ZONING CHANGE REVIEW SHEET

CASE: C14-2018-0126
Pioneer Hill Apartments

DISTRICT: 1

ZONING FROM: LI-CO
TO: MF-4, with conditions

ADDRESS: 1420 Dessau Road

SITE AREA: 29.33 Acres

PROPERTY OWNER: FC Morse, Jr. Exempt Family Trust, et. al.
(Scott Morse)

AGENT: Alice Glasco Consulting
(Alice Glasco)

APPLICANT: JCI Residential, LLC
(Ross Hamilton)

CASE MANAGER: Heather Chaffin (512-974-2122, heather.chaffin@austintexas.gov)

STAFF RECOMMENDATION:

Staff supports the Applicant’s request for rezoning from LI-CO to MF-4 with conditions, as requested by the Applicant. The condition is that the Applicant comply with conditions outlined in the attached TIA memorandum. The memo will be attached by public restrictive covenant (RC). For a summary of the basis of staff’s recommendation, see case manager comments on page 2.

ZONING AND PLATTING COMMISSION ACTION / RECOMMENDATION:

April 2, 2019: To grant MF-4-CO, with the added conditional overlay of a maximum of 600 dwelling units. (7-0-2) Lavani- 1st, Ramirez- 2nd, Duncan and Denkler abstained. Ray absent.

CITY COUNCIL ACTION:

May 9, 2019:

April 25, 2019: To postpone to May 9, 2019, as requested by Neighborhood, on consent (11-0). Renteria- 1st, Garza- 2nd.

ORDINANCE NUMBER:
ISSUES:
No issues at this time.

CASE MANAGER COMMENTS:
The rezoning tract is located on the east side of Dessau Road, approximately ½ mile north of Rundberg Lane. The property is zoned LI-CO and is undeveloped. Immediately to the south is property zoned I-RR that is developed with nursery/construction sales & services, religious assembly, and undeveloped land uses. Also to the south and southeast are properties that are located in the ETJ. These properties, which access Brown Lane, are a mix of commercial and limited industrial uses. Uses include nursery, administrative offices, limited warehousing and distribution, construction sales and services, and others. East of the rezoning tract is undeveloped property zoned SF-6-CO and TND. North and northeast of the rezoning tract are properties zoned SF-6-CO that are developed with small lot single family residential uses. Also north of the rezoning tract, along Dessau Road are undeveloped properties zoned GR-CO. West of the rezoning tract, across Dessau Road, are single family residences zoned SF-3-NP. Please see Exhibits A and B—Zoning Map and Aerial Exhibit.

The proposed rezoning tract was originally zoned from Interim Rural Residential (I-RR) district to Tradition Neighborhood District (TND) zoning district in 2003-2004. The proposed rezoning tract is 29.33 acres out of the original 277.393 acre Pioneer Hill TND project which included a mix of residential, commercial, and industrial land uses. The rezoning tract was Tract 5a which was designated “Workshop Area” and “Employment - LI”. In the years since the TND was approved, the area has been rezoned to change conditions of the TND, and then finally to eliminate the TND zoning for most of the original area. When the subject tract was rezoned from TND in 2011, it changed to LI-CO. The conditional overlay (CO) prohibited many commercial and industrial land uses and established 100’-150’ setbacks from adjacent residential, depending on the commercial land uses. If rezoned, the CO will no longer apply, since all commercial and industrial uses would be prohibited under MF-4. Please see Exhibit C—Zoning Ordinance.

A public restrictive covenant (RC) was attached to the property at the time of rezoning in 2011 and is not proposed to be removed. The RC prohibits a public street connection to Brown Lane to the south and requires that a private driveway be constructed by the property owner to access Brown Lane. Please see Exhibit D—Restrictive Covenant.

The rezoning tract was included in a Traffic Impact Analysis (TIA) that was approved in 2002 and amended in 2003 and 2011. The Applicant has submitted an updated TIA based on current traffic conditions that has been approved by City staff. Staff recommends that the TIA be attached to the rezoning case if it is granted. Please see Exhibit E—TIA Memorandum.

Staff has received correspondence in opposition to the proposed rezoning. Please see Exhibit F—Correspondence.

