ZONING CHANGE REVIEW SHEET

CASE: C14-2021-0014 – 2200 E. Riverside

DISTRIBUT: 3

ZONING FROM:
East Riverside Corridor (ERC) district - Neighborhood Mixed Use (NMU) subdistrict

ZONING TO:
East Riverside Corridor (ERC) district - Corridor Mixed Use (CMU) subdistrict

ADDRESS: 2200 E. Riverside Drive

SITE AREA: 1.99 acres

PROPERTY OWNER:
FBZ Town Lake Circle III, LLC (Diana Zuniga)

AGENT:
Drenner Group (Leah Bojo)

CASE MANAGER: Kate Clark (512-974-1237, kate.clark@austintexas.gov)

STAFF RECOMMENDATION:
Staff recommends East Riverside Corridor (ERC) district zoning, to change the subdistrict to corridor mixed use (CMU), and to amend Figure 1-8 (East Riverside Corridor Development Bonus Height Map) to allow for a maximum height of 120 feet through the density bonus program. For a summary of the basis of staff’s recommendation, see page 2.

PLANNING COMMISSION ACTION / RECOMMENDATION:
April 13, 2021  Approved staff’s recommendation on the consent agenda.
Vote: 12-0. [Commissioner Azhar – 1st, Commissioner Schneider – 2nd; Commissioner Shieh was absent].

CITY COUNCIL ACTION:
May 6, 2021  Scheduled for City Council

ORDINANCE NUMBER:

ISSUES
Currently there are no known issues. Staff has received comments in favor of this rezoning request. For all written or emailed comments, please see Exhibit E: Correspondence Received.
CASE MANAGER COMMENTS:

This site is currently undeveloped and is zoned ERC with a subdistrict designation of NMU and a density bonus height of 65’. It is approximately 1.9 acres and is located on the northeast side of E. Riverside Drive. It is adjacent to existing ERC zoned properties on all sides. The properties to the north, east and across E. Riverside Drive are designated with a subdistrict of CMU with a density bonus height of 120’; to the south is a property with a subdistrict designation of NMU with a density bonus height of 65’. Please see Exhibit A: Zoning Map, Exhibit B: Aerial Map and Exhibit C: ERC Maps.

The applicant is requesting to rezone their property to change the subdistrict from NMU to CMU to allow for general retail use and to modify Figure 1-8 to increase the allowable height through the development bonus program of the ERC Regulating Plan. Per their application, they are proposing a mixed use development with up to 250 units. Due to the number of proposed residential units, staff sent AISD the Educational Impact Statement (EIS) forms provided in the rezoning application. Their response is included in Exhibit D: EIS from AISD.

BASIS OF RECOMMENDATION:

1. Zoning changes should promote compatibility with adjacent and nearby uses.

The subject property is accessed from E. Riverside Drive and is adjacent on two sides and across the street from existing properties designated with a subdistrict of CMU, all of which are eligible for 120’ through the development bonus program. Rezoning this property to match the adjacent subdistricts and modifying Figure 1-8 (East Riverside Corridor Development Bonus Height Map) would be consistent with the existing zoning pattern.

RELATED CASES:
C14-2012-0111 (East Riverside Corridor Regulating Plan-East Riverside Oltorf Combined Neighborhood): this case rezoned approximately 700 acres from various to ERC. ERC base district zoning was granted by City Council on May 9, 2013 (Ordinance No. 20130509-039).

C14-2011-0129 (East Riverside Corridor Regulating Plan): this case attempted to rezone approximately 1,000 acres from various to ERC. Rezoning case expired, Planning Commission and City Council did not take action on this case.

OTHER STAFF COMMENTS:

East Riverside Corridor Regulating Plan (ERC) Review

The 1.99-acre property is located within the ERC planning boundary and currently zoned as Neighborhood Mixed Use (NMU). The applicant is requesting to rezone this property from NMU to Corridor Mixed Use (CMU), and for the height bonus to be increased from 65’ to 120’. The purpose of this rezoning is to allow general retail use and increased height and density.

- Properties to both the West and North of the address are zoned CMU and allow for a height bonus of 120’. The allowance to participate in the density bonus program to obtain the requested height of 120’ will allow for more affordable housing and promotes higher density, which supports transit development along this Future Rail Line corridor.

- The property is located along the ERC Core Transit Corridor and within one of the ERC Hubs, which per the regulating plan where the most intensive development within the corridor is encouraged.

Based on the information above, staff believes that the proposed rezoning change request is supported by the East Riverside Corridor Regulating Plan

Environmental

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Ladybird Lake Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code.

