### **Prior Council Action:**

October 10, 2002: Council approved the original Interlocal Agreement

### **For More Information:**

Rey Arellano, Assistant City Manager, Safety (512) 974-2222

### **Additional Backup Information:**

The Combined Transportation, Emergency, and Communications Center (CTECC) is a coalition of regional public safety and public service partner agencies with a common vision of improved public service through collaboration. The Austin City Council approved the first interlocal agreement for operations and maintenance of CTECC on October 10, 2002.

CTECC's mission is to deliver nationally recognized public safety and public service by working together in a spirit of cooperation, trust, dedication, honesty, commitment, and accountability. The CTECC partners' goal is to maintain a role as leaders in the delivery of transportation and emergency services by ensuring that the CTECC systems are cost effective, sustainable, reliable, technologically innovative, and support the needs of the users and the community.

This interlocal agreement establishes the organizational structure and funding for the operation and maintenance of CTECC and the following associated programs, all or a portion of which are located in the facility:

- Austin-Travis County Emergency Operations Center,
- Computer Aided Dispatch System,
- City of Austin Fire and ATCEMS Record Management System,
- City of Austin Police Records Management System, 9-1-1 System, and
- Intelligent Transportation System/Transportation Management Systems

.Amending and restating the interlocal agreement is necessary in order to update the organizational structure

utilized by the partners, to recognize that the City's Transportation Department will co-locate and assume duties at CTECC, to update the total length of the term of the agreement, and to make numerous other minor substantive and non-substantive changes in order to make the agreement clearer and more understandable.

On August 7, 2019, the CTECC Governing Board approved the interlocal agreement and recommended that it be approved by City Council and the governing bodies of the other partner agencies.
