ZONING CHANGE REVIEW SHEET

CASE: C14-2019-0078 – All Points Construction Services      DISTRICT: 3

ZONING FROM: SF-3-NP      TO: SF-6-NP

ADDRESS: 4507 and 4511 Vinson Drive      SITE AREA: 1.88 acres

PROPERTY OWNER: All Points Construction Services, LLC (Adrian DeLeon)

AGENT: All Points Construction Services, LLC (Paul Thiessen)

CASE MANAGER: Wendy Rhoades (512-974-7719, wendy.rhoades@austintexas.gov)

STAFF RECOMMENDATION:

The Staff recommendation is to grant townhouse and condominium residence – neighborhood plan (SF-6-NP) combining district zoning. The basis of Staff’s recommendation is provided on pages 2-3.

PLANNING COMMISSION ACTION / RECOMMENDATION:
August 13, 2019: APPROVED SF-6-NP DISTRICT ZONING, AS STAFF RECOMMENDED

[G. ANDERSON; J. SHIEH – 2ND] (7-2) C. LLANES-PULIDO; T. SHAW – NAY;
A. AZHAR, P. HOWARD, R. SCHNEIDER, P. SEEGER – ABSENT

CITY COUNCIL ACTION:
September 19, 2019:

ORDINANCE NUMBER:

ISSUES:
The Owner and Agent met with the Southwood Neighborhood Association on July 14, 2019 at the ACC Campus, and with the South Manchaca Neighborhood Plan Contact Team on July 31, 2019. The Contact Team has provided correspondence that they support maintaining the existing SF-3-NP zoning. Please refer to attached correspondence.

A rezoning application for SF-6-CO-NP with the Conditional Overlay for a maximum of 16 units and prohibiting accessory dwelling units was approved by City Council on Second Reading on March 23, 2017. The application subsequently expired because Third Reading did not occur within the LDC prescribed 361-day time frame from the date of First Reading (February 16, 2017). The subject rezoning case was filed on May 20, 2019. Information about the previous and recorded subdivision, and the previous and current site plans is provided in the Related Cases section of this report.
CASE MANAGER COMMENTS:

The subject property consists of an undeveloped, 8 lot single family subdivision and is zoned family residence – neighborhood plan (SF-3-NP) district. Access to the property is taken to Vinson Drive, a residential collector street that measures 21 - 25 feet wide. The railroad tracks parallel Vinson Drive which veers to the northwest as it approaches West St. Elmo Road and corresponding railroad crossing sign with directional arrows as well. A non-operational railroad spur borders the northern portion of this property. There is a religious assembly use fronting St. Elmo Road to the northwest (LO-MU-CO-NP); single family residences on large lots that front on South 3rd Street and back up to the railroad tracks to the north; and generally standard-sized residential lots that front on South 3rd Street and Philco Drive to the east and south (SF-3-NP). Please refer to Exhibits A (Zoning Map), A-1 (Aerial View) and B (Recorded Plat).

The Applicant proposes to rezone the property to the townhouse and condominium residence – neighborhood plan (SF-6-NP) district and construct 19 stand-alone condominium units on approximately 1.9 acres. Please refer to Exhibit C (Proposed Site Plan). Due to the curve in the road approximately midpoint on the property, the Austin Transportation Department (ATD) recommends this site be limited to one driveway because of the unique vertical and horizontal geometry of Vinson Drive. Additionally, ATD is in favor of the driveway in the proposed “south” location illustrated on the site plan currently in process.

BASIS OF RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.

The townhouse and condominium residence (SF-6) district is intended as an area for moderate density single family, duplex, two-family, townhouse and condominium use. The Applicant intends to develop the property with a condominium project consisting of stand-alone condominium units per structure. The NP, neighborhood plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character; and

3. Zoning should be consistent with an adopted study, the Future Land Use Map (FLUM) or an adopted neighborhood plan and

4. The rezoning should be consistent with the policies adopted by the City Council or Planning Commission / Zoning and Platting Commission.

This is a classic case of residential infill in a residential neighborhood. As with the 2016 rezoning case, the Applicant thinks the requested SF-6 zoning will allow for a better community outcome – both in terms of the existing neighbors and future residents.

There will be an impact on Vinson Drive with an additional driveway serving up to 19 condominium units. However, if Austin is to grow and evolve as a compact and connected city, as envisioned in the adopted Imagine Austin Comprehensive Plan (IACP), then
residential infill that provides additional housing units is necessary. One of the primary mechanisms for achieving compact growth will be development, or redevelopment, of larger sized properties such as this into higher density residential.

