

2nd MOTION SHEET
Zoning Case No. C14-2020-0116

Move approval on 3rd reading of item number 89 with further direction to the City Manager as follows:

The City Manager is directed to:

- Identify the findings and recommendations from the FM1626 Preliminary Engineering Report (PER) that are being incorporated into actual projects by TxDOT or other agencies; and identify what is yet to be funded/programmed in the four years since the report was completed
- Summarize what transportation improvements that have been constructed -- or required to be constructed -- due to mitigations from approved developments in the FM1626/Old San Antonio Rd./Brezza Lane/S 1st St. area in the period since the FM1626 PER was completed
- Identify the transportation infrastructure needs in the FM1626/Old San Antonio Rd./Brezza Lane/S 1st St. area that are not mentioned in the FM1626 PER due to increased development activity-and are identified in the City Council adopted Austin Strategic Mobility Plan.
- Include Austin Transportation Department, Watershed Protection Department, Public Works Department, Parks and Recreation Departments and any other relevant departments in this comprehensive work as well as review and reprioritize sidewalk and bicycle master plans in the area and identify the mechanisms by which improvements can be made
- Identify previously funded work, i.e., mobility bonds and programmed projects, that are applicable and can contribute to this work and identify any funding mechanisms-that have not been utilized.
- Report the results of this work to Council no later than October 1, 2021
