
REQUESTING DEPARTMENT: Neighborhood Planning and Zoning

DIRECTOR'S AUTHORIZATION: Greg Guernsey
ZONING CHANGE REVIEW SHEET

CASE: C14-04-0174

ADDRESS: 11920 N. IH 35 Service Road Southbound

OWNERS: Lyly Fisher

AGENT: The Hertz Corporation (Paul Wucker)

ZONING FROM: LO

TO: GR

AREA: .39 acres

SUMMARY STAFF RECOMMENDATION:

Staff’s alternate recommendation is community commercial – conditional overlay (GR-CO) combining district zoning. The conditional overlay will limit vehicle trips to 2,000 per day.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

November 16, 2004 – Postponed to December 2, 2004 at the request of the neighborhood (Vote: 9-0).

December 7, 2004 – Approved community commercial – conditional overlay (GR-CO) combining district zoning. The conditional overlay limits trips to 2,000 per day and limits the site to automotive rentals only and all LO uses (Vote: 8-0, C. Hammond – ineligible to vote).

ISSUES:

The applicant is seeking a zoning change in order to use an existing office building for an auto rental business.

CITY COUNCIL DATE: January 13, 2004

ACTION:

ORDINANCE READINGS: 1st 2nd 3rd

ORDINANCE NUMBER:

CASE MANAGER: Glenn Rhoades

PHONE: 974-2775
STAFF RECOMMENDATION

Staff’s alternate recommendation is community commercial – conditional overlay (GR-CO) combining district zoning. The conditional overlay will limit vehicle trips to 2,000 per day.

BASIS FOR RECOMMENDATION

The proposed zoning should be consistent with the purpose statement of the district sought.

GR – Community Commercial zoning is intended for office and commercial uses serving neighborhood and community needs, including both unified shopping centers and individually developed commercial sites, and typically requiring locations accessible from major traffic ways.

The property meets the purpose statement set forth in the Land Development Code. It is located on the periphery of a residential neighborhood and is accessible to IH-35.

The proposed zoning should promote consistency, and orderly planning.

Other properties in the immediate vicinity are zoned commercial or used for commercial businesses. The property to the south is zoned CS and is used for limo rentals, and property to the north is occupied with an equipment rental business. Given the uses in the immediate vicinity, staff believes the request to be consistent and compatible with the area.

The proposed zoning should allow for a reasonable use of the property.

The proposed change is a fair and reasonable use of the property, due to the commercial nature of the area and the properties close proximity to IH-35.

EXISTING CONDITIONS

Site Characteristics

The site is currently developed with an office building.

Transportation

The trip generation under the requested zoning is estimated to be 2,190 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

Additional right-of-way may be required at the time of subdivision and/or site plan.

Capital Metro bus service is available along IH-35.
**Impervious Cover**

The site is not located over the Edward's Aquifer Recharge Zone. The site is in the Desired Development Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Net Site Area</th>
<th>% with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single-Family (minimum lot size 5750 sq. ft.)</td>
<td>50%</td>
<td>60%</td>
</tr>
<tr>

<td>55%</td>
<td>60%</td>
</tr>
<tr>
<td>Multifamily</td>
<td>60%</td>
<td>70%</td>
</tr>
<tr>
<td>Commercial</td>
<td>80%</td>
<td>90%</td>
</tr>
</tbody>
</table>

**Environmental**

According to flood plain maps, there is no floodplain within, or adjacent to the project boundary.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

- Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any pre-existing approvals that preempt current water quality or Code requirements.

**Right of Way**

The scope of this review is limited to the identification of needs for dedication and/or reservation of right-of-way for funded Capital Improvement Program (C.I.P.) Roadway Construction Projects and Transportation Systems Management (T.S.M.) Projects planned for implementation by the City of Austin. No aspect of the proposed project is being considered or approved with this review other than the need for right-of-way for City projects. There are separate right-of-way dedication and reservation requirements enforced by other Departments and other jurisdictions to secure right-of-way for roadway improvements contained in the Austin Metropolitan Area Roadway Plan, roadway projects funded by County and State agencies, and for dedication in accordance with the functional classification of the roadway.

We have reviewed the proposed subdivision, site plan, or zoning case and anticipate no additional requirement for right-of-way dedication or reservation for funded C.I.P. or T.S.M. projects at this location.
Water and Wastewater

The landowner intends to serve the site with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City.

Compatibility Standards

This tract is already developed and the proposed zoning change is a footprint within the existing development. A change of use within the existing structure would not trigger compatibility development regulations. However, any new construction on this site would be subject to compatibility development regulations due to the existing SF-2 zoned property to the east and SF-1 to the south & west, and would be subject to the following requirements:

The site is subject to compatibility standards. Along the south, east and west property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Additional design regulations will be enforced at the time a site plan is submitted.
CITY ZONING AND PLATTING COMMISSION
December 7, 2004 [ANNOTATED]
One Texas Center
505 Barton Springs Road
Conference Room 325

CALL TO ORDER - 6:00 P.M.
COMMENCED: 6:10 P.M.

CONDUCT OF PUBLIC HEARINGS
1. Chair announces request.
2. Staff presents a summary of the case.
3. Chair calls on those FAVORING the request.
4. Applicant's presentation (5 minutes).
5. Others favoring the request (3 minutes).
6. Chair calls on those OPPOSING the request.
7. Primary presentation (5 minutes).
8. Others opposing the request (3 minutes).
9. Applicant is given opportunity to answer objections stated. (3 minutes)
10. Staff summation and questions from the Commission.
11. The public hearing on a zoning case may be closed and no further testimony is taken
    from the public.
12. If the public hearing is closed, the Commission shall make a recommendation to the
    City Council within 14 days or the case will be forwarded to the City Council
    without a recommendation. (Section 25-2-282).

All of the following items may be acted upon by one motion. The Commission does not consider items
earlier than the time stated on the agenda; "Other Business" items can be taken at any time. After the
posted time, the Commission Chairperson may announce the item and, if there is no opposition, the item
may be taken "by consent" for approval without discussion.

CITIZENS WISHING TO SPEAK BEFORE THE COMMISSION MUST REGISTER BY SIGNING
A LIST AT THE ENTRANCE (RED BOOK).

Any interested party aggrieved by a decision of the Zoning & Plating Commission on a Hill Country Site
Plan, Conditional Use Permit, Replacement Site Plan, or a Preliminary Subdivision Plan with an
environmental variance may only appeal the Commission's decision to the City Council. The notice of
appeal must be submitted in writing on a form provided by the Director of Neighborhood Planning &
Zoning Department within fourteen (14) days following the decision of the Zoning & Plating
Commission.