In the broader city-wide context, SF-6 is a reasonable option for multiple-acre parcels developed or redeveloped as residential infill. As indicated in the purpose statement of the district, SF-6 can be a transition to single-family residential – reflecting it is an appropriate and compatible use.

In conclusion, Staff believes the proposed SF-6-NP zoning and condominium development is compatible with adjacent and nearby single family residences, while still promoting single-family character of the surrounding neighborhood. The Staff recommendation also acknowledges the property’s unique size paired with location across from railroad tracks, the related vehicular access issues, and proximity to a tract used for religious assembly.

RELATED CASES:

South Manchaca Neighborhood Plan Rezonings
The South Manchaca Neighborhood Plan Area rezonings were completed under the City of Austin's Neighborhood Planning Program and adopted as part of the Imagine Austin Comprehensive Plan on November 6, 2014 (C14-2014-0018 – Ordinance No. 20141106-087). The site is within the Residential Core Character District and the proposed SF-6-NP zoning does not trigger a change to the Character District. As part of the South Manchaca Neighborhood Plan Rezonings, the Secondary Apartment special use was adopted area-wide with the exception of certain subdivisions and portions thereof. It is an allowed use on the subject property and the surrounding properties too.

Subdivisions
An 8-lot subdivision was recorded on July 30, 2018 (C8-2016-0215.0A – Villas at Vinson Oak Resubdivision). A plat note states: “A single joint-use driveway may serve not more than eight dwelling units.” This note is derived from LDC Section 25-6-451(C) (Joint-Use Driveways) which states that “A joint use driveway used as alternative access for a single family residential use may serve not more than eight dwelling units.”

As information, at the time of the 2016 rezoning case, a one-lot subdivision plat was under review for this tract, and subsequently expired (C8-2016-0089.0A.SH – Villas at Vinson Oak). The plat proposed to combine two lots and an unplatted area into one lot.

Site Plans
A site plan for 19 stand-alone condominium units was filed on July 9, 2019 and is currently in review (SP-2019-0289C – The 19). The proposed 20 to 25 foot wide drive access takes a slightly different route and runs the length of the property.
As information, at the time of the 2016 rezoning case, a site plan application was under review for this property (SP-2016-0276C.SH – Villas at Vinson Oak). The plan proposed 7 detached and 12 attached condominium units, with associated parking on 1.9 acres, and subsequently expired.

EXISTING CONDITIONS

Site Characteristics

The site consists of three undeveloped tracts which are fairly level with the exception of an approximate 5-foot drop in topography on the southernmost tract. There is a 51-inch Live Oak (heritage) tree near the south property line.

Impervious Cover

The maximum impervious cover allowed by the SF-6 zoning district would be 55%, which is a consistent figure between the zoning and watershed regulations. The 19-unit site plan currently in process proposes 43.2% impervious cover.

Capital Metro

This notice concerns all proposed development within 500-feet of the Capital Metro Rail Tracks

Capital Metro runs freight service on these tracks, and is required to continue to do so as a matter of federal law. Since March 22, 2010, we are operating passenger rail service, primarily, but not limited to, weekday hours. With the start of passenger rail service, we have shifted freight rail service to other times, particularly the hours after the last passenger train has run. This shift is in accordance with Federal regulations and safety procedures.

All concerned parties need to be aware of the freight service in planning any development. The freight trains generate some noise as they move through. At many urban street crossings, there are upgraded signal systems with crossing arms to block the roadway. This allows the City of Austin the ability to apply for a “quiet zone” meaning that the train will not blow its horn, under normal operations, as it moves through the street. At other crossings, the freight train will blow the horn, which is approximately 96 decibels. At any time, if the engineer judges it to be prudent, the horn will be sounded as needed for safe operation.

Capital Metro strives to provide the community with the best passenger and freight service possible. We also try to be sure that all of our neighbors are aware of both our present and possible future operations.
OTHER STAFF COMMENTS:

Comprehensive Planning

This rezoning case is located on the east side of Vinson Drive on an undeveloped subdivision, which is approximately 1.9 acres in size. The property is located in the South Austin Combined Neighborhood Planning Area (SACNPA), in the South Manchaca Neighborhood Planning Area (SMNPA). Surrounding land uses include undeveloped land to the north, single family housing to the south and east, and a railroad track to the west. The proposed use is a 19 unit condominium project.

