KITCHEN DIRECTION

ITEM #14

I move to amend Item 14 to include the following direction:

In approving the FY 2020-21 Development Services Department Operating Budget to increase the number of authorized staff positions by 41 full-time equivalent staff positions, consider the following and report back to Council, if feasible and necessary as part of budget conversations or no later than September 2, 2021:

- Evaluate the permit review times identified for SMART Housing projects and develop a recommendation for Council consideration which would apply a prioritized review timeframe for other applicable affordable housing projects, such as Affordability Unlocked and Low-Income Housing Tax Credit projects.
- Review all City department staffing involved in site plan, subdivision, and building permit reviews to ensure sufficient staffing in those departments to meet the recommended affordable housing prioritized review timeframe.
