Additional Backup Information:

The Emergency Medical Services Department has received reimbursement from the Travis County Healthcare District (d/b/a Central Health) for the Medical Access Program (MAP) patients for the past eleven or more years under previous interlocal agreements with Central Health. On June 1, 2013, Central Health and the Seton Healthcare Family created the Community Care Collaborative (CCC), which is a 501(c)(3) corporation designed to be an integrated delivery system that provides a coordinated continuum of services to a defined patient population. The CCC now oversees and funds the MAP and reimburses the City for the transport of MAP beneficiaries.

In October 2012 an initial agreement was created with Community Care Collaborative and in October 2013 the City entered into a new agreement, which provided the ability for three additional one-year terms. The City exercised the renewals in 2014, 2015 and 2016. In October 2017, a new agreement was initiated and provided ability for three additional one-year terms. This request for Council action is the third renewal of the October 2017 agreement, with a term of October 1, 2020 through September 30, 2021.

Strategic Outcome(s):

Safety.
