3 **WHEREAS**, the City of Austin Strategic Direction 2023 Plan, under the

5 care costs; and

7 “improve access to quality child care services near homes and workplaces”, and

8 **WHEREAS**, since the onset of the COVID-19 pandemic, more than half of
9 the child care programs in Austin that accept child care subsidies have closed and
10 are not operating; and

11 **WHEREAS**, child care programs that remain open and operating child are
12 facing impending closure due to increased operating costs associated with
13 implementing health and safety protocols (such as additional staff to create smaller
14 class sizes), reduced revenue due to reduced enrollment and attendance, and
15 intermittent closures as a result of COVID-19 exposure; and

16 **WHEREAS**, child care programs that remain open and operating may have
17 capacity to serve additional families, however the Austin/Travis County Workforce
18 Board that manages the subsidy program currently has a waiting list of more than
19 2,000 children seeking child care subsidy; and

21 eligible for subsidies is growing and expected to continue growing given the
22 economic strain of the pandemic on our community; and

24 terminated imminently, which would result in additional loss of funding for child
25 care and more families placed on the growing waiting list; and

27 the Austin Childcare Provider Relief Grant provides relief for economic loss from
28 March to June, however the ongoing requirements for providing child care under
29 current health and safety protocols will result in ongoing potential loss of revenue
30 and increased expenses for all child care programs in Austin for the next 9-12
31 months; and

32 **WHEREAS**, the shortage of subsidy funds for child care disproportionately
33 impacts children of color, whose parents and guardians disproportionately work in
34 sectors that do not allow for remote work or work from home options, also
35 increasing risk of COVID-19 exposure; and

53 collaborate with local school districts to make those facilities available when
54 feasible.
