Proposal, Ownership and Financing Structures

In collaboration with the City of Austin and AHFC, the Non-Profit Corporation will contract with Family Eldercare to rehabilitate and operate the facility, a hotel conversion project, to create new, permanent supportive housing in the City of Austin. This Development will include 78, fully furnished, efficiency apartments. Each apartment will contain one bed. Potential residents will be referred through our community’s Coordinated Entry System. Eligible individuals will be single adults with a documented chronic homelessness history and a disabling condition. This is a permanent resident site where individuals will receive a yearly lease to live in the Development. To ensure that individuals have access to the right level of care to support their recovery and maintain housing, Family Eldercare will provide onsite support services. Experience indicates that most people moving into housing from homelessness have a co-morbid healthcare need such as mental illness, substance use disorder, chronic medical conditions, or a combination of all of them. Onsite clinical and program staff will include: a licensed professional of the healing arts who will serve as a program manager, various case management staff, and peer support specialists. Services provided by the team will include case management, service coordination, living skills training, housing stability support, assistance accessing basic needs, and community building activities.
