Sylvia Holt-Rabb, Acting Director/Economic Development Dept. 512-974-3131, Dusty McCormick, Economic Development Liaison, 512-974-6390.

Additional Backup Information:

This action is to conduct a public hearing to consider an ordinance amendment to update the City's Enterprise Zone Program established in Ordinance No. 20071018-008. The original ordinance was adopted by City Council on October 18, 2007, in order to submit future enterprise zone project applications to the Texas Enterprise Zone Program. State law requires a public hearing be held by Council to consider amending the ordinance. The update recognizes the previously omitted local incentive "road repair" from the original and subsequent ordinances, per Texas Government Code, Section 2303.405 (d)(4)(B). By approving this ordinance, the State will allot additional points under the "Local Participation" section of future enterprise zone project applications approved by the City. The Texas Enterprise Zone Program is an economic development tool for local communities to partner with the State of Texas to promote job creation and capital investment with emphasis on distressed areas through incentives.

Communities may nominate a qualified business as an Enterprise Project. Designated projects are eligible to apply for state sales and use tax refunds on qualified expenditures. The level and amount of refund is related to the capital investment and jobs created at the site. Corporations that are nominated as Enterprise Zone Projects would be eligible for a refund of State sales and use tax based on the employment criteria and the amount of capital spent at the qualified business site. The Texas Legislature currently authorizes 105 state designations each biennium. The City is eligible to receive up to nine (9) Enterprise Projects designations based on availability and competitiveness of the project every two (2) years.
