PRIOR COUNCIL ACTION: N/A

BOARD AND COMMISSION ACTION: Recommended by the Water and Wastewater Commission.

PURCHASING: Lowest bid of two responsive bids received.

MBE / WBE: 2.65% MBE and 3.53% WBE subcontractor participation.

This project is being constructed in response to the Texas Department of Transportation's (TxDOT) expansion of US Highway 290 in the vicinity that will necessitate the removal of the existing US Highway 290 pump station. This water transmission main is the first of two projects that will connect the new Southwest C pump station to the existing Thomas Springs elevated storage tank. The project consists of the installation of approximately 11,000 linear feet of 30-inch water transmission main and appurtenances from the new pump station on Slaughter Lane to the intersection of Mowinkle Drive and Circle Drive. Approximately 1,250 feet of the transmission main will be installed using trenchless construction. The new transmission main will be routed through the Fox Run Ridge, Southview Estates, and Grenada Hills neighborhoods.

Due to the potential for unknown subsurface conditions and utility conflicts when working in the right-of-way, a 5% contingency in funding has been included to allow for the expeditious processing of any future change orders. The contract allows 300 calendar days for completion of this project.

Bid documents were distributed to 11 general contractors. Bids were opened on June 23, 2005. The Cash Construction Company, Ltd submitted the lowest responsive bid of 5 bids received:
