

Amend CM Tovo's non-homelessness amendment v2:

The City Manager is directed to **provide the Council options on how to** prioritize any unspent funds within the adopted framework to the "Food Security / Food Access" portion of the "Resilience" **category along with options for any other high priority items from additional categories as appropriate**. Additional funds that are added to the "Food Security / Food Access" portion of the "Resilience" category should be allocated to the most high-impact investments within the revised Nourish Austin proposal.