Connectivity: The Walk Score for this site is 25/100, Car Dependent, meaning almost all errands must be accomplished by car. A Cap Metro transit stop is located a third of a mile from the subject property. Public sidewalks are non-existent along the majority of the streets in this neighborhood.

South Austin Combined Neighborhood Plan (SACNP)
The SACNPA Character District Map classifies this area of the plan as ‘Residential Core’ (almost adjacent to a Neighborhood Transition District) and Zone SF-6 is allowed in the character district. The following SACNPA text and policies are relevant to this case:

The Residential Core character districts consist of contiguous areas within the interior of the neighborhood made up of one- and two-story single-family homes and some duplexes. This is where most people in the neighborhood live. Most homes date from the 1950s to the 1980s, although some areas developed more recently (such as Independence in the mid-2000s). Streets and homes within the district are shaded by mature trees, which contribute to the sense of place distinguishing this district from others. The intent of this district is to maintain the character of the neighborhood. The community would like to preserve the residential character of this district, while improving its walkability. The Residential Core also presents the opportunity to incorporate some “missing middle” housing types into the neighborhood fabric, which aids affordability and can contribute to walkability. (p. 47)

Vision: Well-maintained homes, an abundance of trees, and a complete sidewalk system create a safe and inviting place to walk, bike, and meet neighbors. (p. 48)

Policies for the Residential Core:
RC P1: Maintain the residential character of the Residential Core, ensuring that future development or redevelopment is appropriate to the district and is compatible with the existing neighborhood.

RC P2: The following residential building types fit the character of the district and are appropriate as infill or redevelopment options (see page 49 thru 50 for details):
• Single family houses
• Duplexes
• Small houses on small lots
• Cottage clusters/bungalow courts

**RC P6:** Garages or carports should be constructed flush with or behind the front façade of the house for new single-family residential housing. (p. 52)

**RC P7:** Maintain residential character while encouraging missing middle housing types that are compatible with the neighborhood character. In the interim between the adoption of this neighborhood plan and the adoption of the revised Land Development Code being developed through CodeNEXT, the following zoning districts should be generally considered appropriate to the Residential Core character district:
- MH: Mobile home residence
- SF-2: Standard lot single family
- SF-3: Family residence
- SF-4A: Small lot single family
- SF-4B: Single family condo
- SF-5*: Urban family residence
- SF-6*: Townhouse & condo residence
- MF-1: Limited density multi-family

* Uses should be conditional and may be appropriate when located next to more permissive districts or intensive uses, depending on context.

Please see pages 47 to 52 of the SACCNP for more specifics.

SACNPA policy and text support townhouse and condo residences in the Residential Core as long as they are compatible with the neighborhood character of the area.

**Imagine Austin**

This property is not located in an Imagine Austin Activity Center or along a Corridor according to the Imagine Austin Growth Concept Map. The following Imagine Austin Comprehensive Plan (IACP) policies are applicable to this project:

- **LUT P5.** Create healthy and family-friendly communities through development that includes a mix of land uses and housing types and affords realistic opportunities for transit, bicycle, and pedestrian travel and provides both community gathering spaces, parks and safe outdoor play areas for children.

- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.

- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to healthy food, schools, retail, employment, community services, and parks and recreation options.
This proposed condo/townhouse project supports both the policies in SACNPA and the IACP, and will provide much needed missing middle housing in the area.

Drainage

The developer is required to submit a pre and post development drainage analysis at the subdivision and site plan stage of the development process. The City’s Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Gross Site Area</th>
<th>% of Gross Site Area with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family</td>
<td>50%</td>
<td>60%</td>

<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

Site Plan and Compatibility Standards
Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

a. FYI: Additional design regulations will be enforced at the time a site plan is submitted.

The site is subject to compatibility standards due to adjacency of SF-3 zoning to the north, east, and south. The following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- Landscaping or screening is required along the north, east, and south property lines in accordance with the screening requirements (Section 25-2-1006 and ECM 2.9.1.), Parking Design Standards (Section 25-6-563) and/or Screening Standards (Section 25.2.1066) to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from property in an SF-5 or more restrictive zoning district.

**RESIDENTIAL DESIGN STANDARDS OVERLAY**
The site is subject to 25-2 Subchapter F. Residential Design and Compatibility Standards.

**Transportation**

The Austin Strategic Mobility Plan (ASMP) adopted 04/11/2019, calls for 78 feet of right-of-way for Vinson Dr. Right-of-way dedication shall be required at the time of site plan. A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC 25-6-113].