Staff supports the rezoning request with the updated TIA. The Applicant is proposing approximately 600 market rate multifamily units, with a range of 1, 2, and 3-bedroom units. This will provide more housing in the area, as well as increase housing options in addition to the adjacent small-lot residences and the standard single family residences across Dessau.
Road. The site is also appropriately located for multifamily residential use. The site is
adjacent to SF-6-CO property to the north and east, most of which is developed/platted with
small lot single family residential land use. The I-RR property to the south is developed with
nursery/construction sales & services, religious assembly, and undeveloped land uses. These
are low intensity uses that would not be adversely affected by multifamily development to
the north. The area to the southeast of the property is located in the county and is developed
with a mix of commercial and light industrial uses. While there are some more intense
industrial uses further south on Brown Lane, Austin Fire Department has cleared the site for
any possible hazardous materials nearby.

BASIS OF RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.
   Multifamily residence moderate - high density (MF-4) district is the designation for multifamily and
   group residential use with a maximum density of 36 to 54 units per acre, depending on unit size. An
   MF-4 district designation may be applied to high density housing in a centrally located area near
   supporting transportation and commercial facilities, in an area adjacent to the central business district
   or a major institutional or employment center, or in an area for which moderate to high density
   multifamily use is desired.

2. The proposed zoning should be consistent with the goals and objectives of the City Council.
   Multifamily zoning will increase residential stock and increase the variety of housing types available
   in the area, as promoted by the Strategic Housing Blueprint.

3. Zoning changes should promote a balance of intensities and densities.
   MF-4 zoning in this area provides a transition of intensities and uses from commercial uses to the
   southeast to the single family residential uses to the north and northeast.

OTHER STAFF COMMENTS:

COMPREHENSIVE PLANNING:

Connectivity. Public sidewalk are located along both sides of Dessau Road. There are no urban trails, bike lanes, or public transit stops located within a half mile of this site. The Walkscore for this site is 31/100, Car Dependent, meaning almost all errands require a car. When analyzing this particular location, the existing connectivity options in this area appear to be limited.

Imagine Austin. The Imagine Austin Growth Concept Map identifies this project as being located along an Activity Corridor (Dessau Road). Activity Corridors are designated for additional people and jobs above what currently exists on the ground. Corridors are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances. They are characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use, and offices. The following Imagine Austin policies are applicable to this case:

- LUT P3. Promote development in compact centers, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.
- LUT P4. Protect neighborhood character by directing growth to areas of change that includes designated redevelopment areas, corridors and infill sites. Recognize that different
neighborhoods have different characteristics and new and infill development should be sensitive to the predominant character of these communities.

HN P10. Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to healthy food, schools, retail, employment, community services, and parks and recreation options.

Conclusions. Analyzing the land uses located within a mile of radius of the subject property, there appears to be both benefits and challenges to this location. The area of Austin is currently lacking a variety of goods and services to nearby residents, and connectivity options, including transit stops, bike lanes and urban trails. However, the subject property is located adjacent to an Activity Corridor, where a variety of pedestrian friendly retail and public amenities could eventually develop to provide walkable amenities to nearby residents. Based upon the project: (1) being located along a designated Activity Corridor, which supports residential uses; (2) Imagine Austin policies above that supports a variety of land uses, including apartment complexes, along busy corridors; (3) one public school and a recreation center being located within a mile of this site; (4) public sidewalks being located along Dessau Road, which provides some connectivity; and (5) the multifamily project being just one of several components to a much larger mixed use development, this proposed residential project appears to partially support the policies of Imagine Austin.

ENVIRONMENTAL

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed and the Colorado River Watershed, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. Zoning district impervious cover limits apply in the Urban Watershed classification. Under current suburban watershed regulations, development or redevelopment on the portion of the site located in the Suburban Watershed classification will be subject to the following impervious cover limits:

<table>

</tbody>
</table>

2. According to floodplain maps there is no floodplain within or adjacent to the project location.
3. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
4. Several trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves,
sinkholes, and wetlands.
5. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

SITE PLAN

SP 1. Site plans will be required for any new development other than single-family or duplex residential.
SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.
SP 4. The site is subject to compatibility standards. Along the northerly property line adjacent to single family residential development and along the westerly property line across Dessau Road from property zoned SF-3-NP, the following standards apply:
- No structure may be built within 25 feet of the northerly property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the northerly property line or westerly right or way of Dessau Road.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the northerly property line or westerly right or way of Dessau Road.
- No parking or driveways are allowed within 25 feet of the northerly property line.
- A landscape area at least 25 feet wide is required along the northerly property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- For a structure more than 300 feet but less than 54 feet from property zoned SF-5 or more restrictive, height limitation is 60 feet plus one foot for each four feet in excess of 300 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining property used for single family residences.

