Additional Backup Information:

On February 20, 2020, there was a camp fire at Highway 183 and Cameron Road. This fire required immediate inspection and repair of the bridge to ensure the infrastructure of the bridge remained intact. In order to allow for the bridge inspection and repair, the debris, including trash and human waste which had accumulated under the bridge, had to be removed. To protect the health and safety of residents, this cleanup was performed immediately and the spending authorization request is being brought to Council at the earliest opportunity possible.

The proposed amendment will provide for the continued removal of debris, cleanup, and clearing out services under bridge overpasses and in the transportation right of way throughout the city.

The Texas Department of Transportation previously had a contract with WorkQuest (formerly Texas Industries for the Blind and Handicapped Industries, Inc. (TIBH), to provide these services, however the state allowed their contract to expire in 2019. On March 28, 2019, the original Recommendation for Council Action was brought forward and Council approved the initial term with direction to return to Council for further approval of any extension options. Per Council direction at the February 20, 2020 Council meeting, no waste from this contract will be taken to the Austin Community Landfill.

State law allows political subdivisions to substitute services available from blind or disabled persons for those which could be purchased from private business without securing competitive bids (Texas Human Resources Code, Section 122.017 and Texas Local Government Code Section 252.022(a)(13)). The contract meets this requirement.
