

Monthly Report on License Agreements 2022 - 05 May

This report is in agreement with the terms outlined in Section 8.4 of the License Agreement between the City of Austin and Austin Pets Alive! with a focus on APA!’s impact on Travis county through our partnership with Austin Animal Center.

Summary: Austin Pets Alive! (APA!) continues to be the city of Austin’s largest partner in lifesaving and the largest subsidizer of the city’s budget to serve Austin animals. APA! takes animals with medical and behavioral issues requiring a higher cost per animal than the average healthy animal in care. APA! focuses on these animals to have a measurable effect on the live release rate at AAC.

Operations Impact

APA and AAC serve the community in tandem and our combined efforts impact the live release rate across the city, county, and surrounding areas. *dogs and cats only

	<u>Intake</u>	<u>S/N at the Shelter</u>	<u>In Foster</u>	<u>Adoptions</u>
AAC	1,333*	410	397	468
APA!	1,089	565	1,270	871
TOTAL	2,422	975	1,667	1,339

APA! Intakes from AAC % of Prior Fiscal Year-To-Date

AAC Dog and Cat Intake 21	5,917
APA! Intake from AAC 22 (AAC reported)	939
APA! Intake from AAC 22 (APA reported)*	1,064
APA! Intake from Travis County	310
APA! Intake as a % of AAC Intake	15.9% or 18.1%
APA! Travis Intake as a % of AAC Intake	5.2%

APA! Intakes from AAC % of Current Fiscal Year-To-Date

AAC Dog and Cat Intake 22	8,551
APA! Intake from AAC 22 (AAC reported)	939
APA! Intake from AAC 22 (APA reported)*	1,064
APA! Intake from Travis County	310
APA! Intake as a % of AAC Intake	11.0% or 12.4%
APA! Travis Intake as a % of AAC Intake	3.6%

APA! Intakes transferred from AAC:

According to AAC’s data dashboard: 345 animals were transferred out of AAC to 30 partners: 190 were transferred to APA!. According to APA’s records: 214 animals were transferred to APA! plus 17 born in care that AAC does not count, for a total of 231 transfers. This is a difference of 41 pets in May, most of which were animals born after being tagged by APA or during transport to APA. These animals are not counted as “inventory” at AAC, which is why we continue to be concerned that they are not safe if

APA! does not take them in. (see attachment). Additionally, APA! took in 66 pets directly from owners within Travis county that would otherwise have entered AAC.

***Note: AAC only assigns behavior ratings to dogs that are placed on attention. This requires APA! to apply ratings in an effort to triage the most in need pets that we are able to help. APA! has begun including AAC transfers with behavioral conditions as behavior pulls regardless of the behavioral rating given by AAC, or lack thereof. In 2022, there have been 2 dogs that were medically transferred with significant behavioral challenges. Neither was in May but this change will be reflected on the 2nd quarter Animal Advisory Commission report.*

AAC - Cat BIC	6
AAC - Cat Bottle Baby	132
AAC - Cat Maternity	12
AAC - Cat Medical	18
AAC - Dog BIC	11
AAC - Dog Behavior Large/Medium	2
AAC - Dog Bottle Baby	8
AAC - Dog Maternity	13
AAC - Dog Medical	8
AAC - Dog Parvo Transfer	20
AAC - Dog Space Large/Medium	0
AAC - Dog Space Small	1
TOTAL AAC	231
Travis - PASS	60
Travis - Parvo OS/PASS	6
TOTAL TRAVIS	294

**AAC and APA numbers are traditionally close except for born-in care. If AAC would not spay/abort, the animals born in care to APA should be counted as removed from AAC's care. May's transfer numbers are vastly different, and both teams are attempting to reconcile the differences. See attached data as of 6/10/22 at 10 am.*

Survival Rates of AAC Medical Transfer Pets

This looks at pets transferred from AAC to APA as "Med-Urgent," "Med-Attn," and "Parvo" from the month before the month of the report. In compliance with our license agreement, neonates, parvo, and panleuk pets are all medical transfers. APA has always taken in the most vulnerable, with higher mortality rates due to the condition making them vulnerable. We believe it is important to continue taking all of the animals tagged as urgent in order to save the most. We do not know which ones will survive in advance, but we believe that the high live release rate shows we should continue to triage this animal group.

Total Transferred	123
Adopted	70
In Foster	33
Deceased	14