TRANSPORTATION

TR1. The site is subject to the approved TIA with zoning case # C14T-02-0001 and C14T-03-0001. A TIA revision is required for this zoning application and has been reviewed by staff. Additional mitigations may be required if the conditions in the TIA have changed. FYI – the fiscal from the previously approved TIA with C14T-02-0001 and C14T-03-0001 has been paid.
TR2. The Austin Metropolitan Area Transportation Plan calls for 140 feet of right-of-way for Dessau Road. It is recommended that 70 feet of right-of-way from the existing centerline should be dedicated for Dessau Road according to the Transportation Plan prior to 3rd reading of City Council. [LDC 25-6-51 and 25-6-55].
TR3. Additional right-of-way maybe required at the time of subdivision and/or site plan.
TR4. Janae Spence, Urban Trails, Public Works Department, Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

TR5. According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane for all ages and abilities is recommended for Dessau Road. Per Mike Schofield with the Bicycle Program in Austin Transportation Department, the protected bicycle lanes are planned to be installed in 2019 or 2020 in coordination with resurfacing. If any turn lanes are proposed to be installed on Dessau as a part of the TIA, bicycle facilities would need to be pulled behind curb for the length of the turn lane. Coordination may need to occur with the proposed bicycle facility construction and future site plan applications along Dessau Road. Additional right-of-way dedication and bicycle facility construction may be required in accordance with LDC 25-6-55 and LDC 25-6-101 to accommodate the bicycle facilities. Please review the Bicycle Master Plan for more information.

TR6. This site is subject to the Restrictive Covenants recorded with zoning application C14-2011-0049.
   a. It appears the required improvements associated with doc. no. 2011186520 have been constructed and installed. Compliance with the RC will be confirmed during the subdivision and site plan applications;
   b. Restrictive Covenant doc. no. 2011186521 requires a cul-de-sac turnaround for Brown Lane.
   c. Restrictive Covenant doc. no. 2011186521 requires dedicating a 10-foot public access easement with an 8-foot constructed trail from Brown Lane to a public right-of-way within the property. Staff is coordinating with Urban Trails Program and Parks and Recreation Department to determine the location of the required trail. The location and design of the trail shall be finalized with future applications.
   d. Per Restrictive Covenant doc. no. 2011186521, no building permit identified in Exhibit C (of the document) shall be issued without the trail connection shown in a site plan that is approved and active. Additionally, no certificate of occupancy shall be issued for the area identified in Exhibit C (of the document) if the Brown Lane access improvements are not completed. It appears building permits and certificate of occupancies have been issued within the area identified in Exhibit C. Future building permits and CO’s may be held until the improvements are implemented per the recorded document.

TR7. FYI – staff recommends access to the site be provided through internal streets and right-of-way instead of from Dessau Road. This will reduce the amount of curb cuts provided on the arterial streets as recommended in the City of Austin’s Complete Streets and Vision Zero Policies.

TR8. FYI – the site will be required to comply with residential use block length standards for the proposed MF-4 zoning at the time of the subdivision application(s). Any approved preliminary plans may be required to be revised prior to approval and recordation of any final plat.

TR9. FYI – the existing sidewalks along Dessau Road do not appear to comply with the Land Development code and do not appear to be ADA compliant based on Google Images. The existing sidewalks shall be reconstructed to City of Austin standards in accordance with the
Land Development Code and Transportation Criteria Manual at the time of the site plan application.

