

BOARD/COMMISSION RECOMMENDATION

Human Rights Commission

Recommendation Number 20210726-003b: Public Health Crises and Vaccine Inequities

WHEREAS, Covid19 pandemic has disproportionately impacted low income communities and communities of color;

WHEREAS, solutions are not equitable in terms of digital access and transportation; and

WHEREAS, the only way we can end this pandemic is vaccinating our population and reaching herd immunity;

NOW, THEREFORE, BE IT RESOLVED that the Human Rights Commission recommends ease access to vaccine registration portals and administration of vaccines in a culturally sensitive manner by exploring all available means in order to create short, medium, and long-term solutions for public health crises and vaccine inequities in Austin.

Date of Approval: July 26, 2021
