

## 2002 Scenic Drive

The original house (not the 1940s renovation portion) is a stone structure with many wonderful stone carvings. The construction and stone carvings are similar (but much more elaborate) than the other remaining stone “fishing cabins” built at the same period. The photos below show some of this beautiful work on the exterior of the home.

## 2002 Scenic Drive

Photos of some of the stone work in the interior of the home. Carvings are placed randomly throughout the stone portions of the home.