WATER UTILITY

WW1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

MANAGER: HEATHER CHAFFIN

1" = 400'

This map has been produced by the Communications Technology Management Dept. on behalf of the Planning Development Review Dept. for the sole purpose of geographic reference. No warranty is made.
ORDINANCE NO. 20111215-075

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY FORMERLY KNOWN AS PIONEER HILL TND LOCATED AT 9900-10324 DESSAU ROAD FROM TRADITIONAL NEIGHBORHOOD DISTRICT (TND) TO VARIOUS ZONING DISTRICTS ON APPROXIMATELY 269 ACRES OF LAND.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district on the property (the “Property”) described in Zoning Case No. C14-2011-0049, on file at the Planning and Development Review Department, as follows:

Tract One: From traditional neighborhood district (TND) to multifamily residence limited density-conditional overlay (MF-1-CO) combining district.

A 16.85 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “A” incorporated into this ordinance; and,

Tract Two: From traditional neighborhood district (TND) to townhouse and condominium residence-conditional overlay (SF-6-CO) combining district.

A 191.43 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “B” incorporated into this ordinance; and,

Tract Three: From traditional neighborhood district (TND) to multifamily residence medium density-conditional overlay (MF-3-CO) combining district.

A 23.83 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “C” incorporated into this ordinance; and,

Tract Four: From traditional neighborhood district (TND) to community commercial-conditional overlay (GR-CO) combining district.
A 6.20 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “D” incorporated into this ordinance; and,

**Tract Five-A:** From traditional neighborhood district (TND) to limited industrial service-conditional overlay (LI-CO) combining district.

A 29.33 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “E” incorporated into this ordinance; and,

Tract Five-B: From traditional neighborhood district (TND) to limited industrial service-conditional overlay (LI-CO) combining district.

A 1.30 acre tract of land, more or less, out of the James O. Rice Survey No. 31, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “F” incorporated into this ordinance; and,

locally known as 9900-10324 Dessau Road, in the City of Austin, Travis County, Texas, and generally identified in the map attached as Exhibit “G”.

**PART 2.** The Property within the boundaries of the conditional overlay combining district established by this ordinance is subject to the following conditions:

A. A site plan or building permit for the Property may not be approved, released, or issued, if the completed development or uses of the Property, considered cumulatively with all existing or previously authorized development and uses, generate traffic that exceeds 17,670 trips per day.

B. The following uses are prohibited uses of Tract One:

- Bed & breakfast (Group 1)
- Multifamily residential
- Communication service facilities
- Public primary educational facilities
- Public secondary educational facilities
- Private primary educational facilities
- Private secondary educational facilities
- Safety services

- Bed & breakfast (Group 2)
- Urban farm
- Community events
- Club or lodge
- College or university facilities
- Cultural services
- Local utility services
C. The following uses are prohibited uses of Tract Two:

- Bed & breakfast (Group 1)
- Safety services
- Communication service facilities
- Public primary educational facilities
- Public secondary educational facilities
- Private primary educational facilities
- Private secondary educational facilities

D. The following uses are prohibited uses of Tract Four:

- Automotive sales
- Automotive washing (of any type)
- Plant nursery
- Urban farm

- Bail bond services
- Outdoor entertainment
- Research services
- Hospital services (general)

E. The following uses are prohibited uses of Tracts Five-A and Five-B:

- Agricultural sales & services
- Automotive repair services
- Commercial off-street parking
- Convenience storage
- Equipment sales
- Drop-off recycling collection facility
- Hotel-motel
- Kennels
- Monument retail sales
- Printing & publishing
- Vehicle storage
- Basic industry
- Resource extraction
- Congregate living
- Maintenance & service facilities
- Transitional housing

- Automotive sales
- Bail bond services
- Campground
- Construction sales & services
- Equipment repair services
- Exterminating services
- Hotel-motel
- Kennels
- Liquor sales
- Outdoor entertainment
- Scrap & salvage
- Veterinary services
- Recycling center
- Club or lodge
- Railroad facilities
- Residential treatment
- Transportation terminal
F. A 100-foot wide buffer zone shall be established between property developed with a residential use on Tract Two and the following commercial, industrial and civic uses on Tracts Five-A and Five-B:

Research services  Limited warehousing & distribution
Custom manufacturing

The 100-foot wide buffer zone shall be measured from the property line of a property developed with a residential use to a building with a commercial, industrial or civic use.

