MEMORANDUM

Date: January 4, 2021
To: Kathy Smith, P.E., PTOE (HDR)
CC: Curtis Beaty, P.E. (ATD); Joan Minyard EIT (ATD)
Reference: Goodnight Ranch PUD 2nd Amendment – TIA Final Memo
C814-04-0187.02.SH

Summary of the Transportation Impact Analysis (TIA):

The Austin Transportation Department (ATD) has reviewed the March 15, 2019 (received March 18, 2019) “Goodnight Ranch” Transportation Impact Study (TIA), prepared by HDR, Inc. and discussed with the applicant the 06-21-19 City of Austin TIA Memorandum. This PUD proposed land uses consist of 1,157 dwelling units of Single-Family Detached Housing (includes 104 dwelling units existing on site), 1,015 dwelling units of Multifamily (low-rise), 3,861 dwelling units of Multifamily (mid-rise), 15,000 square feet of Recreational Community Center, Elementary School of 560 students (existing on site), Middle School of 1,100 students (305 students are existing on site at Elementary School), High School of 1,200 students, 15,000 square feet of Day Care Center, 310,000 square feet of General Office Building, and 160,000 square feet of Shopping Center. The Goodnight Ranch development is located along East Slaughter Lane, between Nuckols Crossing Road and Capitol View Drive, northeast of Old Lockhart Highway, in southeast Austin. The development is anticipated to be fully constructed by 2027.

The following is a summary of the review findings and recommendations:

1. The applicant shall design and construct the improvements identified in Table 3, below, including any utility relocation and transportation infrastructure replacement such as sidewalks, transit stops, etc. which may be impacted by these improvements. Improvements to be built by the applicant should be included with the first site plan of the associated phase. No temporary certificate of occupancy (TCO) or certificate of occupancy (CO) shall be issued until the construction of the identified improvements is complete. Note: Cost estimates **should not** be assumed to represent the maximum dollar value of improvements the applicant may be required to construct. See Exhibit B for phasing information.
2. Fee-in-lieu contribution to the City of Austin shall be made for the improvements identified in Table 3 totaling \$300,000 before the first site development permit for the associated phase is issued. See Exhibit B for phasing information.
3. Development of this property should not vary from the approved uses or deviate from the approved intensities and estimated traffic generation assumptions within

- the finalized PUD TIA memo, including land uses, trip generation, trip distribution, and other identified conditions. Applicant should consult with ATD and other responsible authority (TxDOT and/or Travis County) for driveway locations and traffic controls based on the Transportation Criteria Manual and Land Development Code in future site plan submittals. Any change in the assumptions made in the PUD TIA document shall be reviewed by ATD and may require a new or updated TIA.
4. One electronic copy of the final TIA shall be provided to ATD prior to the issuance of any site development permit. At time of submittal, one physical copy and one electronic copy of the final TIA shall also be provided to Travis County.

Site Location and Existing Conditions:

The proposed development is intending to use eleven driveways for site access. The driveway details are as mentioned below:

- Driveway A – Full access at Pleasant Valley Drive.
- Driveway B – Full purpose at Nuckols Crossing Road.
- Driveway C – Right-in/right-out at Slaughter Lane.
- Driveway D – Full purpose at Slaughter Lane.
- Driveway E – Full purpose at Slaughter Lane.
- Driveway F – Full purpose at Slaughter Lane.
- Driveway G – Right-in/right-out at Slaughter Lane.
- Driveway I – Full purpose at Old Lockhart Highway.
- Driveway J – Full purpose at Old Lockhart Highway.
- Driveway K - Full purpose at Old Lockhart Highway.

Assumptions:

1. A 34% reduction for pass-by was assumed for PM peak trip retail land uses only.
2. Based on TxDOT AADT volume data, a two (2) percent annual growth rate was assumed to account for the increase in background traffic.
3. Below are the background projects that were assumed to contribute trips to surrounding roadway network in addition to forecasted traffic for 2027:
 - Onion Creek Metro Park
 - Legends Way
 - Bella Fortuna

Proposed Conditions:**Trip Generation and Land Use**

Based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (10th Edition), the development would generate approximately 56,633 average daily trips (ADT) upon final build-out. Table 1, below, shows the trip generation by land uses for the proposed development which has been split into two tracts, north and south.
