**MBE / WBE:** N/A

Chapter 26 of the Parks and Wildlife Code provides that the use of parkland for non-park purposes may be approved upon a finding that there is no feasible and prudent alternative to the use of this land. The Public Works Department on behalf of the Austin Water Utility, and the Watershed Protection and Development Review Department hereby requests authorization for the construction, operation and maintenance of drainage and utility facilities.

The proposed improvements require a wastewater and a drainage use over and across the Walnut Creek Greenbelt to serve the Pioneer Hill TND. The improvements are shown on Exhibit "A". In mitigation, Continental Homes of Texas, L.P., the developer of Pioneer Hill TND ("Continental"), has agreed to the following:

- a. Brush clearing for a primitive trail.
- b. Construction of a revegetated grass trail over the use area of the wastewater line.
- c. Construction of a six-foot wide concrete trail located along certain single-sided streets abutting open space areas. The six-foot trail provides improvements for the parkland in Pioneer Hill above and beyond the sidewalks otherwise required by ordinance, resulting on approximately 10,000 square feet of additional trail surface.

Approval of the use of parkland is made on the condition that all restoration is completed in accordance with the Standard Specifications and Construction Standards of the City of Austin and the Parks and Recreation Department's "Construction in Parks Specifications". Continental is required to pay any and

all costs associated with the restoration.

There is no feasible and prudent alternative to the use of the dedicated parkland, which includes all reasonable planning to minimize harm to such lands. The dates of public notification in the Austin American-Statesman are January 16, January 23, and January 30, 2005.
