Hi,  
I am writing in support of the vacation of Harvey Street between 12th and Sol Wilson. I live at 2604 Sol Wilson, and have been the Homewood Heights neighborhood president for several years, have lived in that house since 2005. It has always been a concern of mine that nothing would be commercially feasible at the corner of 12th and Oak Grove if this non-existent street is not vacated. It bisects the property to the west of it in such a way as to preclude realistic development of any kind here. And this street can't be built out...it would create a horrible traffic issue here if it were.

To move our neighborhood forward, we need several streets like this vacated. We have several non-existent streets on the plat map in our immediate area. Some of the other non-existent streets come with issues around preserving green space, steep slopes, etc. But the vacation of this section of Harvey is a no-brainer. We need this to happen so that something constructive can be built on this corner.

Thanks!  
Greg Hammond,  
Resident and current neighborhood president