2. Zoning district impervious cover limits apply in the Urban Watershed classification.

3. According to floodplain maps there is no floodplain within or adjacent to the project location. COA GIS indicates a Critical Water Quality Zone is located within the property. Development is limited within the Critical Water Quality Zone per LDC 25-8 Article 7, Division 1.

4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 square feet cumulative is exceeded, and on site control for the two-year storm.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**PARD Review**

PR1: Parkland dedication will be required for the new residential units proposed by this development, multifamily with ERC-CMU zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended.

The East Riverside Corridor Regulating Plan has specific requirements regarding the eligibility for the development bonus: to be eligible for the bonus, there must be some parkland dedicated as part of the development (cannot be satisfied only through fee in-lieu). See Article 6.4.2 of the Regulating Plan. PARD approval is required to authorize the development bonus.

Should fees in-lieu be required, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant’s request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

**Site Plan**

SP1. Site plans will be required for any new development other than single-family or duplex residential.

SP2. Any new development is subject to the requirements of the East Riverside Corridor Regulating Plan. Additional comments will be made when the site plan is submitted.

**Scenic Roadways**

SP3. This site is within the Scenic Roadway Sign District. All signs must comply with Scenic Roadway Sign District regulations. Contact Viktor Auzenne at (512) 974-2941 for more information.
Demolition and Historic Resources

SP4. The applicant is responsible for requesting relocation and demolition permits once the site plan is approved. The City Historic Preservation Officer will review all proposed building demolitions and relocations prior to site plan approval. If a building meets city historic criteria, the Historic Landmark Commission may initiate a historic zoning case on the property.

Transportation

ASMP Assessment
The Austin Strategic Mobility Plan (ASMP) adopted 04/11/2019, calls for 140 feet of right-of-way for E Riverside Drive; there is sufficient right of way at this time.

Transportation Assessment
Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan application. A Traffic Impact Analysis shall be required at the time of site plan if triggered per LDC 25-6-113.

Austin Water Utility

AW1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

EDUCATIONAL IMPACT STATEMENT

PROJECT NAME: 2200 E. Riverside Dr.
ADDRESS/LOCATION: 2200 E. Riverside Dr.
CASE #: C14-2021-0014

☐ NEW SINGLE FAMILY  ☐ DEMOLITION OF MULTIFAMILY
☒ NEW MULTIFAMILY  ☐ TAX CREDIT

# SF UNITS: _______ STUDENTS PER UNIT ASSUMPTION
Elementary School: _______ Middle School: _______ High School: _______
# MF UNITS: 250 STUDENTS PER UNIT ASSUMPTION
Elementary School: .004 Middle School: .004 High School: .005

IMPACT ON SCHOOLS

The student yield factor of 0.013 (across all grade levels) for apartment homes was used to determine the number of projected students. The application did not include proposed rental rates, therefore, the student yield factor, provided by the district’s demographer is based on other market rate multifamily complexes built within the area.

The proposed 250-unit multifamily development is projected to add approximately 3 students across all grade levels to the projected student population. It is estimated that of the 3 students, 1 will be assigned to Metz Elementary School (to be combined with Sanchez at a new campus in SY 2021-22), 1 to Martin Middle School, and 1 to Eastside Memorial Early College High School.

Please note, the data provided shows the merging of the Sanchez and Metz campuses at the new Sanchez campus, scheduled to open in SY 2021-22.

The percent of permanent capacity by enrollment for School Year 2025-26, including the additional students projected with this development, would be within the optimal utilization target range of 85-110% at the new Eastside ECHS (87%), and below the target range at Metz ES (80%) and Martin (27%). The projected additional students at Metz and Martin would not offset the anticipated decline in student enrollment. All of these schools will be able to accommodate the projected additional student population from the proposed development.

TRANSPORTATION IMPACT

Students within the proposed development attending Metz ES, Martin MS, or Eastside Memorial ECHS will qualify for transportation.

SAFETY IMPACT

There are not any identified safety impacts at this time.

*preliminary capacity for the new Eastside campus scheduled to open in SY 2021-22
Hello,

I received the notice of public hearing for the rezoning of the 2200 E. Riverside Drive lot, and I would like to speak FOR the proposed rezoning on the April 13th Planning Commission meeting.

Thank you,

--

Naren Makkapati
*** External Email - Exercise Caution ***

I wish to register my support for the zoning changes proposed for the property designated as C14-2021-0014 – 2200 E. Riverside. I do not need to speak.

I was a part of the group that worked on the Riverside TOD plan and stayed with it to the end to get it through the city. This change is appropriate for this property.

Larry Sunderland
Member of EROC and Friends of Riverside.
