

Adler Motion Sheet: Item 72, 74 and 75 as follows:

I move to amend items 74 and 75 to establish an emergency relief function to provide funding to businesses that need short-term emergency relief to enable the businesses to stay in business while applying for longer term relief funds.

Additionally, I direct that the Chapter 380 programs being created include provision of legal and financial expertise for businesses who are seeking relief through the programs to assist in such matters as extension of rental relief and other relief that enables the businesses to survive long-term.

I move to amend Item 72 to allow no more than \$1,500,000 to be used for the emergency relief for the grant programs created by Items 74 and 75 and the consultant relief for the Chapter 380 being developed by staff. If the City Manager determines that additional funds are required to accomplish this stated purpose, he is directed to place the necessary instruments on a Council agenda for consideration and approval.

Staff shall bring the 380 programs for Council approval no later than November 12, 2020.
