ORDINANCE NO.

AN ORDINANCE MAKING CERTAIN FINDINGS RELATING TO SPEED AND SPEEDING IN AUSTIN; AND AMENDING CITY CODE CHAPTER 12-4 (SPEED LIMITS) TO DEFINE NEIGHBORHOOD, DOWNTOWN, AND URBAN CORE ARTERIAL STREETS TO SET STANDARD SPEED LIMITS ON THOSE STREETS; AMENDING THE TABLE OF SPEED LIMITS ON CERTAIN ENUMERATED STREETS; AND MODIFYING SPEED LIMITS ACCORDINGLY.

PART 1. FINDINGS.

A. In November 2014, City Council created a Vision Zero Task Force to develop an Action Plan to achieve zero traffic-related fatalities and serious injuries.

B. In May 2016, City Council adopted the 2016-2018 Action Plan (Action Plan) and incorporated it into the “Imagine Austin Comprehensive Plan.” The Action Plan mentions “speed” or “speeding” over 100 times throughout the document, and states that since risk of injury and fatalities increase as speeds increase, it is imperative to regulate traffic speeds in a way to lower that risk.

C. The City Council adopted the Austin Strategic Mobility Plan (ASMP) in April 2019, reaffirming its commitment to the Vision Zero policy to “prioritize the protection of human life over all else in the planning, design, and operation of Austin’s transportation network.” The ASMP also includes an implementation plan to “develop a comprehensive data-driven approach to speed management to evaluate systemwide speeds and make recommendations for reforming speed setting methodology,” among other actions.

D. In May 2019, the State of Texas Transportation Commission (TTC), whose members are appointed by the governor with the advice and consent of the Texas Senate, adopted a goal of zero traffic deaths by 2050 and a goal to reduce the number of deaths in half by 2035. To this end, the TTC ordered the Texas Department of Transportation (TxDOT) to develop and implement strategies required to reduce the number of deaths on Texas roadways.

E. TxDOT’s Strategic Highway Safety Plan includes “Speeding” and “Pedestrian Safety” as two emphasis areas with a number of specific strategies, and includes one strategy that overlaps both: “[e]ncourage use of target speeds for arterial, collector, and local roadways; encourage use of target speeds with pedestrian,
land use and roadway context, including options for target speeds of 35 mph or less on arterials and the evaluation of existing speed limits to appropriate target speeds” with increased safety for all road users and reduction of injury and fatalities as the ultimate goal.

F. Engineering studies conducted by the City Traffic Engineer support the conclusion that the current posted speeds throughout the City are unreasonable and unsafe given the number of incidents of traffic-related injuries and deaths the community experiences, and the speed limits contained herein reflect the safe and prudent speeds as demonstrated by engineering studies.

G. Council’s current action, related to speed limit modifications, represents the implementation of strategies specifically endorsed by the State’s plans that encourage local jurisdictions to take action toward our collective transportation safety goals in Texas, and also reflect the direct alignment of State and City goals towards zero deaths on Texas roadways.

PART 2. City Code Chapter 12-4 (Speed Limits) is amended to add a new Section 12-4-1 adding definitions of “Downtown Street,” “Neighborhood Street,” and “Urban Core Arterial Street,” to renumber the remaining Sections accordingly, and to read as follows:

§12-4-1 DEFINITIONS.

In this Chapter:

(1) DOWNTOWN STREET means a street within the area bounded by Lamar Boulevard (North), East and West Martin Luther King, Jr. Boulevard, the West Frontage Road of Interstate Highway 35 North, and Lady Bird Lake regardless of commercial, governmental, or residential orientation.

(2) NEIGHBORHOOD STREET means a street approximately 40 feet or less in width between faces of curbs, or, in the absence of curbs, between edges of pavement, and having primarily front-facing residential land uses.

(3) URBAN CORE ARTERIAL STREET means a street in the area bounded by US 183, SH 71, and Loop 1.

PART 3. City Code Section 12-4-64(D) (Table of Speed Limits) is amended to delete the following street sections from the list of streets with the corresponding maximum speeds:

(A) [7th Street (East) from 71 feet west of the center line of Brushy Street to 175 feet east of the center line of Calles Street. (35 MPH)]
(B) [7th Street (East) from 175 feet east of the center line of Calles Street to Shady Lane. (40 MPH)]

(C) [7th Street (East) (Loop 343) (eastbound) from Shady Lane to Airport Boulevard. (45 MPH)]

(D) [15th Street (East) from I.H. 35 (North) East Frontage Road to Congress Avenue (South). (35 MPH)]

(E) [15th Street (West) from Congress Avenue (South) to Enfield Road. (35 MPH)]

(F) [51st Street (East) from 250 feet west of Waterbrook Drive to U.S. 183. (35 MPH)]

PART 5. City Code Chapter 12-4 (Speed Limits) is amended to add Sections 12-4-65
(Speed Limits on Downtown Streets), 12-4-66 (Speed Limits on Neighborhood Streets),
and 12-4-67 (Speed Limits on Urban Core Arterial Streets) to establish speed limits on
downtown streets, neighborhood streets, and urban core arterial streets and to read as
follows:

§12-4-65 – SPEED LIMITS ON DOWNTOWN STREETS.

A person may not operate a vehicle on downtown streets at a speed greater than
a maximum speed limit of 25 miles per hour unless an increased or reduced
speed is necessary for safe vehicle operation, an increased or reduced speed is
necessary as determined by the City Traffic Engineer, or compliance with law.

§12-4-66 – SPEED LIMITS ON NEIGHBORHOOD STREETS.

A person may not operate a vehicle on a neighborhood street at a speed greater
than a maximum speed limit of 25 miles per hour unless an increased or
reduced speed is necessary for safe vehicle operation, an increased or reduced
speed is necessary as determined by the City Traffic Engineer, or in compliance
with law.

§12-4-67 – SPEED LIMITS ON URBAN CORE ARTERIAL STREETS.

A person may not operate a vehicle on an urban core arterial street at speeds
greater than a 30, 35, or 45 miles per hour maximum speed, as more specifically
described in City Code Section 12-4-64(D) (Table of Speed Limits), at speeds
PART 6. The amendments made in this ordinance are based on the results of traffic engineering investigations, or “speed studies,” attached as Exhibit “A” to this ordinance.

PART 7. The amendments made in this ordinance shall be incorporated in alphabetical order in the City Code Section 12-4-64(D) (Table of Speed Limits) and the existing entries reordered accordingly.

PART 8. The City Traffic Engineer shall have the obligation and authority to design, place, and prioritize appropriate signage to implement the changes contained in this ordinance.

PART 9. Further amendments to City Code Section 12-4-64(D) (Table of Speed Limits) necessary to conform to the requirements of City Code Chapter 12-4 (Speed Limits) will be established by separate ordinance.

PART 10. This ordinance takes effect on ________________, 2020.
