37 **PART 4. SIGNS.**

38 **A. Findings.**
39
40

1. The City Council incorporates the findings in City Code Section 25-10-1 (*Purpose and Applicability*) and makes the following additional findings.
2. Sports stadiums around the country frequently utilize signs to identify the facility with products, services, and companies who have a contractual or financial relationship with the sports franchise associated with the stadium, events held at the stadium, or stadium operations (collectively referred to as a "sponsor").
3. When installed on property used for a sports stadium, signs displaying the name or logo of a sponsor bear a closer similarity to on-premise business signs than to traditional off-premise signs or billboards that are typically: (a) not associated with a land use or occupancy; (b) unattached to a permanent structure other than supporting poles; and (c) function solely as product advertising.
4. A sign with a reader board component at sports stadiums is less likely to negatively impact public safety and visual aesthetics than freestanding billboards. This is due to design standards applicable to construction of the signs, as well as the close association of sponsorships signs with a permanent stadium facility and the limited number of stadiums located in a particular metropolitan area.
5. Based on the foregoing findings, the Council finds that allowing well-regulated use of reader boards at the new soccer stadium at the City's McKalla Place property is consistent with the goals of the City Code Chapter 25-10 (*Sign Regulations*), with national best practices, and with the Lease and Development Agreement for McKalla Place.

B. Definitions

1. **DIGITAL DISPLAY** means images, scrolling images, moving images, flashing images through the use of grid lights, light emitting diode displays, plasma screens, liquid crystal displays, fiber optics, or other electronic media or technology that is integrated into a sign and that may be changed remotely through electronic means.
2. **FREESTANDING SIGN** means a sign not attached to a building, but permanently supported by a structure extending from the ground and permanently attached to the ground.
3. **SPORTS STADIUM** means a multi-functional stadium for use by one or more professional or amateur sports teams designed to seat at least 20,000 spectators.
4. **OFF-PREMISE SIGN** means a sign that displays any message directing attention to a business, product, service, profession, commodity, activity,

1 event, person, institution, or other commercial message which is generally
2 conducted, sold, manufactured, produced, offered, or occurs elsewhere than
3 on the premises where the sign is located.