Improvements permitted within the buffer zone are limited to streets, access easements, driveways, parking facilities, solid fences, pedestrian trails, hike and bike pathways, recreational facilities, detention and water quality re-irrigation facilities, underground utility improvements, overhead electric or communication lines, or those improvements that may be otherwise required by the City of Austin.

A driveway, access easement, or private street that serves a building with a commercial, industrial, or civic use, may not be constructed within 50 feet of the property line of a lot with a residential use.

G. A 150-foot wide buffer zone shall be established between property developed with a residential use on Tract Two and the following specific industrial uses on Tracts Five-A and Five-B:

General warehousing & distribution  Light manufacturing

The 150-foot wide buffer zone shall be measured from the property line of a property developed with a residential use to a building with the above identified specific industrial uses.

Improvements permitted within the buffer zone are limited to streets, access easements, driveways, parking facilities, solid fences, pedestrian trails, hike and bike pathways, recreational facilities, detention and water quality re-irrigation facilities, underground utility improvements, overhead electric or communication lines, or those improvements that may be otherwise required by the City of Austin.
A driveway, access easement, or private street that serves a building with a commercial, industrial, or civic use, may not be constructed within 50 feet of the property line of a lot with a residential use.

H. A 25-foot wide vegetative buffer to provide screening shall be established and maintained between property developed with a residential use and any of the commercial or industrial uses identified in Sections F and G. The vegetative buffer may be placed with the 100-foot and 150-foot setback buffers described in Section F and G.

Improvements permitted within this vegetative buffer are limited to hike and bike trails, drainage, underground utility improvements, overhead electric or communication lines, or those improvements that may be otherwise required by the City of Austin.

Except as otherwise specifically restricted under this ordinance, the Property may be developed and used in accordance with the regulations established for the respective base districts, and other applicable requirements of the City Code.

PART 3. This ordinance takes effect on December 26, 2011.

Restrictive Covenant

OWNER: Continental Homes of Texas, LP, a Texas limited partnership, dba D.R. Horton-America’s Builder (“Continental Homes”)

ADDRESS: 12554 Riata Vista Circle, 2nd Floor, Austin TX 78727

OWNER: JPMorgan Chase Bank, N.A., Trustee of the Frederic Clarke Morse, Jr. Exempt Family Trust and Frederic C. Morse, III and Scott Morse, Independent Co-Executors of the Estate of Frederic C. Morse, Sr., (collectively “Morse”)

ADDRESS: c/o Scott Morse, 2630 Exposition Blvd, Ste. 119, Austin Texas 78703 and c/o Cassidy Turley Attn: Kyle Gubernator, 613 NW Loop 410, Ste. 350, San Antonio, Texas 78216

CONSIDERATION: Ten and No/100 Dollars ($10.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

PROPERTY: A 191.43 acre tract of land, more or less, located in Travis County, Texas, being more particularly described by metes and bounds in Exhibit A incorporated into this restrictive covenant (“Continental Homes Property”); and,

A 29.33 acre tract of land, more or less, located in Travis County, Texas, being more particularly described by metes and bounds in Exhibit B incorporated into this restrictive covenant (“Morse Property”).

WHEREAS, the Owners of the Continental Homes Property and the Morse Property and the City of Austin have agreed that the two properties should be impressed with certain covenants and restrictions;

NOW, THEREFORE, it is declared that the Owners of the Continental Homes Property and the Morse Property, for the consideration, shall hold, sell and convey the properties, subject to the following covenants and restrictions impressed upon such properties by this restrictive covenant (“Agreement”). These covenants and restrictions shall run with the land, and shall be binding on the Owners of the Property, their heirs, successors, and assigns.

1. The developer of the Morse Property shall provide access from the Morse Property to Brown Lane, as follows:

   a) A cul-de-sac turnaround is required for the Morse Property during the subdivision stage to terminate Brown Lane in accordance with City of Austin standards.

   b) The Morse Property shall connect to Brown Lane at the cul-de-sac by means of a commercial Type II driveway.

   c) The developer of the Morse Property is responsible for the design, construction, and delivery of items 1.a and 1.b in accordance with the City of Austin’s requirements. A building permit for the portion of the Morse Property that is
platted as a separate lot and is adjacent to the improvements described in item 1.a and 1.b may not be approved, released, or issued, until the improvements described in items 1.a are completed and the items in 1.b are approved with the Consolidated Site Development Permit.

