### **Additional Backup Information:**

The contract is for the supply of parts and repair services for City-owned Heil refuse collection truck bodies. The City currently has approximately 150 refuse collection trucks with Heil components. These trucks are operated by Austin Resource Recovery (ARR) for the collection of trash and recyclables. The contractor will provide repair services to supplement the work performed by City technicians and parts will be purchased for maintenance and repairs handled in-house.

The recommended contractor is the only distributor authorized by the manufacturer to provide parts and service in the State of Texas. This contract will replace the current contract which expires July 9, 2020. Due to unforeseen repairs required for these units, there is insufficient funding under the current contract to last until the end of the term. In addition, ARR has taken delivery of 27 additional Heil refuse collection trucks during the summer and fall of 2019, with eight of these units being non-replacement additions to the fleet. The warranty period for Heil refuse collection truck bodies is one year. The requested authorization amount is based on historical spend and allows for a small annual growth for parts and repair services associated with aging vehicles and new and future acquisitions.
