ZONING CHANGE REVIEW SHEET

CASE: C14-2020-0065, Rainey Gas Insulated Switchgear (GIS) Substation

DISTRICT: 9

ZONING FROM: Unzoned & SF-3
TO: P

ADDRESS: 806 ½ Lambie Street

SITE AREA: 1.440 acres (62,726 sq. ft.)

PROPERTY OWNER: Austin Energy (Pamela England)
AGENT: Civil Land Group, LLC (Greg Ulcak, P.E.)

CASE MANAGER: Mark Graham (512-974-3574, mark.graham@austintexas.gov)

STAFF RECOMMENDATION:
Staff recommendation is to grant public (P) district zoning. For a summary of the basis of staff’s recommendation, see case manager comments below.

PLANNING COMMISSION ACTION / RECOMMENDATION:
September 8, 2020: APPROVED P DISTRICT ZONING AS STAFF RECOMMENDED BY CONSENT. VOTE (9-0) [P. SEEGER; C. HEMPEL 2ND] 2-VACANCIES ON THE COMMISSION.

CITY COUNCIL ACTION:
October 15, 2020:

ORDINANCE NUMBER:

ISSUES
No issues have been identified for this project.

CASE MANAGER COMMENTS:
The proposed Rainey Street Electrical Substation will be a City owned and Austin Energy operated facility located in the Rainey Street District and serving downtown Austin. The applicant is requesting public (P) zoning for this major publicly owned facility. The rezoning site is along the west side of IH 35 frontage road and bordered on the east by East Avenue. Access will be from Lambie Street on the south. River Street is the north border of the site. The property
is locally known as 806 ½ Lambie Street and previously addressed as 734 and 800 ½ Lambie Street; 55 and 55 ½ East Avenue; 50 ½ North Interstate Highway 35 Service Road Southbound. This rezoning case includes two tracts of land. The first tract, zoned SF-3, is a 0.4729-acre tract (20,599.52 square feet). The second tract, which is unzoned, is a 0.9702-acre (42,261.91 square feet). The total site was surveyed as 1.440-acres (62,861.44 square feet). The site is currently vacant.

Public (P) District Designation
25-2-145

Public (P) district is the designation for a government, civic, public service, or public institution use. A Public (P) district designation may be applied to a use which located on property used or reserved for a civic or public institutional purpose or for a major public facility, regardless of ownership of the land which the use is located.

Public District Regulations
25-2-625(D.) (2.)
For a site of one acre or more, the site development regulations are established by the approval of a conditional use site plan. The site is 1.440 acres according to the survey submitted with the application.

BASIS OF RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.

   P – Public district land owned or leased by federal, state, county, or city government. The Applicant requests public (P) zoning for a facility that will be owned by a city government, Austin Energy.

2. The proposed zoning should satisfy a real public need and not provide special privilege to the owner.

   The zoning is for a major utility facility, an electrical substation, that distributes electricity to the community.

3. The rezoning should be consistent with the policies and principles adopted by the City Council or Land Use Commission.

   It is City Council’s general policy that all City owned or leased land be zoned public (P) district.

### RELATED CASES:
No cases found

### LEGAL DESCRIPTION
Metes and bounds.

### OTHER STAFF COMMENTS:

**Urban Design**

**Downtown Austin Plan**

The property is in the Rainey Street District of the Downtown Austin Plan (DAP). The applicant is proposing to change the zoning from SF-3 to Public (P), for the purpose of constructing a substation.

- The Downtown Austin Plan has this address earmarked as “Public Sites with Potential for Change”

**District Specific Goals:**

- Establish an infrastructure master plan to promote an adequate roadway, pathway and utility network. (pg. 58)

Based on the information above, Staff believes that the proposed zoning change is supported by the Downtown Austin Plan.
Environmental
1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Lady Bird Lake Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Zoning district impervious cover limits apply in the Urban Watershed classification.
3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.
7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Site Plan
SP 1. Site plans will be required for any new development other than single-family or duplex residential.
SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.
SP 4. Any new development may be subject to the use and design standards of the Convention Center Zoning District, the Downtown Density Bonus Zoning District, the Rainey Street Subdistrict of the Waterfront Overlay Zoning District, and the Rainey Street Subdistrict of the Downtown Austin Plan. Among other requirements, habitable buildings will be required to meet Green Building Standards.
Transportation

The Austin Strategic Mobility Plan (ASMP), adopted 04/11/2019, requires 70 feet of right-of-way for East Avenue. It is recommended that 35 feet of right-of-way from the existing centerline should be dedicated for East Avenue at the time of subdivision or site plan. A traffic impact analysis is not required at this time.

**Austin Water Utility**

AW1. If water and wastewater utility service is required, service extension requests (SER) will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact Alberto Ramirez with Austin Water, Utility Development Services at 625 E. 10th St., 7th floor. Ph: 512-972-0211.

AW2. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

AW3. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission’s name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: I object, as this is a predominantly residential neighborhood, to any change for those portions of the property zoned SF-3. I want it kept as predominantly residential.

I want to attend any and all hearings on this change and appoint my attorney, Stephen Salomick, to speak on my behalf.
