

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted both online and in-person at which you will have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for further information on how to participate in the public hearings. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or person listed on the notice) before the public hearing. Your comments include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice. Correspondence and information submitted to the City of Austin are subject to the Texas Public Information Act (Chapter 552) and will be published online.

I object to the rezoning of Research Park without the following conditions...

1. The neighborhood wants and needs a continuous and dense tree buffer planted west of the power lines all the way from Lot 11 into what used to be labeled as Lot 14F to McNeil Road in order alleviate light and noise pollution adjacent to our backyards.

2. We want the developers to adhere to all the prohibited uses recommended by the Planning & Zoning Commission hearing on 9/7/2021.

3. There are 2 additional prohibitions we requested that were not addressed and they are...

NO Automotive Rental facilities

NO Off-site Accessory Parking

The headlights of vehicles driving behind our homes 24/7 would significantly reduce our quality of life.

Thank you for your consideration.

Comments: I have deep concerns about
flooding during heavy rains due to my
experience with this issue during the past
23 years of living at this address.
Given the natural state of the land behind
my house and how badly the government has
flooded I don't think it will be any better
after the development. I have deep
concerns for my property due to past flooding.

Zoning Case # C14-2021-0012

Case Manager : Sherri Sirwaitis

Phone # 512-974-3057

sherri.sirwaitis@austintexas.gov

From : Properties owners along west side of McNeil,
Mehdi Zarchi, Elham Tarkashvand, Abraham Birgani

I am Elham Tarkashvand the property owner of 12603 Blackfoot Trl. Lot 4 & 5 of Indian Oaks, today I am speaking on behalf of a few neighbors who are concerned about the Research Park rezoning Case # C14-2021-0012.

- There is an existing sinkhole on Lot 5 on my property at the corner of McNeil Dr. and Blackfoot Trl, which is the lowest point of over 150 acres of land from the Research Park and Indian Oaks neighborhood and all of the runoff water drains toward this sinkhole in my property.

-Historically we always had flooding at this corner ,fortunately during early 2000 the city of Austin installed an 18 to 24 inch RCP drain pipe which removes the excessive water from this corner and helps some with less flooding of our property.

Please make note that this existing RCP pipe is not even enough to handle the run off water from Indian oaks and the properties on our side of McNeil Dr.

-please just consider what would happen when Research Park fully develops, for sure it will create major flooding of water from 100 to 150 acres around our properties.

-We are asking city staff and city councils to take this issue very seriously by asking either the applicant or city of Austin to install a proper drainage system along the Mcneil on the Research Park's side to prevent the water run off to our side and cause flooding of our properties.

Sincerely,

Elham Tarkashvand 512-789-5224

Mehdi Zarchi 512-789-7766

Abraham Birgani 512-998-2525