2. The developer of the Continental Homes Property shall:
   a) Provide a public easement ten feet in width from the Brown Lane cul-de-sac through the Continental Homes Property to a public right-of-way within the Continental Homes Property to provide connectivity for bicycle and pedestrian use to and from Brown Lane (the "Brown Lane Access"). The improvements for the Brown Lane Access shall be a trail eight feet (8') in width and, at Continental's option, may be either a crushed granite trail or hard surface trail.
   b) The developer of the Continental Homes Property is responsible for the design, construction, and delivery of the Brown Lane Access in accordance with the City of Austin Code of Ordinances. No building permit in the described area of Exhibit C shall be issued without a connection shown in a site plan that is approved and active. No certificate of occupancy on the described area of the Exhibit C shall be granted if the Brown Lane Access improvements described in 2.a are not completed.
   c) A direct street connection from the Continental Homes Property to Brown Lane is not required.

3. If any person or entity shall violate or attempt to violate this Agreement, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such Agreement, to prevent the person or entity from such actions, and to collect damages for such actions.

4. If any part of this Agreement is declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this Agreement, and such remaining portion of this Agreement shall remain in full effect.

5. If at any time the City of Austin fails to enforce this Agreement, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.

6. This Agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, and (b) by the owner(s) of the Property, or a portion of the Property, subject to the modification, amendment or termination at the time of such modification, amendment or termination.
EXECUTED this the 19th day of December, 2011.

My Commission Expires September 2, 2014
MEMORANDUM

Date: April 2, 2019
To: Heather Chaffin, Case Manager
CC: Mohammed S. Ula, P.E., Jones and Carter
     Eric Bollich, P.E., PTOE, Austin Transportation Department
     Upal Barua, P.E., P. Eng, PTOE, Austin Transportation Department
Reference: Pioneer Hill Apartments – TIA Final Memo
           C14-2018-0126

The Austin Transportation Department has reviewed the February 6, 2019 (received February 11, 2019) "Traffic Impact Analysis, Pioneer Hill Apartments, Austin, Texas", prepared by Jones and Carter. The proposal calls for a zoning change to allow for up to 625 DU multifamily housing. The site is located on the southeast corner of Dessau Road and Arborside Drive. Access to the proposed site includes three driveways: one full access driveway on Arborside Drive, one right-in/right-out driveway on Dessau Rd, and one exit only driveway that connects to Brown Lane (restrictive covenant 1b for zoning case number C14-2011-0049). The development is anticipated to be completed by 2022.

The TIA is part of the approved zoning case C14T-02-001 and amendments (C14T-03-0001 and C14-2011-0049).

The following is a summary of review findings and recommendations:

Trip Generation:
Based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (10th Edition), the development will generate approximately 3,404 average daily vehicles trips (ADT) upon build out. The table below shows the trip generation by land uses for the proposed development.

<table>
<thead>
<tr>
<th>Proposed Land Use</th>
<th>Size</th>
<th>24-Hour Two Way Volume</th>
<th>AM Peak Hour</th>
<th>PM Peak Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td>Enter Exit</td>
<td>Enter Exit</td>
</tr>
<tr>
<td>Multifamily Housing</td>
<td>625 DU</td>
<td>3,404</td>
<td>54 153</td>
<td>157 100</td>
</tr>
<tr>
<td>– Mid Rise</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td>3,404</td>
<td>54 153</td>
<td>157 100</td>
</tr>
</tbody>
</table>
Assumptions:

1. Based on TxDOT Traffic Count Database System (TCDC) AADT volume data, a 5% annual growth rate was assumed to account for the increase in background traffic.
2. The following background developments were included in the analysis; Dungan Office Warehouse (SP-2016-0574C), Cameron Crossing I (SP-2016-0507C), RCCG Salvation Center of Austin (SP-2011-0322C), and Sommerfield Commercial Tract (SP-2016-0471D).

