

Motion Sheet #3 re: Affordable Housing

I move to make the following changes to the ordinance:

1) Modify Section 25-1-601 (C) to add a new (4) to read as follows:

(4) affordable dwelling units for which the applicant is participating in government-operated affordable housing program that requires the applicant to provide on-site affordable units including, but not limited to, housing developer assistance, low-income housing tax credits, and density bonus or other incentive programs.
