

CM Pool amendments to CM Kelly's Item 55

I move to add the following WHEREAS clause after line 28 (should be the final WHEREAS clause):

“WHEREAS, Council considers it very important to review the research and recommendations from ratings agencies, financial regulators, financial oversight organizations, and professional associations on the use of cryptocurrency technology or blockchain by municipal government;”

I also move to add a 5th item to the BE IT RESOLVED starting page 2, line 30 (to be inserted after line 41):

(5) “considerations related to the research and recommendations from ratings agencies, financial regulators, or financial oversight organizations on the use of cryptocurrency technology or blockchain by municipal government.”