Staff Recommendations:

1. The ASMP calls for 140 feet of right-of-way for Dessau Road. 70 feet of right-of-way from the existing centerline should be dedicated for Dessau Road prior to City issuing a site development or subdivision permit whichever happens first.
2. The fee in lieu to the amount of $268,199 shall be paid to City of Austin prior to the City issuing a site development or subdivision permit whichever happens first.
3. Based on the TIA and discussions with the applicant, the applicant shall contribute towards the following improvements:

<table>
<thead>
<tr>
<th>Intersection</th>
<th>Recommendation</th>
<th>Improvement Cost</th>
<th>% Site Traffic</th>
<th>Pro-Rata Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dessau Rd and Arborside Dr.</td>
<td>The installation of a traffic signal</td>
<td>$324,937</td>
<td>81%</td>
<td>$263,199</td>
</tr>
<tr>
<td>Cameron Rd and E Rundberg Ln.</td>

<td>$5,000</td>
<td>100%</td>
<td>$5,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td><strong>Total</strong></td>
<td></td>
<td><strong>$268,199</strong></td>
</tr>
</tbody>
</table>

4. Two copies of the final TIA are required to be provided prior to approval of zoning case.
5. Development of this property should not vary from the approved uses or deviate from the approved intensities and estimated traffic generation assumptions within the finalized TIA document, including land uses, trip generation, trip distribution, traffic controls, driveway locations, and other identified conditions. Any change in the assumptions made to the TIA document shall be reviewed by ATD and may require a new or updated TIA/addendum.
6. The assumed driveways in the TIA are subject to review and approval by the Development Services Department and Austin Transportation Department in accordance with LDC and TCM at the time of site plan.
7. The City of Austin reserves the right to allocate the money to any or all of the improvements identified in the TIA.
8. The findings and recommendations of this TIA memorandum remain valid until five (5) years from the date of this memo, after which a revised TIA or addendum may be required.

If you have any questions or require additional information, please contact me at 512-974-7110.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: As a resident of a nearby community, my concern with this application stems from a number of areas. The first being that there is no justification for this rezoning to include the proposed build in the Austin Independent School District when nearby homes that have been in the area longer are not included in AISD.

Additionally, the MF-4 zoning requested in this application is inappropriate considering that the land in question is not a centrally located area, nor is it adjacent to a central business district. Please take these factors into consideration when looking at this proposal in the future. Thank you.

Aside from the traffic concerns, our community would benefit from the land being utilized for other establishments such as stores or even parks. There are currently new apartment complexes being built north and south on Dessau/Cameron Rd which will increase the need for more retail or parks in the area. Please take these things into consideration for the residents living in the surrounding areas.

Comments: The current Pioneer Hill single family home neighborhood has approximately 900 single family homes to built/building that will be accessing Arborside Rd - a single lane one way road and the only entrance and exit to the subdivision. This proposal to build a 600 unit apartment complex, which will cut through Pioneer Hill subdivision to Arborside Rd to allow left hand turns to south bound Dessau Rd.

In my opinion Arborside Rd is not designed well enough to safely process the proposed volume of traffic. I recommend that continuing to build single family homes in this area would be a better fit for this community.

Hello Heather,

Just to be safe, I have included an email version of the statement that was intended to be on the PDF, written in bold below. "I Object" should be checked. Here are my comments:

"My home is directly across the street from the proposed apartment complex and it is facing the proposed acreage. 

When I purchased my home I was told that there would be single family homes similar to my own across the street. This proposed apartment complex will significantly devalue my home. I would not have purchased this home had I known there was a possibility of apartments being built within literal feet of my property line.

Additionally, the significant increase of the volume of residents with the addition of apartments, along with the remaining phases of homes that have yet to be built, will cause significant traffic and noise issues in the area."

Thank you for taking the time to respond, Heather. I appreciate that, and you allowing me to confirm my comments via email, very much. I wish I could be there in-person and appreciate the chance to make my voice heard on the matter.

Jacob Hall

Comments: The land does not appear to fit the MU-4 description given in 8.25-3-65 being "centrally located." It also does not seem to have close "supporting transportation and commercial facilities." The closest major grocery store is 3 miles from Pioneer Hill and the closest gas station is 1.5 miles away. The area proposed to be developed is not "adjacent to the central business district or a major institutional or employment center. This area is mostly single family homes and lacks supporting civic and commercial areas - not more than housing.
