It is imperative that Austin preserves its history. To know where Austin is going, Austin must know where it’s been & where Austin comes from. Year after year Austin is losing its identity and it breaks my heart.

APPENDIX F
SEVEN ASPECTS OF INTEGRITY
SEVEN ASPECTS OF INTEGRITY

In addition to possessing significance under one or more of the National Register Criteria, in order to be considered eligible for inclusion in the NRHP, a property and contributing resources must also retain sufficient integrity and historic character to convey their significance. The National Register Criteria recognize seven aspects that define integrity, in various combinations. These aspects of integrity are defined below:

- **Location** – The place where the historic property was constructed or the place where the historic event occurred.
- **Design** – The combination of elements that create the form, plan, space, structure, and style of a property.
- **Setting** – The physical environment of a historic property.
- **Materials** – The physical elements that were combined or deposited during a particular period of time and in a particular pattern or configuration to form a historic property.
- **Workmanship** – The physical evidence of the crafts of a particular culture or people during any given period in history or prehistory.
- **Feeling** – The property’s expression of the aesthetic or historic sense of a particular period of time.
- **Association** – The direct link between an important historic event or person and a historic property.

A resource need not retain all seven of these aspects of integrity to be a contributing building within a historic district.