FYI: This site is located within the South Austin Combined Neighborhood Planning Area and will need to comply with the NPA transportation requirements at the site plan stage. For additional information, please see: ftp://ftp.ci.austin.tx.us/npzd/Austingo/SACNP_FINAL.pdf

FYI: Parking spaces for vehicles, other than in a driveway, are prohibited in required front street yards of condominium use in SF-5 and SF-6 districts [LDC 25-2-776].
FYI: Head-in, back-out parking is prohibited in SF-6 or more permissive zoning districts [LDC 25-6-472].

Austin Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Based on current public infrastructure configurations, it appears that service extension requests (SER) will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact Alberto Ramirez with Austin Water, Utility Development Services at 625 E. 10th St., 7th Floor. Ph: 512-972-0211.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Austin, TX 78767-8810

This will have cars parking on the street just like most of the other new homes that have been built in the neighborhood. Old homes are being torn down and replaced by twice the occupancy of before and parking has become an issue. Cars around these new homes cause a park on street and cause the roadway to become one lane.

Open issues and get worse.
PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: I don’t want my backyard area changed. I enjoy the view and the quiet. So, 3rd St. is already congested because of St. Elmo Elementary School on W. St. Elmo Rd. is not safe to accommodate more people/traffic.

Hi Wendy,

I am strongly opposed to the proposed rezoning of 4511 Vinson Drive to SF-6 from SF-3. The proposed zoning of SF-6 is in the interior of our neighborhood, and is not in a designated transitional area. It is surrounded by SF-3 properties. Our South Austin Combined Neighborhood Plan adopted in November 2014 states on page 52 that for SF-6:

"uses should be conditional and may be appropriate when located next to more permissive districts or intensive uses, depending on context"

There is nothing more permissive or intensive next to this property.

I received the City's notification on Tuesday August 6th of the Planning Commission hearing scheduled August 13th. It included a response form for neighbors within 500 feet to return via snail mail stating whether they are for or against the proposed zoning change. However there is not adequate time for neighbors responses to be received by the city and included in your back up material for the hearing.

I am glad to see that the form was provided in both English and Spanish this time.

Please include this email in your back up material.

Thank you.

Peggy Dunn
PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website:
www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: The Southwood neighborhood is affected by water drainage issues. I am concerned that dense development on this lot will have a negative impact on this issue.

Comments: I think this is a terrible place to rezone to allow density & dangerous due to middle road. Vision is blind spot near the old out of commission railroad! It will also aggravate the already serious problem of South 2nd & South 3rd streets being used as a cut through during morning commute. Too many people complain in that corner is speedy, short sighted, and not fair to the people living in the area.

Subject: #C14-2019-0078 4511 Vinson Dr

[External email. Caution with links & attachments!]

hello,
I am contacting you the register opposition to the proposed zoning change for this property on Vinson. The proposed zoning change is inappropriate for a number of reasons, but primarily because that usage does not mesh with the surround single family properties. Also, the route of Vinson (which becomes Emerald Forest Dr just a few yards South of this property) is overly trafficked currently. Further traffic and resident ingress/egress from this proposed site would be very dangerous. Additionally, this zoning change could cause additional traffic problems that would further jeopardize the ability of Fire/EMS at St. Elmo / S.1st from accessing hundreds of homes just South of 4511 Vinson.
I have personal knowledge of the issues created by this property because I have lived on Emerald Forest Dr, just South of this property for over 20 years and my office has been located just North of there on Banister / Ben White for over a decade. Because of this I’ve traveled past this property almost daily, at least 30-50 times per month, for over 120 months- by estimation, easily thousands and thousands of times.
Respectfully,

John C. Sheppard, Realtor
512-472-4663 office
512-626-4663 direct

Please, do not grant a zoning variance

That stretch of Vinson cannot possibly handle the additional traffic flow from condominiums.
-- Walk or bicycle Vinson from Emerald Forest to St. Elmo. You'll immediately see what I mean. Bring tranquilizers.

I don't know if the sense of community or aesthetic standards matter to you or your department.
-- We value an easy-going, slower pace here in South Austin.
-- Please keep new urban density downtown.

Thank you.

All the best,

Damun Gracenin
5403 Salem Hill Drive 78745

The South Manchaca Neighborhood Plan contact team met on July 31st to hear the applicant's presentation of his proposed development project at 4511 Vinson Drive. After questions and discussion, the contact team voted unanimously in favor of maintaining SF-3-NP zoning at this site in our residential core as per our neighborhood plan.

Sincerely,

Julian Jones
Secretary
SMNP contact team
