you know whether they support this? Are there any other reply sheets?

Answer: Staff

Two other adjacent neighbors have provided response sheets as of this morning and are opposed to the rezoning (link to late backup). Staff is in the process of answering emails from a group of residents on Inverness Boulevard.
Thank you Miss Best. I have copied your postponement request for the Planning Commission membership.

Wendy Rhoades

Dear Ms. Rhoades,
Thank you so much for discussing the above referenced case number. This letter serves as a formal request for postponing the Public Hearing until the following month for the following reasons:

1. Fair Council: Due to the holidays, mail service may have been delayed. Public Notice is post dated January 11th, I returned from the Winter holiday on January 14th and the letter arrived on January 18th, 2019, right before a holiday weekend. There has been no reasonable time for our street/neighborhood in a reasonable populated forum to initiate fair discussion or share an informative meeting.

2. Findings: There is no description or specific use code to identify the type of business that will occupy the premises which does not allow the property owners to understand the impact on the street for any reasons that made adversely effect the quality of life on Inverness Blvd. We need adequate time to discuss any concerns or questions we may have with or neighbors.

3. Timing: The Public Hearing is directly after a national holiday, which statistically and historically is known to be a day that many citizens may not be available or attend the meeting. In addition, we do not have reasonable time to research, investigate or create adequate questions to be addressed for any zoning changes, for any reasonable or non-reasonable reasons.

(Skye) Elizabeth S. Best
1800 Inverness Blvd.
Austin, Texas 78745
Wendy,

Thank you for the call for this project. I am going to request a postponement until the next planning commission meeting as I was waiting for the residents to contact me regarding this project as we discussed in the last hearing and now got word that there are new residents opposing the zoning change, and will need more time to prepare for this case, in coming up with a solution which makes everyone happy. I have been out of town for business and will not have enough time to get back and meet with the residents by the hearing date. Upon getting back, I will contact the residents and Mr. Bahrami and I will meet with them on site to try and come up with a solution for this, by the next hearing date.

Regards,
Jonathan Perlstein

Wendy,

I gave everyone my email address and contact number I haven’t received anything from anybody yet, have they been in contact with you?

I would’ve thought I’d receive correspondence by now because I don’t have any of their contact information.

Regards,
Jonathan

Have you been able to meet with the neighbors on Inverness yet? If not, my suggestion is to meet with them and Alex Bahrami before next Tuesday’s meeting.
